ANNEX [X - Norwegian concessions]
REFERRED TO IN PARAGRAPH 1(a) OF ARTICLE [X.] 20
SCHEDULE ON TARIFF COMMITMENTS ON GOODS
COMMITMENTS OF NORWAY ON GOODS ORIGINATING IN THE UNITED KINGDOM

The following terms and conditions shall apply to the tariff commitments granted by Norway to the United Kingdom in accordance with this Annex:

(1) Norway shall apply for the United Kingd om from the entry into force of the agreement the customs duties as set out in column 4b. Alternatively, Norway may in the future apply column 4a where applicable, ref NOTE4.

(2) For originating goods classified under the tariff lines identified as "PAP" (Processed Agricultural Products) in column 3, the following provisions shall apply:
(i) In order to take account of differences in the cost of the agricultural raw materials, the duty, levied upon import, shall be based on, but not exceed, the differences between the domestic price in Norway of the agricultural raw materials incorporated into the products concerned and the world market price of those raw materials.

(ii) Subject to the provisions in paragraph 2(i), Norway shall accord for products defined as PAP in column 3, originating in the United Kingdom the same treatment as given to the European Union[1)]. The concessions set out in column 4b are the same concessions as granted to the EU as of 1 January 2020. Subject to the provisions in subparagraph 2(i), if the concessions for these products are changed in the agreement between Norway and the EU, the United Kingdom shall simultaneously be offered identical concessions. For greater certainty, such offers shall not be subject to any conditions not contained in this Agreeement.

(iii) Norway shall publish the applicable import duties for processed agricultural products on the website of the EFTA Secretariat in the English language.

(iv) Norway shall notify the United Kingdom at an early stage, and in any event before their entry into force, of all measures applied under subparagraphs 2(i) and 2(ii) above.

(3) Norway shall, based on an end-use criteria, accord duty-free market access to fish feed and raw materials for making fish feed, originating in the UK.

NAMA = Non agricultural products
BAP = Basic agricultural products
PAP = Processed agricultural products. For processed agricultural products (PAP) marked with "*", Norway calculates the duty based on the actual content of certain agricultural raw materials.
X = No concession

The schedule below sets out customs duties into Norway for all goods originating in the United Kingdom falling under HS Chapters 1-24. All customs duties on non agricultural goods originating in the United Kingdom falling under HS Chapters 25-97 are eliminated. Customs duties for agricultural goods originating in the United Kingdom falling under HS Chapters 25-97 are listed below.

UK Conditional Market Access offer to Norway

The UK reserves the right to amend this tariff offer schedule if there are any errors. The tariff concessions shown in this document are indicative and are subject to final agreement between the Parties. This document does not create any legal obligation.

Tariff Line and Description

Note 1: "X" in the column "Tariff Offer Preference Rate", means tariff preference not given

Note 2: Where a TRQ offer includes products that are also offered staged liberalisation, the TRQ will continue to be offered and to apply during the staging period. Once liberalisation is complete, a TRQ will no longer be necessary for the line to which it applies

Note 3: The scope of products in this list is determined according to CN codes as they are implemented in UK legislation. CN codes and descriptions as set out in Table 1 are those that were in use in 2020.

ANNEX [x]

REFFERED TO IN PARAGRAPH 1(d) OF ARTICLE 2.20 – BILATERAL ANNEX BETWEEN NORWAY AND THE UNITED KINGDOM ON TRANSIT

Transit arrangement for transit of fish and fishery products taken by United Kingdom fishing vessels

ARTICLE 1

This Annex applies in respect of fish and fishery products from catches taken by fishing vessels flying the flag of the United Kingdom and landed directly to an approved agent in Norway. For the avoidance of doubt, this Annex shall not apply to Iceland.

ARTICLE 2

For the purpose of this Annex:

1. 'approved agent' means an entity approved by the Norwegian Directorate of Fisheries as an agent that may receive landings of fish intended for United Kingdom transit after landing in Norway.

ARTICLE 3

Fish and fishery products to which this Annex applies and which are intended for transit after landing in Norway under the terms of this Annex, and in respect of which the vessel has given prior notice to the Directorate of Fisheries in accordance with the information requirements and time limits specified by Norwegian authorities, shall not be subject to any requirement with the effect that they must be sold prior to exportation, including any requirement of first sale through or with the approval of a licenced fish sales organisations. Fish and fishery products which are intended for the transit arrangement shall not be cleared for free circulation in Norway and shall comply with Norway's customs legislation for carriage of goods.

ARTICLE 4

Requirements for prior notice and requirements for approval of agents shall not be introduced or applied in a manner that would constitute a disguised restriction on the right to utilise the transit arrangement

This document has been agreed between the United Kingdom and Iceland, Liechtenstein and Norway and is provided for information only. No rights may be derived from it until the date of application.

ANNEX [x]

IMPLEMENTATION OF SCHEDULED TARIFF RATE QUOTAS FOR CALENDAR YEAR FOLLOWING ENTRY INTO FORCE OF THIS AGREEMENT

ARTICLE 1

Quota volumes shall be calculated as follows:

(a) If there is no corresponding TRQ in the *interim agreement*, the quota volume shall be reduced pro rata according to the remaining number of days in the quota period.

(b) If there is a corresponding TRQ in the *interim agreement*, the quota volume shall be calculated (subject to deductions as set out in paragraph 2) as:

  (i) The whole quota volume under the *interim agreement*, plus:

  (ii) The difference between the quota volume under the *interim agreement* and the quota volume under this agreement, reduced pro rata according to the remaining number of days in the quota period of the TRQ under this Agreement.

ARTICLE 2

If there is a corresponding TRQ in the *interim agreement*, volumes correctly deducted from the corresponding quota under the *interim agreement* shall also be counted as deductions from the quota volume under this agreement.

ARTICLE 3

Auctioning and licensing for this calendar year shall as far as possible take place 6 weeks before, and at the latest 14 days before, the entry into force or earlier provisional application of this agreement. For greater certainty, allocations of quota entitlements to economic operators which have been correctly made under the interim agreement (whether by auctioning, licensing or any other method) may remain effective for the purposes of this Agreement.

ARTICLE 4

For the purposes of paragraphs 1 and 2 above, in relation to any TRQ under this agreement ("new TRQ"), there is considered to be a corresponding TRQ under the *interim agreement* ("old TRQ") if those TRQs apply to the same tariff lines and no other TRQ applies

to those tariff lines under either agreement in respect of imports [into the importing Party] from the exporting Party . For greater certainty, this paragraph is applied on the basis of the tariff lines that the new TRQ and the old TRQ would cover during the calendar year of entry into force.

This document has been agreed between the United Kingdom and Iceland, Liechtenstein and Norway and is provided for information only. No rights may be derived from it until the date of application.

ANNEX I: EXISTING MEASURES

TO CHAPTER 3 (SERVICES AND INVESTMENT)

SCHEDULES OF THE UK, ICELAND, LIECHTENSTEIN AND

NORWAY

ANNEX I:

EXISTING MEASURES

Headnotes

1. The Schedule of a Party to this Annex sets out, under Article X [Non-conforming measures – Investment liberalisation], Article X [Non-conforming measures – Cross-border trade in services], and Article X [Non-conforming measures – Legal services], the reservations taken by that Party with respect to existing measures that do not conform with obligations imposed by:

   (a) Articles X [Market access – Investment liberalisation] or X [Market access – Cross-border trade in services];

   (b) Article X [Local presence – Cross-border trade in services];

   (c) Articles X [National treatment – Investment liberalisation] or X [National treatment – Cross-border trade in services];

   (d) Articles X [Most-favoured-nation treatment – Investment liberalisation] or X [Most-favoured-nation treatment – Cross-border trade in services];

   (e) Article X [Senior management and boards of directors];

   (f) Article X [Performance requirements]; or

   (g) Article X [Obligations – Legal services].

2. The reservations are without prejudice to the rights and obligations of the Parties under GATS.

3. Each reservation sets out the following elements:

   (a) "sector" refers to the general sector in which the reservation is taken;

   (b) "sub-sector" refers to the specific sector in which the reservation is taken;

   (c) "industry classification" refers, where applicable, to the activity covered by the reservation according to the CPC, ISIC Rev. 3.1, or as expressly otherwise described in that reservation;

   (d) "type of reservation" specifies the obligation referred to in paragraph 1 for which a reservation is taken;

(e) "measures" identifies the laws or other measures as qualified, where indicated, by the "description" element for which the reservation is taken. A "measure" cited in the "measures" element:

(i) means the measure as amended, continued or renewed as of the date of entry into force of this Agreement;

(ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and

(f) "description" sets out the non-conforming aspects of the existing measure for which the reservation is taken.

A Party may also include the "**level of government**" element in a reservation, to indicate the level of government maintaining the measure for which the reservation is taken.

4. For greater certainty, if a Party adopts a new measure at a level of at which the reservation was originally taken different to that at which the original measure, cited in the 'measures' element, was taken, and this new measure effectively replaces – within the territory to which it applies – the non-conforming aspect of the original measure, the new measure shall be deemed to constitute 'modification' to the original measure within the meaning of Article X [Non-conforming measures – Investment liberalisation]; Article X [Non-conforming measures – Cross-border trade in services]; Article X [Non-conforming measures – Entry and temporary stay of natural persons for business purposes,] and Article X [Non-conforming measures – Legal services].]

5. In the interpretation of a reservation, all elements of the reservation shall be considered. A reservation shall be interpreted in the light of the relevant obligations against which the reservation is taken. The "measures" element shall prevail over all other elements.

6. For the purposes of each Party's Schedule:

(a) "ISIC Rev. 3.1" means the International Standard Industrial Classification of All Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No.4, ISIC Rev. 3.1, 2002;

(b) "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M, No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991).

7. For the purposes of each Party's Schedule, a reservation for a requirement to have a local presence in the territory of a Party is taken against Article X [Local presence], and not against Article X [Market access – Cross-border

trade in services] or X [National treatment – Cross-border trade in services]. Furthermore, such a requirement is not taken as a reservation against Article X [National treatment – Investment liberalisation].

8. The list of reservations below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures where they do not constitute a limitation within the meaning of Article X [Market access – Investment liberalisation], Article X [National treatment – Investment liberalisation], Article X [Market access – Cross-border trade in services], [Article X [Local presence – Cross-border trade in services]], Article X [National treatment – Cross-border trade in services] or Article X [Obligations – Legal services]. These measures may include, in particular, the need to obtain a licence, to satisfy universal service obligations, to have recognised qualifications in regulated sectors, to pass specific examinations, including language examinations, to fulfil a membership requirement of a particular profession, such as membership in a professional organisation, to have a local agent for service, or to maintain a local address, or zoning and planning requirements, or any non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed, such measures continue to apply.

9. For greater certainty, non-discriminatory measures do not constitute a market access limitation within the meaning of Article X [Market access – Investment liberalisation], Article X [Market access – Cross-border trade in services], or Article X [Obligations – Legal services] for any measure:

   (a) requiring the separation of the ownership of infrastructure from the ownership of the goods or services provided through that infrastructure to ensure fair competition, for example in the fields of energy, transportation and telecommunications;

   (b) restricting the concentration of ownership to ensure fair competition;

   (c) seeking to ensure the conservation and protection of natural resources and the environment including with respect to climate change, including a limitation on the availability, number and scope of concessions granted, and the imposition of a moratorium or ban;

   (d) limiting the number of authorisations granted because of technical or physical constraints, for example telecommunications spectra and frequencies; or

   (e) requiring that a certain percentage of the shareholders, owners, partners, or directors of an enterprise be qualified or practice a certain profession such as lawyers or accountants.

10. For greater certainty, for Iceland, Liechtenstein and Norway, the obligation to grant national treatment does not entail the requirement to extend to UK natural persons or enterprises the treatment granted to natural persons or

enterprises of another EEA Member State, or to any measure adopted pursuant to the EEA agreement. Such treatment is granted only to enterprises constituted or organized in accordance with the law of an EEA Member State and having their registered office, central administration or principal place of business within the EEA, including those enterprises established within the EEA which are owned or controlled by UK natural persons or enterprises.

11. With respect to financial services:

(a) Unlike foreign subsidiaries, branches established directly in an EEA State by a non-EEA financial institution are not, with certain limited exceptions, subject to prudential regulations harmonised at EEA level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the EEA. Therefore, such branches receive an authorisation to operate in the territory of an EEA State under conditions equivalent to those applied to domestic financial institutions of that EEA State, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalisation and other solvency requirements and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalisation, and the localisation in the EEA State concerned of the assets representing the technical reserves and at least one third of the solvency margin.

(b) Iceland, Liechtenstein and Norway take their commitments subject to the applicable prudential regulatory regime under EEA law and relevant national law derived therefrom, including third country provisions and equivalence decisions adopted by the European Commission and incorporated into the EEA Agreement. Where equivalent supervision by the authorities of the United Kingdom is required under applicable law, that requirement is met after incorporation of a respective equivalence decision of the European Commission into the EEA Agreement and for the time of the validity of that decision.

Description:	**a) Insurance and insurance-related services**

	With respect to Investment liberalisation - Market access, National treatment, Most-favoured-nation treatment, Performance requirement and Cross-border trade in services – Market access, Local presence, National treatment, Senior management and board of directors – financial services The supply of direct insurance services is reserved for undertakings holding an operating licence issued by the Liechtenstein Financial Market Authority (FMA) and established in Liechtenstein. Nationality and residency requirements apply to at least one member of the executive board as well as one member of the board of directors. The establishment of a branch requires a licence and the appointment, subject to the approval of the FMA, of a general representative resident in Liechtenstein and duly authorised to fully represent the company before administrative authorities and in court. The foreign insurance undertaking must hold assets in Liechtenstein amounting to at least half of the threshold of the minimum capital requirements laid down in the Act and must deposit one quarter of those assets as a security. Insurance undertakings incorporated in Liechtenstein must adopt a specific legal form, on a non-discriminatory basis. Both the statutory seat and the head office of the undertaking must be located in Liechtenstein. With regard to amounts recoverable under reinsurance contracts from undertakings with their head office in a non-EEA State it is necessary for the assets representing such claims to be located in an EEA State unless the solvency regime of that country is deemed to be equivalent. Undertakings domiciled in a non-EEA State which conduct only reinsurance in Liechtenstein and do not have a subsidiary in Liechtenstein do not fall under the supervision of the FMA, provided that they are subject to supervision in their home country which is equivalent to that in Liechtenstein. Promotional activities and intermediation services on behalf of a subsidiary not established in the EEA

	or of a branch not established in Liechtenstein are prohibited. The supply of insurance broker services is reserved for insurance brokers authorized by the FMA. Insurance brokers must be resident in Liechtenstein. Participation in the compulsory occupational retirement, accident or health insurance schemes requires suppliers to have their statutory seat, their head office as well as their accounting in Liechtenstein and to adopt a specific legal form, on a non-discriminatory basis. **b) Banking and other financial services** With respect to Investment liberalisation - Market access, National treatment, Most-favoured-nation treatment, and Cross-border trade in services – Market access, Local presence, National treatment, Senior management and board of directors – financial services Banks and investment firms need an operating licence issued by the Liechtenstein Financial Market Authority (FMA) in order to take up business activities in Liechtenstein. Banks and investment firms incorporated in Liechtenstein must adopt a specific legal form, on a non-discriminatory basis. Both the registered office and the head office of the undertaking must be located in Liechtenstein. If the bank or investment firm forms part of a foreign group active in the financial sector, the license shall only be granted if: a) the group is subject to consolidated supervision equivalent to that in Liechtenstein; b) the supervisory authority of the home country does not object to the establishment of a subsidiary; and c) the proper supervision of the subsidiary is not hampered by the laws, regulations or administrative provisions of the home country, or by difficulties in their enforcement, imposed on natural or legal persons with whom the subsidiary has close links.

	Specific requirements apply to the use of the company's name and its duties towards the Swiss national bank. Representative offices of a foreign bank can neither conclude or deal business nor act as an agent. The Liechtenstein Financial Market Authority may, in consultation with the other competent authorities of EEA States, require the establishment of a financial holding company or a mixed financial holding company with its head office in the EEA if no equivalent supervision exists in the home country. Credit institutions have exclusive rights to accept deposits and other repayable funds from the public. Public issue of securities shall be conducted by securities undertakings or other parties authorized to provide such services. The establishment of a branch of management companies for collective investment funds having their registered office in a non-EEA State is subject to authorisation. Such authorisation may be granted if: a) the management company is subject to supervision which is equivalent to that of the Liechtenstein Financial Market Authority (FMA); b) the supervisory authority of the home country raises no objections to the establishment of the branch and declares that it will inform the FMA without delay of any circumstances that might jeopardize the protection of investors and the stability of the financial system; c) the natural persons responsible for the branch meet the requirements of Art. 180a of the Persons and Companies Act and have a licence as a professional trustee or as a person licensed under the Act on the supervision of persons pursuant to Art. 180a of the Persons and Companies Act; and d) the branch has an appropriate organizational and financial structure in Liechtenstein and meets the respective conditions applicable to branches of management companies incorporated in other EEA States.

Articles I – III, IV.1.a, IV.2 to IV.7, VI - XV, XVI.1 - XVI.3, XVII and XVIII including their subsequent binding amendments.

APPENDIX 2

TO ANNEX [GOVERNMENT PROCUREMENT]

MARKET ACCESS COMMITMENTS BEYOND THE GPA

For the purposes of this Appendix, "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991).

PART A: UNITED KINGDOM

In accordance with Article [Scope and Coverage], Chapter [Government Procurement] applies, in addition to the procurement covered by Article II of the GPA, to the procurement covered by this Appendix.

The Notes in Annexes 1 to 7 of the United Kingdom to Appendix I to the GPA also apply to the procurement covered by this Appendix, unless otherwise provided for in this Appendix.

Procurement covered by this Appendix

1. Additional procuring entities

Procurement of goods and services as set out in Annexes 4 to 6 of the United Kingdom's Appendix I to the GPA, and in paragraph 2 of this Appendix, by the following procuring entities:

(a) all contracting entities whose procurement is covered by the Utilities Contracts Regulation 2016 and the Utilities Contracts (Scotland) Regulations 2016 which are contracting authorities (e.g. those covered under Annex 1 and Annex 2 to Appendix I to the GPA) or public undertakings (see Notes to paragraph 1) and which have as one of their activities

(i) the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of gas or heat or the supply of gas or heat to such networks, or

(ii) any combination between such activity and those referred to in Annex 3 to Appendix 1 to the GPA;

(b) privately-owned procuring entities that have as one of their activities any of those referred to in point (a) of this paragraph, in paragraph 1 of Annex 3 to Appendix I to the GPA, or any combination thereof and operate on the basis of special or exclusive rights granted by a competent authority of the United Kingdom;

with regard to procurement equal to or above the following thresholds:

- 400,000 SDR for procurement of goods and services
- 5,000,000 SDR for procurement of construction services (CPC 51).

Notes to paragraph 1:

2. According to the Utilities Contracts Regulations 2016, a "public undertaking" means any undertaking over which contracting authorities may exercise directly or indirectly a dominant influence by virtue of:

   (a) their ownership of that undertaking;

   (b) their financial participation in that undertaking; or

   (c) the rules which govern that undertaking.

3. According to the Utilities Contracts (Scotland) Regulations 2016, a "public undertaking" means a person over which one or more contracting authorities are able to exercise, directly or indirectly, a dominant influence by virtue of one or more of the following:

   (a) their ownership of that person;

   (b) their financial participation in that person;

   (c) the rights accorded to them by the rules which govern that person.

4. According to both the Utilities Contracts Regulations 2016 and the Utilities Contracts (Scotland) Regulations 2016, a dominant influence on the part of contracting authorities is presumed in any of the following cases in which those authorities, directly or indirectly:

   (a) hold the majority of the undertaking's subscribed capital;

   (b) control the majority of the votes attaching to shares issued by the undertaking;

   (c) can appoint more than half of the undertaking's administrative, management or supervisory body.

5. “Special or exclusive rights” are as defined in regulation 5 of the Utilities Contracts Regulations 2016 and regulation 4 of the Utilities Contracts (Scotland) Regulations 2016.

6. The supply of gas or heat to networks which provide a service to the public by a procuring entity other than a contracting authority shall not be considered as an activity within the meaning of this Appendix where:

   (a) the production of gas or heat by that contracting entity is the unavoidable consequence of carrying out an activity other than those referred to in paragraphs (a) to (e) of United Kingdom’s Appendix I to the GPA; and

   (b) the supply to the public network is aimed only at the economic exploitation of such production and amounts to not more than 20 % of the entity’s turnover on the basis of the average for the preceding three years, including the current year.

2. Additional services

Procurement of the following services, in addition to the services listed under Annex 5 of the United Kingdom to Appendix I to the GPA, for entities covered under Annexes 1 to 3 of the United Kingdom´s Appendix I to the GPA or under paragraph 1 of this Appendix:

- Hotel and other lodging services (CPC 641);
- Food serving services (CPC 642);
- Beverage serving services (CPC 643);
- Postal and Courier Services (CPC 751);
- Telecommunication related services (CPC 754);
- Real estate services on a fee or contract basis (CPC 8220);
- Legal Services (CPC 861) (see Note 2 of this paragraph);
- Taxation Services (CPC 863);
- Investigation and Security Services (CPC 873);
- Photographic Services (CPC 875);
- Other business services (CPC 879);
- Services incidental to mining (CPC 883)
- Services incidental to the manufacture of metal products, machinery and equipment (CPC 885);
- Repair services incidental to metal products, machinery and equipment (CPC 886);
- Services incidental to energy distribution (CPC 887);
- Administrative services of the government (CPC 9127,91136);
- Education services (CPC 92);
- Recreational, cultural and sporting services (CPC 96 except 9611, 9613)

Notes to paragraph 2:

1. Hotel and other lodging services (CPC 641), food serving services (CPC 642), beverage serving services (CPC 643), postal and courier services (CPC 751), legal services (CPC 861), investigation and security services (CPC 873), administrative services of the government (CPC 9127, 91136), education services (CPC 92), and recreational, cultural and sporting services (CPC 96311 to 96332, and 96411 to 96419) contracts are included under the national treatment regime for the suppliers, including service providers, of Iceland, Liechtenstein and Norway provided that their value equals or exceeds GBP 663,540 when they are awarded by procuring entities covered under Annexes 1 and 2 of the United Kingdom to Appendix I to the GPA and that their value equals or exceeds GBP 884,720 when they are awarded by procuring entities covered under Annex 3 of the United Kingdom to Appendix I to the GPA or by procuring entities covered by paragraph 1 of this Appendix.

2. The following legal services (CPC 861) are not covered:

   (a) legal representation of a client by a lawyer:

      (i) an arbitration or conciliation held in the United Kingdom, another country or before an international arbitration or conciliation instance, or

      (ii) judicial proceedings before the courts, tribunals or public authorities of the United Kingdom, another country or before international courts, tribunals or institutions;

   (b) legal advice given

      (i) in preparation of any of the proceedings referred to in paragraph (i), or

      (ii) where there is a tangible indication and high probability that the matter to which the advice relates will become the subject of such proceedings,

   provided that the advice is given by a lawyer;

   (c) document certification and authentication services which must be provided by notaries;

   (d) legal services provided by trustees or appointed guardians or other legal services the providers of which are designated by a court or tribunal in the United Kingdom or are designated by law to carry out specific tasks under the supervision of such tribunals or courts;

   (e) other legal services which in the United Kingdom are connected, even occasionally, with the exercise of official authority.

3. Procurement by procuring entities covered under this Agreement of any of the services covered under this paragraph is a covered procurement in regard of a particular Party's provider of service only to the extent that such Party has covered that service.

4. Article [Scope and Coverage], Chapter [Government Procurement] and this Appendix do not cover procurement of the following services:

   (a) Human health services (CPC 931);

   (b) Administrative healthcare services (CPC 91122); and

   (c) Supply services of nursing personnel and supply services of medical personnel (CPC 87206 and CPC 87209).

3. Concession contracts

   (a) Services concessions contracts, when awarded by Annex 1 and 2 entities of the United Kingdom to Appendix I to the GPA, for the procurement of services as set out in Annex 5 of the United Kingdom's Appendix I to the GPA and in paragraph 2 of this Appendix, are included under the national treatment regime for the suppliers, including service providers, of Iceland, Liechtenstein and Norway, provided that their value equals or exceeds 5,000,000 SDR.

   (b) For greater certainty, works concessions contracts are covered in and on the basis set out in Annex 6 of the United Kingdom's Appendix I to the GPA

Notes to paragraph 3:

1. Paragraph 3 of this [Section] applies to the extent procurement of services concessions contracts as described in paragraph 3 are covered under the Concession Contracts Regulations 2016 and the Concession Contracts (Scotland) Regulations 2016.

PART B: EEA EFTA STATES

In accordance with Article [Scope and Coverage], Chapter [Government Procurement] applies, in addition to the procurement covered by Article II of the GPA, to the procurement covered by this Appendix.

The Notes in Annexes 1 to 7 of Iceland, Liechtenstein and Norway to Appendix I to the GPA also apply to the procurement covered by this Appendix, unless otherwise provided for in this Appendix.

A. ICELAND

Procurement covered by this Appendix

1. Additional procuring entities

Procurement of goods and services as set out in Annexes 4 to 6 of Iceland to Appendix I to the GPA, and in paragraph 2 of this Section, by the following procuring entities:

(a) all contracting entities whose procurement is covered by the EU utilities directive which are contracting authorities (e.g. those covered under Annex 1 and Annex 2 to Appendix I to the GPA) or public undertakings and which have as one of their activities

(b) the provision or operation of fixed networks intended to provide a service to the public in connection with the production, transport or distribution of gas or heat or the supply of gas or heat to such networks, or

(c) any combination between such activity and those referred to in Annex 3 to Appendix I to the GPA;

privately-owned procuring entities that have as one of their activities any of those referred to in point (a) of this paragraph, in point 1 of Annex 3 to Appendix I to the GPA, or any combination thereof and operate on the basis of special or exclusive rights granted by a competent authority of Iceland,

with regard to procurement equal to or above the following thresholds:

- 400,000 SDR for procurement of goods and services

- 5,000,000 SDR for procurement of construction services (CPC 51).

Notes to paragraph 1:

1. According to the EEA utilities directive, a public undertaking is any undertaking over which the contracting authorities may exercise directly or indirectly a dominant influence by virtue of their ownership of it, their financial participation therein, or the rules which govern it. A dominant influence on the part of the contracting authorities shall be presumed when these authorities, directly or indirectly, in relation to an undertaking:

   (a) hold the majority of the undertaking's subscribed capital, or

   (b) control the majority of the votes attaching to shares issued by the undertaking, or

   (c) can appoint more than half of the undertaking's administrative, management or supervisory body.

2. “Special and exclusive rights” are as defined in Article 4 of Directive 2014/25/EEA on procurement by entities operating in the water, energy, transport and postal services sectors.

3. The supply, by a procuring entity other than a contracting authority, of gas or heat to fixed networks which provide a service to the public shall not be considered to be a relevant activity within the meaning of this Appendix where all of the following conditions are met:

   (a) the production of gas or heat by that contracting entity is the unavoidable consequence of carrying out an activity other than those referred to in paragraphs (a) to (e) of Iceland's Appendix I to the GPA; and

   (b) the supply to the public network is aimed only at the economic exploitation of such production and amounts to not more than 20 % of the entity's turnover on the basis of the average for the preceding three years, including the current year.

2. Additional services

Procurement of the following services, in addition to the services listed under Annex 5 of Iceland to Appendix I to the GPA, for entities covered under Annexes 1 to 3 of Iceland´s Appendix I to the GPA or under paragraph 1 of this Appendix:

- Hotel and restaurant services (CPC 641);
- Food serving services (CPC 642);
- Beverage serving services (CPC 643);
- Postal and Courier Services (CPC 751);
- Telecommunication related services (CPC 754);
- Real estate services on a fee or contract basis (CPC 8220);
- Legal Services (CPC 861)
- Taxation Services (CPC 863)
- Investigation and Security Services (CPC 873);
- Photographic Services (CPC 875);
- Other business services (CPC 879);
- Services incidental to mining (CPC 883)
- Services incidental to the manufacture of metal products, machinery and equipment (CPC 885)
- Repair services incidental to metal products, machinery and equipment (CPC 886);
- Services incidental to energy distribution (CPC 887)

- Administrative services of the government (CPC 9127,91136)

- Education services (CPC 92)

- Recreational, cultural and sporting services (CPC 96 (except 9611, 9613)

Notes to paragraph 2:

1. Hotel and restaurant services (CPC 641), food serving services (CPC 642), beverage serving services (CPC 643), postal and courier services (CPC 751), legal services (CPC 861), investigation and security services (CPC 873), administrative services of the government (CPC 9127, 91136), education services (CPC 92) and recreational, cultural and sporting services (CPC 96) are included under the national treatment regime[1] for the suppliers, including service providers, of the United Kingdom, provided that their value equals or exceeds EUR 750,000 when they are awarded by procuring entities covered under Annexes 1 and 2 of Iceland‘s Appendix I to the GPA and that their value equals or exceeds EUR 1,000,000 when they are awarded by procuring entities covered under Annex 3 of Iceland’s Appendix I to the GPA or by procuring entities covered by paragraph 1.[2]

2. The following legal services (CPC 861) are not covered:

   (a) legal representation of a client by a lawyer in:

      (i) an arbitration or conciliation held in Iceland, another country or before an international arbitration or conciliation instance, or

      (ii) judicial proceedings before the courts, tribunals or public authorities of Iceland, another country or before international courts, tribunals or institutions;

   (b) legal advice given

      (i) in preparation of any of the proceedings referred to in paragraph, or

      (ii) where there is a tangible indication and high probability that the matter to which the advice relates will become the subject of such proceedings,

   provided that the advice is given by a lawyer;

---

1 For greater certainty, beyond the principle of non-discrimination, the domestic legislation of Iceland shall apply to the procurement of these services.

2 For greater certainty, all services covered under paragraph 2 that are also covered under Title III (Particular Procurement Regimes) of Directive 2014/24/EEA, are included under the national treatment regime of Iceland.

(c) document certification and authentication services which must be provided by notaries;

(d) legal services provided by trustees or appointed guardians or other legal services the providers of which are designated by a court or tribunal in Iceland or are designated by law to carry out specific tasks under the supervision of such tribunals or courts;

(e) other legal services which in Iceland are connected, even occasionally, with the exercise of official authority.

3. Procurement by procuring entities covered under this Agreement of any of the services covered under this Appendix is a covered procurement with regard to a particular provider of service of UK only to the extent that UK has covered that service under this Appendix.

3. Concession contracts

Works concessions for entities covered under Annexes 1 and 2 or Iceland´s Appendix 1 to the GPA, are included under national treatment regime for the suppliers, including service providers, of the United Kingdom, provided their value exceeds 5.000.000 SDR. Service concessions contracts, for services covered under Annex 5 of Iceland´s Appendix 1 to the GPA or under paragraph 2 of this section, for entities covered under Annex 1 and 2 of Iceland´s Appendix 1 to the GPA are included under the national treatment regime for the suppliers, including service providers, of the United Kingdom, provided their value equals or exceeds 5.000.000 SDR.

Notes to paragraph 3:

1. "Works concessions" and "service concessions" are as defined in article 5 in Directive 2014/23/EEA on the award of concession contracts.

2. For greater certainty, beyond the principle of non-discrimination, the domestic legislation of Iceland shall apply to the award of works and service concession contracts.

APPENDIX 5 TO ANNEX [GOVERNMENT PROCUREMENT]

VALUE OF THRESHOLDS

Thresholds

1. Where thresholds are stated in Special Drawing Rights (SDR), the Parties shall calculate and convert the value of the thresholds into their own national currencies using the conversion rates of their respective national banks. The conversion rates will be the average of the values of the respective national currency in terms of the SDR over the two-year period preceding 1 October or 1 November of the year prior to the thresholds becoming effective. The conversion rate shall apply from 1 January of the following year.

2. Where the thresholds are stated in Euro, the Parties shall calculate and convert the value of the thresholds into their own national currencies using the conversion rates of their respective national banks. The conversion rates shall be based on the average daily value of the respective national currency expressed in euro over the 24 months terminating on 31 August of the year prior to the thresholds becoming effective. The conversion rate shall apply from 1 January of the following year.

3. The value of the newly calculated thresholds shall be made available, in their respective currencies, by the United Kingdom and the EEA EFTA States, before the respective thresholds take effect.

This document has been agreed between the United Kingdom and Iceland, Liechtenstein and Norway and is provided for information only. No rights may be derived from it until the date of application.

The text is subject to legal review, including, where necessary, the harmonisation of terminology, the use of definitions and the numbering.

ANNEX II: FUTURE MEASURES

TO CHAPTER 3 (SERVICES AND INVESTMENT)

SCHEDULES OF THE UK, ICELAND, LIECHTENSTEIN AND

NORWAY

ANNEX II:

FUTURE MEASURES

Headnotes

1. The Schedule of a Party to this Annex sets out, under Article X [Non-conforming measures – Investment Liberalisation], Article X [Non-conforming measures – Cross-border trade in services], and Article X [Non-conforming measures – Legal services], the reservations taken by that Party with respect to future measures that do not conform with obligations imposed by:

   (a) Article X [Market access – Investment liberalisation] or Article X [Market access – Cross-border trade in services];

   (b) Article X [Local Presence – Cross-border trade in services];

   (c) Article X [National treatment – Investment liberalisation] or X [National treatment – Cross-border trade in services];

   (d) Articles X [Most-favoured-nation treatment – Investment liberalisation] or X [Most-favoured-nation treatment – Cross-border trade in services];

   (e) Article X [Senior management and boards of directors];

   (f) (Article X [Performance Requirements]; or

   (g) Article X [Obligations – Legal services].

2. The reservations are without prejudice to the rights and obligations of the Parties under GATS.

3. Each reservation sets out the following elements:

   (a) "**sector**" refers to the general sector in which the reservation is taken;

   (b) "**sub-sector**" refers to the specific sector in which the reservation is taken;

   (c) "**industry classification**" refers, where applicable, to the activity covered by the reservation according to the CPC, ISIC Rev. 3.1, or as expressly otherwise described in that reservation;

   (d) "**type of reservation**" specifies the obligation referred to in paragraph 1 above for which a reservation is taken;

(e) "**description**" sets out the scope of the sector, sub-sector or activities covered by the reservation; and

(f) "**existing measures**" identifies, for transparency purposes, existing measures that apply to the sector, sub-sector or activities covered by the reservation.

4. The "description" element shall prevail over all other elements.

5. For the purposes of each Party's Schedule:

(a) "ISIC Rev. 3.1" means the International Standard Industrial Classification of all Economic Activities as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No. 4, ISIC Rev. 3.1, 2002;

(b) "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M, No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991).

6. For the purposes of each Party's Schedule, a reservation for a requirement to have a local presence in the territory of a Party is taken against Article X [Local presence], and not against Article X [Market access – Cross-border trade in services] or X [National treatment – Cross-border trade in services]. Furthermore, such a requirement is not taken as a reservation against Article X [National treatment – Investment liberalisation].

7. The list of reservations below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures where they do not constitute a market access or a national treatment limitation within the meaning of Article X [Market access – Investment liberalisation], Article X [National Treatment – Investment liberalisation], Article X [Market access – Cross-border trade in services], Article X [Local presence – Cross-Border Trade in Services], Article X [National treatment – Cross-border trade in services] or Article X [Obligations – Legal services. These measures may include, in particular, the need to obtain a licence, to satisfy universal service obligations, to have recognised qualifications in regulated sectors, to pass specific examinations, including language examinations, to fulfil a membership requirement of a particular profession, such as membership in a professional organisation, to have a local agent for service or to maintain a local address, or zoning and planning requirements, or any non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed, such measures continue to apply.

8. For greater certainty, non-discriminatory measures do not constitute a market access limitation within the meaning of Article X [Market access –

Investment liberalisation], Article X [Market access – Cross-border trade in services] , or Article X [Obligations – Legal services] for any measure:

(a) requiring the separation of the ownership of infrastructure from the ownership of the goods or services provided through that infrastructure to ensure fair competition, for example in the fields of energy, transportation and telecommunications;

(b) restricting the concentration of ownership to ensure fair competition;

(c) seeking to ensure the conservation and protection of natural resources and the environment including with respect to climate change, including a limitation on the availability, number and scope of concessions granted, and the imposition of a moratorium or ban;

(d) limiting the number of authorisations granted because of technical or physical constraints, for example telecommunications spectra and frequencies; or

(e) requiring that a certain percentage of the shareholders, owners, partners, or directors of an enterprise be qualified or practice a certain profession such as lawyers or accountants.

9. For greater certainty, for Iceland, Liechtenstein and Norway, the obligation to grant national treatment does not entail the requirement to extend to natural persons or enterprises of United Kingdom the treatment granted to natural persons or enterprises of another EEA Member State, or to any measure adopted pursuant to the EEA agreement. Such treatment is granted only to enterprises constituted or organized in accordance with the law of an EEA Member State and having their registered office, central administration or principal place of business within the EEA, including those enterprises established within the EEA which are owned or controlled by natural persons or enterprises of United Kingdom.

10. With respect to financial services:

(a) Unlike foreign subsidiaries, branches established directly in an EEA State by a non-EEA financial institution are not, with certain limited exceptions, subject to prudential regulations harmonised at EEA level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the EEA. Therefore, such branches receive an authorisation to operate in the territory of an EEA State under conditions equivalent to those applied to domestic financial institutions of that EEA State, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalisation and other solvency requirements and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalisation,

and the localisation in the EEA State concerned of the assets representing the technical reserves and at least one third of the solvency margin.

(b) Iceland, Liechtenstein and Norway take their commitments subject to the applicable prudential regulatory regime under EEA law and relevant national law derived therefrom, including third country provisions and equivalence decisions adopted by the European Commission and incorporated into the EEA Agreement. Where equivalent supervision by UK authorities is required under applicable law, that requirement is met after incorporation of a respective equivalence decision of the European Commission into the EEA Agreement and for the time of the validity of that decision.

Section: Investment Liberalisation, Cross-border trade in services and Regulatory Framework – Legal Services

Description:

The United Kingdom reserves the right to adopt or maintain any measure with respect to the following:

(a) Commercial presence

With respect to Investment Liberalisation – Market access:

Services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights granted to private operators.

Public utilities exist in sectors such as related scientific and technical consulting services, research and development (R&D) services on social sciences and humanities, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical. This reservation does not apply to telecommunications and to computer and related services.

(b) Most favoured nation treatment

With respect to Investment Liberalisation – Most favoured nation treatment, Cross-Border Trade in Services – Most favoured nation treatment and Regulatory Framework – Legal Services – Obligations:

According differential treatment pursuant to any international investment treaty or other trade agreement in force or signed prior to entry into force of this Agreement.

According differential treatment to a country pursuant to any existing or future bilateral or multilateral agreement which:

(i) creates an internal market in services and investment;

(ii) grants the right of establishment; or

(iii) requires the approximation of legislation in one or more economic sectors.

An internal market on services and establishment means an area without internal frontiers in which the free movement of services, capital and persons is ensured.

The right of establishment means an obligation to abolish in substance all barriers to establishment among the parties to the regional economic integration agreement by the entry into force of that agreement. The right of establishment shall include the right of nationals of the parties to the regional economic integration agreement to set up and operate enterprises under the same conditions provided for nationals under the law of the country where such establishment takes place.

The approximation of legislation means:

(i) the alignment of the legislation of one or more of the parties to the regional economic integration agreement with the legislation of the other Party or parties to that agreement; or

(ii) the incorporation of common legislation into the law of the parties to the regional economic integration agreement.

Such alignment or incorporation shall take place, and shall be deemed to have taken place, only at such time that it has been enacted in the law of the Party or parties to the regional economic integration agreement.

According differential treatment relating to the right of establishment to nationals or enterprises through existing or future bilateral agreements between the United Kingdom and any of the following countries or principalities: Andorra, Monaco, San Marino and the Vatican City State.

Description:	<u>Investment liberalisation and Cross-border trade in services</u> **a) Public utilities** <u>With respect to investment liberalisation – Market access, Performance requirements and Cross-border trade in services – Market access</u> Liechtenstein reserves the right to adopt, maintain or modify any measure relating to public utilities, public services or public functions to the extent that they are established or maintained for public purposes, whether owned, operated or contracted out by local or central government, such as social security or insurance, social welfare, technical testing and analysis services, environmental services, health services, transport services and services auxiliary to all modes of transport. Services considered as public utilities at a national or local level may be subject to public monopolies or to exclusive rights. Exclusive rights on such services are often granted to private operators, for instance operators with concessions from public authorities, subject to specific service obligations. Given that public utilities often also exist at the sub-central level, detailed and exhaustive sector-specific scheduling is not practical. **b) Most-favoured-nation treatment**

	Liechtenstein reserves the right to adopt, maintain or modify any measure which accords differential treatment pursuant to the EEA Agreement, the EFTA Convention, bilateral agreements between the Principality of Liechtenstein and the Swiss Confederation or to any future bilateral or multilateral agreement which: (i) creates an internal market in services and investment; (ii) grants the right of establishment; or (iii) requires the approximation of legislation in one or more economic sectors. An internal market on services and investment means an area without internal frontiers in which the free movement of services, capital and persons is ensured. The right of establishment means an obligation to abolish in substance all barriers to establishment among the parties to the regional economic integration agreement by the entry into force of that agreement. The right of establishment shall include the right of nationals of the parties to the bilateral or multilateral agreement to set up and operate enterprises under the same conditions provided for nationals under the law of the country where such establishment takes place. The approximation of legislation means: (i) the alignment of the legislation of one or more of the parties to the bilateral or multilateral agreement with the legislation of the other Party or parties to that agreement; or (ii) the incorporation of common legislation into the law of the parties to the bilateral or multilateral agreement. Such alignment or incorporation shall take place, and shall be deemed to have taken place, only at such time that it has been enacted in the law of the Party or parties to the bilateral or multilateral agreement. **c) Commercial presence**

	The establishment of a commercial presence by a legal person (including branches) is subject to the requirement that no objection for reasons of national economy (balanced proportion of national and foreign capital; balanced ratio of foreigners in comparison with the number of resident population; balanced ratio of total number of jobs in the economy in comparison with the number of the resident population; balanced geographic situation; balanced development of the national economy, between and within the sectors) exists. For the establishment of a commercial presence by a natural person Liechtenstein reserves the right to require a continuous prior residence of that person in Liechtenstein of a certain period of time. For the establishment of a commercial presence by a legal person (including branches) Liechtenstein reserves the right to require that at least one of the managers of the commercial presence has had a continuous prior residence in Liechtenstein of a certain period of time. General and limited partnerships have to fulfil the same conditions as corporations with limited liability (legal persons). **d) Acquisition of real estate** Liechtenstein reserves the right to require a prior authorisation for any acquisition of real estate. Such authorisation is granted only in case of an actual and proven need for living or business purposes as well as a continuous prior residence in Liechtenstein of a certain period of time. **e) Arms, munitions, war material and embargoed goods** Liechtenstein reserves the right to adopt, maintain or modify any measure with respect to the production or distribution of, or trade in, arms, munitions, war material and embargoed goods, including dual-use goods and special goods for military use. **f) Genetically modified organisms (GMO) and ionizing radiation substances**

	Liechtenstein reserves the right to adopt, maintain or modify any measure with respect to activities on genetically modified organisms (GMOs) as well as relating to activities that may involve ionizing radiation substances.

Schedule of the Iceland, Liechtenstein and Norway

1. Iceland, Liechtenstein and Norway shall allow the supply of services in their respective territories by contractual service suppliers or independent professionals of the United Kingdom through the presence of natural persons in accordance with Article X.8 (Contractual services suppliers and independent professionals) for the sectors listed in this Schedule.

2. In addition to the list of reservations in this Schedule, Iceland, Liechtenstein and Norway may adopt or maintain any measures relating to qualification requirements, qualification procedures, technical standards, licensing requirements or licensing procedures that does not constitute a limitation within the meaning of Article X.8 (Contractual services suppliers and independent professionals). These measures, which include requirements for a person to obtain a licence, to obtain recognition of qualifications in regulated sectors or to pass specific examinations, such as language examinations, even if not listed in this Schedule, apply in any case to contractual service suppliers or independent professionals of the United Kingdom.

3. Commitments for contractual service suppliers and independent professionals do not apply in cases where the intent or effect of the entry and temporary stay is to interfere with, or otherwise affect the outcome of any labour or management dispute or negotiation, or the employment of any natural person who is involved in that dispute.

4. The following abbreviations are used in the list below:

CSS: Contractual service suppliers

IP: Independent professionals

Contractual service suppliers

5. Subject to the conditions in paragraph 6, Iceland, Liechtenstein and Norway make commitments in accordance with Article X.8 (Contractual services suppliers and independent professionals) with respect to the category of contractual service suppliers for all services sectors.

6. The contractual service suppliers shall comply with the following conditions:

(a) In respect of Iceland
[Note: Not final in respect of Iceland]

(b) In respect of Liechtenstein:

The natural person does not receive remuneration for the provision of services in Liechtenstein other than the remuneration paid by the enterprise employing the natural person.

The competent authorities of Liechtenstein may recognise the necessary equivalence of the qualification and authorisation of the United Kingdom subject to reciprocity. The access accorded relates only to the service activity which is the subject of the contract and does not confer entitlement to exercise the professional title of Liechtenstein.

The supply of a cross-border service is subject to notification. The notification must be submitted to the Aliens and Passport Office at the latest two working days before the service is supplied. This requirement applies in addition to the need for a license to carry out an economic activity in Liechtenstein to be granted by the competent authorities. In order to ensure compliance with all requirements regarding work and social security measures, the employer of the CSS has to notify the Office for Economic Affairs at the latest nine days before the supply of the service in accordance with the Posted Workers Act.

Work and social security measures referred to in Article X.1 [General provisions and scope] means measures prevailing in the sector and the place of activity in Liechtenstein provided by its laws, regulations and collective agreements (with respect to remuneration, working hours, etc.).

The permissible length of stay of CSS is for a cumulative period of not more than eight days within any 90 days period, with possible renewals of the same length of stay after such periods.

(c) In respect of Norway:

The natural person does not receive remuneration for the provision of services in Norway other than the remuneration paid by the enterprise employing the natural person. The commitment relates only to the services activity which is the subject of the contract. It does not entitle to exercise the profession as such. Residence permit is required. No economic needs test.

The natural person entering Norway as CSS must be considered to be a higher-level skilled worker or to possess special qualifications, usually obtained through higher education.

The competence of the natural person must be deemed necessary for the recipient of the service. If it is apparent that there will be a permanent need for such labour, or if during the last six months a permit has been issued for the performance of the same kind of work for the same recipient of the service, a permit shall not be granted.

The permissible length of stay of contractual service suppliers is for a cumulative period of not more than 6 months in any twelve-month period or for the duration of the contract, whichever is less.

Independent professionals

7. Subject to the conditions in paragraph 8, Iceland, Liechtenstein and Norway make commitments in accordance with Article X.8 (Contractual services suppliers and independent professionals) with respect to the category of independent professionals in all services sectors:

8. The independent professionals shall comply with the following conditions:

(a) In respect of IS
[Note: Not final in respect of Iceland]

(b) In respect of Liechtenstein:

The IP shall possess the professional qualification to exercise an activity within the scope of the authorisation from the United Kingdom where this is required pursuant to the laws, regulations or other legal requirements of Liechtenstein. The competent authorities of Liechtenstein may recognise the necessary equivalence of the qualification and United Kingdom authorisation of the IP subject to reciprocity. The access accorded relates only to the service activity which is the subject of the contract and does not confer entitlement to exercise the professional title of Liechtenstein.

The supply of a cross-border service is subject to notification. The notification must be submitted to the Aliens and Passport Office at the latest two working days before the service is supplied. This requirement applies in addition to the need for a license to carry out an economic activity in Liechtenstein to be granted by the competent authorities.

Work and social security measures referred to in Article X.1 [General provisions and scope] means measures prevailing in the sector and the place of activity in Liechtenstein provided by its laws, regulations and collective agreements (with respect to remuneration, working hours, etc.).

The permissible length of stay of IP is for a cumulative period of not more than eight days within any 90 days period, with possible renewals of the same length of stay after such periods.

(c) In respect of Norway:

The natural person does not receive remuneration for the provision of services in Norway other than the remuneration paid by the enterprise employing the natural person. The commitment relates only to the services activity which is the subject of the contract. It does not entitle to exercise the profession as such. Residence permit is required.

The natural person must be considered to be a higher-level skilled worker or to possess special qualifications, usually obtained through higher education.

The competence of the natural person must be deemed necessary for the recipient of the service. If it is apparent that there will be a permanent need for such labour, or if during the last six months a permit has been issued for the performance of the same kind of work for the same recipient of the service, a permit shall not be granted.

The permissible length of stay of independent professionals is for a cumulative period of not more than 6 months in any twelve-month period or for the duration of the contract, whichever is less.

PROTOCOL [X] ON MUTUAL ADMINISTRATIVE ASSISTANCE IN CUSTOMS MATTERS

REFERRED TO IN ARTICLE X.12 OF CHAPTER [CUSTOMS AND TRADE FACILITATION]

ARTICLE [X.1]

Definitions

For the purpose of this Protocol:

(a) "customs authority" or "customs authorities" means:

(i) for the United Kingdom: Her Majesty's Revenue and Customs or any other authority responsible for customs matters;

(ii) for Norway: the Norwegian Customs Administration; and

(iii) for Iceland: Iceland Revenue and Customs.

(b) "customs law" means any legal and administrative provisions applicable or enforceable by either customs authority in connection with the importation, exportation, transhipment, transit, storage and movement of goods, including legal and administrative provisions relating to measures of prohibition, restriction and control, and in connection with combating money laundering;

(c) "information" means any data, whether or not processed or analysed, and documents, reports and other communications in any format, including electronic, or certified or authenticated copies thereof;

(d) "person" or "persons" means both natural and legal persons, unless the context otherwise requires;

(e) "personal data" means any data concerning an identified or identifiable natural person;

(f) "requested administration" means the customs authority from which assistance is requested;

(g) "requesting administration" means the customs authority which requests assistance;

(h) "requested Party" means the Party whose customs authority is requested to provide assistance; and

(i) "requesting Party" means the Party whose customs authority requests assistance.

ARTICLE [X.2]

Scope of Assistance

1. The Parties shall assist each other in the manner and under the conditions laid down in this Protocol, to ensure the correct application of customs law, in particular by preventing, detecting, investigating and combating operations in breach of that law.

2. Assistance in customs matters, as provided for in this Protocol, applies to any administrative authority of any Party which is competent for the application of this Protocol. That assistance shall neither prejudice the provisions governing mutual assistance in criminal matters nor shall it cover information obtained under powers exercised at the request of a judicial authority, except where communication of such information is authorised by that authority.

3. Assistance to recover duties, taxes or fines is not covered by this Protocol.

ARTICLE [X.3]

Assistance on Request

1. At the request of the requesting administration, the requested administration shall provide it with all relevant information which may enable it to ensure that customs law is correctly applied, including information regarding activities detected or planned which are or could be operations in breach of customs law.

2. At the request of the requesting administration, the requested administration shall inform it of:

   (a) whether goods imported into a Party have been properly exported from another Party, specifying where appropriate the customs procedure applied to the goods; and

   (b) whether goods exported from a Party have been properly imported into another Party, specifying where appropriate the customs procedure applied to the goods.

3. At the request of the requesting administration, the requested administration shall, within the framework of laws and regulations applicable to the latter, take the necessary steps to ensure special surveillance of:

   (a) persons in respect of whom there are reasonable grounds for believing that they are or have been involved in operations in breach of customs law;

(b) places where stocks of goods have been or may be stored or assembled in such a way that there are reasonable grounds for believing that those goods are intended to be used in operations in breach of customs law;

(c) goods that are or may be transported in such a way that there are reasonable grounds for believing that they are intended to be used in operations in breach of customs law;

(d) means of transport that are or may be used in such a way that there are reasonable grounds for believing that they are intended to be used in operations in breach of customs law; and

(e) premises suspected by the applicant authority of being used to commit breaches of customs law.

ARTICLE [X.4]

Spontaneous Assistance

The Parties shall assist each other, at their own initiative and in accordance with the laws and regulations of each Party, if they consider that to be necessary for the correct application of customs law, particularly by providing information obtained pertaining to:

(a) activities which are or appear to be operations in breach of customs law and which may be of interest to another Party;

(b) new means or methods employed in carrying out operations in breach of customs law;

(c) goods known to be subject to operations in breach of customs law;

(d) persons in respect of whom there are reasonable grounds for believing they are or have been involved in operations in breach of customs law; and

(e) means of transport in respect of which there are reasonable grounds for believing that they have been, are, or may be used in operations in breach of customs law.

ARTICLE [X.5]

Delivery and Notification

At the request of the requesting administration, the requested administration shall, in accordance with the laws and regulations applicable to the latter, take all necessary measures in order to:

(a) deliver any documents; or

(b) notify any decisions;

emanating from the requesting administration and falling within the scope of this Protocol, to an addressee residing or established in the jurisdiction of the requested Party.

ARTICLE [X.6]

Form and Substance of Requests for Assistance

1. Requests pursuant to this Protocol shall be made in writing, which may be done by electronic means. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, an oral request may be accepted, but shall be confirmed promptly in writing.

2. Requests pursuant to paragraph 1 shall include the following information:

   (a) the requesting administration;

   (b) the measure requested;

   (c) the object of and the reasons for the request;

   (d) the relevant laws and regulations;

   (e) indications as exact and comprehensive as possible on the goods or persons who are the target of the investigations; and

   (f) a summary of the relevant facts of the enquiries already carried out.

3. Requests shall be submitted in English. This requirement shall not apply to any documents that accompany the request under paragraph 1.

4. If a request does not meet the formal requirement set out above, its correction or completion may be requested; precautionary measures may be taken in the meantime.

ARTICLE [X.7]

Execution of Requests

1. In order to comply with a request for assistance, the requested administration shall proceed promptly, as though it were acting on its own account or at the request of other authorities of that same Party, by supplying information already possessed, by carrying out appropriate enquiries or by arranging for

them to be carried out. This paragraph shall also apply to any other authority to which the request has been addressed in accordance with this Protocol by the requested administration when the latter cannot act on its own.

2. Requests for assistance shall be executed in accordance with the laws and regulations of the requested Party.

3. Duly authorised officials of a Party may, subject to the agreement and any conditions laid down by the requested Party, be present in the offices of the requested administration or any other concerned authority in accordance with paragraph 1, to obtain information relating to activities that are or may be operations in breach of customs law which the requesting administration needs for the purpose of this Protocol.

4. Duly authorised officials of a Party may, with the agreement of the requested Party and subject to the conditions laid down by the latter, be present at enquiries carried out in the latter's territory.

5. The presence of officials of a Party in the territory of the requested Party shall solely be in an advisory capacity, during which time those authorised officials:

   (a) must at all times be able to furnish proof of their official capacity;

   (b) shall not wear uniform, nor carry weapons; and

   (c) shall enjoy the same protection as that afforded to officials of the requested Party, in accordance with the legal and administrative provisions in force there.

6. In the event that the request cannot be complied with, the requesting administration shall be notified promptly of that fact with a statement of the reasons. The statement may be accompanied by information that the requested administration considers may be of assistance to the requesting administration.

ARTICLE [X.8]

Form in which Information is to be Communicated

1. The requested administration shall communicate results of enquiries conducted pursuant to a request made under this Protocol to the requesting administration in writing, which may be done by electronic means, together with relevant documents, certified copies of documents or other items.

2. The information communicated under paragraph 1 may be in computerised form.

3. Original files and documents shall be transmitted only upon request in cases where certified copies would be insufficient. Those originals shall be returned to the requested administration at the earliest opportunity. A Party may refuse a request to transmit such files and documents and shall inform the requesting Party of the reasons for doing so.

4. The requested administration shall, under the provisions referred to in paragraph 3, deliver to the requesting administration any information related to the authenticity of the documents issued or certified by official agencies within its territory in support of a goods declaration.

ARTICLE [X.9]

Exceptions to the Obligation to Provide Assistance

1. Any form of assistance within the scope of this Protocol may be refused, or may be subject to certain conditions or requirements, if the requested Party considers that execution of the request would:

   (a) be likely to prejudice the sovereignty, security, public order or other essential interests of the requested Party; or

   (b) violate a trade secret or prejudice legitimate commercial interests.

2. Where the requesting administration seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested administration to decide how to respond to such a request.

3. The requested administration may postpone the assistance on the grounds that such assistance will interfere with ongoing investigations, detection processes, prosecutions or proceedings. In such a case, the requested administration shall consult with the requesting administration to determine if assistance can be given subject to such terms or conditions as the requested administration may require.

4. For the cases referred to in paragraph 1, the decision of the requested administration and the reasons thereof shall be communicated to the requesting administration without delay.

ARTICLE [X.10]

Use, Confidentiality and Protection of Information

1. Any information communicated in whatsoever form pursuant to this Protocol shall be treated as of a confidential nature, depending on the laws and regulations of each Party and shall enjoy the protection extended to similar information under the relevant laws and regulations of the requesting Party

that received it and the corresponding provisions that apply to the requested customs authority, unless the requested Party which provided the information gives a prior consent to the disclosure of such information.

2. Where personal data is transferred pursuant to this Protocol, such transfer shall take place in accordance with the transferring Party's rules on international transfers of personal data. Where needed, each Party will make best efforts, while respecting its rules on international transfers of personal data, to establish safeguards necessary for the transfer of personal data.

3. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Parties wishes to use such information for other purposes, it shall obtain the prior written consent of the customs authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

4. Paragraph 3 shall not impede the use of information obtained in accordance with this Protocol as evidence in court or tribunal proceedings subsequently instituted in respect of customs law. Therefore, the Parties may in their records of evidence, reports and testimonies and in court or tribunal proceedings use as evidence information obtained in accordance with the provisions of this Protocol. The customs authority which supplied that information shall be notified of such use.

5. Notwithstanding paragraph 3 of this Article, unless otherwise notified by the requested administration providing the information, the requesting administration receiving the information may provide the information pursuant to this Protocol to the relevant law enforcement agencies of its Party. These agencies may only use this information for the correct application of customs law and shall be subject to the conditions set out in this Article.

6. The requesting Party shall, unless otherwise agreed by the requested Party which provided the information, wherever appropriate, use all available measures under the applicable laws and regulations of the former Party to maintain the confidentiality of information and to protect personal data as regards applications by a third party or other authorities for disclosure of the information concerned.

ARTICLE [X.11]

Experts and Witnesses

An official of a requested administration may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness before an authority in the other Party regarding the matters covered by this Protocol, and produce such objects, documents or confidential or certified copies thereof as may be needed for this purpose. The request for appearance shall indicate specifically

before which authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

ARTICLE [X.12]

Assistance Expenses

1. The requested Party shall waive all claims for the reimbursement of costs incurred in the execution of this Protocol, except for expenses and allowances paid to experts and witnesses as well as translators and interpreters other than Government employees, which shall be borne by the requesting Party.

2. If the execution of a request requires expenses of a substantial or extraordinary nature, the Parties concerned shall consult to determine the terms and conditions under which the request will be executed as well as the manner in which the costs shall be borne.

ARTICLE [X.13]

Implementation

1. This Protocol shall be implemented in accordance with the laws and regulations in each Party, including in the field of data protection, and within the available resources of their respective customs authorities.

2. The customs authorities of the Parties shall decide on all practical measures and arrangements necessary for the implementation of this Protocol.

ARTICLE [X.14]

Relation to Other International Instruments

1. The provisions of this Protocol shall not affect the rights and obligations of the Parties under any other international agreement to which they are a party.

2. Notwithstanding paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral agreement or arrangement on mutual administrative assistance which has been or may be concluded between either Norway or Iceland and the United Kingdom, insofar as the provisions of those bilateral agreements or arrangements are incompatible with those of this Protocol.

This document has been agreed between the United Kingdom and Iceland, Liechtenstein and Norway and is provided for information only. No rights may be derived from it until the date of application.

Annex I to Protocol X (Rules of Origin)

Introductory notes to the list in Annex II

Note 1 - General Introduction

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article [4] of Protocol [X] (Rules of Origin). There are four different types of rules, which vary according to the product:

(a) through working or processing a maximum content of non-originating materials is not exceeded;

(b) through working or processing the 4-digit Harmonized System heading or 6-digit Harmonized System sub-heading of the manufactured products becomes different from the 4-digit Harmonized System heading or 6-digit sub-heading respectively of the materials used;

(c) a specific working and processing operation is carried out;

(d) working or processing is carried out on certain wholly obtained materials.

Note 2 - The Structure of the List

2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rules in column 3 apply only to the part of that heading as described in column 2.

2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 apply to all products which, under the Harmonized System, are classified in headings of the chapter or in any of the headings grouped together in column 1.

2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3.

2.4. Where two alternative rules are set out in column 3, separated by *"or"*, it is at the choice of the exporter which one to use.

Note 3 - Examples of How to Apply the Rules

3.1. Article 4 of Protocol X (Rules of Origin), concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in a Party.

3.2. Pursuant to Article 6, the working or processing carried out must go beyond the list of operations mentioned in that Article. If it does not, the goods shall not qualify for the granting of the benefit of preferential tariff treatment, even if the conditions set out in the list below are met.

3.3. Subject to the provision referred to in the first sub-paragraph, the rules in the list represent the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status.

3.4. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.

3.5. If a rule provides that non-originating material, at a certain level of manufacture, may not be used, the use of materials at an earlier stage of manufacture is allowed, and the use of materials at a later stage is not.

3.6. Example: when the list-rule for Chapter 19 requires that “non-originating materials of headings 1101 to 1108 cannot exceed 20 % weight”, the use (i.e. importation) of cereals of Chapter 10 (materials at an earlier stage of manufacture) is not limited.

3.7. Without prejudice to Note 3.2, where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

3.8. However, the expression "Manufacture from materials of any heading, including other materials of heading ..." or "Manufacture from materials of any heading, including other materials of the same heading as the product" means that materials of any heading(s) may be used, except those of the same description as the product as given in column 2 of the list.

3.9. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

3.10. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition does not prevent the use of other materials which, because of their inherent nature, cannot satisfy this.

3.11. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together.

In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4 - General provisions concerning certain agricultural goods

4.1. Agricultural goods falling within Chapters 6, 7, 8, 9, 10, 12 and heading 2401 which are grown or harvested in the territory of a Party shall be treated as originating in the territory of that Party, even if grown from imported seeds, bulbs, rootstock, cuttings, grafts, shoots, buds, or other live parts of plants.

4.2. In cases where the content of non-originating sugar in a given product is subject to limitations, the weight of sugars of headings 1701 (sucrose) and 1702 (e.g., fructose, glucose, lactose, maltose, isoglucose or invert sugar) used in the manufacture of the final product and used in the manufacture of the non-originating products incorporated in the final product is taken into account for the calculation of such limitations.

Note 5 - Terminology used in respect of certain textile products

5.1. The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.

5.2. The term "natural fibres" includes horsehair of heading 0511, silk of headings 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.

5.3. The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

5.4. The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

5.5. Printing (when combined with Weaving, Knitting/ Crocheting, Tufting or Flocking) is defined as a technique by which an objectively assessed function, like colour, design, technical performance, is given to a textile substrate with a permanent character, using screen, roller, digital or transfer techniques.

5.6. Printing (as standalone operation) is defined as a technique by which an objectively assessed function, like colour, design, technical performance, is given to a textile substrate with a permanent character, using screen, roller, digital or transfer techniques combined with at least two preparatory/finishing operations (such as scouring, bleaching, mercerizing, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatising, impregnating, mending and burling), provided that the value of all the materials used does not exceed 50% of the ex-works price of the product.

Note 6 - Tolerances applicable to products made of a mixture of textile materials

6.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 15 % or less of the total weight of all the basic textile materials used. (See also Notes 6.3 and 6.4).

6.2. However, the tolerance mentioned in Note 6.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk;
- wool;
- coarse animal hair;
- fine animal hair;
- horsehair;
- cotton;
- paper-making materials and paper;
- flax;
- true hemp;
- jute and other textile bast fibres;
- sisal and other textile fibres of the genus Agave;
- coconut, abaca, ramie and other vegetable textile fibres;
- synthetic man-made filament fibres of polypropylene;
- synthetic man-made filament fibres of polyester;
- synthetic man-made filament fibres of polyamide;
- synthetic man-made filament fibres of polyacrylonitrile;
- synthetic man-made filament fibres of polyimide;
- synthetic man-made filament fibres of polytetrafluoroethylene;
- synthetic man-made filament fibres of poly(phenylene sulphide);
- synthetic man-made filament fibres of poly(vinyl chloride);
- other synthetic man-made filament fibres;
- artificial man-made filament fibres of viscose;
- other artificial man-made filament fibres;
- current-conducting filaments;
- synthetic man-made staple fibres of polypropylene;
- synthetic man-made staple fibres of polyester;

- synthetic man-made staple fibres of polyamide;
- synthetic man-made staple fibres of polyacrylonitrile;
- synthetic man-made staple fibres of polyimide;
- synthetic man-made staple fibres of polytetrafluoroethylene;
- synthetic man-made staple fibres of poly(phenylene sulphide);
- synthetic man-made staple fibres of poly(vinyl chloride);
- other synthetic man-made staple fibres;
- artificial man-made staple fibres of viscose;
- other artificial man-made staple fibres;
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped;
- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film;
- other products of heading 5605;
- glass fibres;
- metal fibres;
- mineral fibres.

6.3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped", this tolerance is 20% in respect of this yarn.

6.4. In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film", this tolerance is 30 % in respect of this strip.

Note 7 - Other tolerances applicable to certain textile products

7.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 15% of the ex-works price of the product.

7.2. Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

7.3. Where a percentage rule applies, the value of non-originating materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 8 - Definition of specific processes and simple operations carried out in respect of certain products of Chapter 27

8.1 For the purposes of headings ex 2707 and 2713, the "specific processes" are the following:

(a) vacuum-distillation;

(b) redistillation by a very thorough fractionation process;

(c) cracking;

(d) reforming;

(e) extraction by means of selective solvents;

(f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

(g) polymerisation;

(h) alkylation;

(i) isomerisation.

8.2 For the purposes of headings 2710, 2711 and 2712, the "specific processes" are the following:

(a) vacuum-distillation;

(b) redistillation by a very thorough fractionation process;

(c) cracking;

(d) reforming;

(e) extraction by means of selective solvents;

(f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

(g) polymerisation;

(h) alkylation;

(i) isomerisation;

(j) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85 % of the sulphur content of the products processed (ASTM D 1266-59 T method);

(k) in respect of products of heading 2710 only, deparaffining by a process other than filtering;

(l) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 °C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

(m) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30 % of these products distils, by volume, including losses, at 300 °C, by the ASTM D 86 method;

(n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush discharge;

(o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0.75 % of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.

8.3 For the purposes of headings ex 2707 and 2713, simple operations, such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, or any combination of these operations or like operations, do not confer origin.

Note 9 - Definition of specific processes and simple operations carried out in respect of certain products of chapters

9.1. Products falling within Chapter 30 obtained in a Party by using cell cultures, shall be considered as originating in that Party. "Cell culture" is defined as the cultivation of human, animal and plant cells under controlled conditions (such as defined temperatures, growth medium, gas mixture, pH) outside a living organism.

9.2. Products falling within Chapters 29 (except for: 2905.43-2905.44), 30, 32, 33 (except for: 3302.10, 3301) 34, 35 (except for: 35.01, 3502.11-3502.19, 3502.20, 35.05), 36, 37, 38 (except for: 3809.10, 38.23, 3824.60, 38.26) and 39 (except for: 39.16-39.26): obtained in a Party by fermentation shall be considered as originating in that Party. "Fermentation" is a biotechnological process in which human, animal, plant cells, bacteria, yeasts, fungi or enzymes are used to produce products falling within Chapters 29 to 39.

9.3. Following transformations are considered sufficient according to Article 4 for products falling within Chapters 28, 29 (except for: 2905.43-2905.44), 30, 32, 33 (except for:

3302.10, 3301) 34, 35 (except for: 35.01, 3502.11-3502.19, 3502.20, 35.05), 36, 37, 38 (except for: 3809.10, 38.23, 3824.60, 38.26) and 39 (except for: 39.16-39.26):

- **Chemical reaction**: A “chemical reaction” is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. A chemical reaction may be expressed by a change of the "CAS number".

9.4 The following processes should not be considered for purposes of origin: (a) dissolving in water or other solvents; (b) the elimination of solvents including solvent water; or (c) the addition or elimination of water of crystallization
A chemical reaction as defined above is to be considered as origin conferring.

- **Mixtures and Blends**: The deliberate and proportionally controlled mixing or blending (including dispersing) of materials, other than the addition of diluents, to conform to predetermined specifications which results in the production of a good having physical or chemical characteristics which are relevant to the purposes or uses of the good and are different from the input materials is to be considered to be as origin conferring.

- **Purification**: Purification is to be considered as origin conferring provided that purification occurs in the territory of one or both of the Parties results in one of the following criteria being satisfied:

(a) purification of a good resulting in the elimination of at least 80 per cent of the content of existing impurities; or

(b) the reduction or elimination of impurities resulting in a good suitable for one or more of the following applications:

(i) pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;

(ii) chemical products and reagents for analytical, diagnostic or laboratory uses;

(iii) elements and components for use in micro-electronics;

(iv) specialised optical uses;

(v) biotechnical use (e.g., in cell culturing, in genetic technology, or as a catalyst);

(vi) carriers used in a separation process; or

(vii) nuclear grade uses.

- **Change in particle size**: The deliberate and controlled modification in particle size of a good, other than by merely crushing or pressing, resulting in a good having a defined particle size, defined particle size distribution or defined surface area, which is relevant to the purposes of the resulting good and having different

physical or chemical characteristics from the input materials is to be considered as origin conferring.

- **Standard materials**: Standard materials (including standard solutions) are preparations suitable for analytical, calibrating or referencing uses having precise degrees of purity or proportions which are certified by the manufacturer. The production of standard materials is to be considered as origin conferring.

- **Isomer separation**: The isolation or separation of isomers from a mixture of isomers is to be considered as origin conferring.

Annex II to Protocol X (Rules of Origin)

List of working or processing required to be carried out on non-originating materials in order for the product manufactured to obtain originating status

HS 2017	**Description of product**	**Working or processing, carried out on non-originating materials, which confers originating status**
(1)	(2)	(3)
Chapter 1	Live animals	All the animals of Chapter 1 shall be wholly obtained
Chapter 2	Meat and edible meat offal	Manufacture in which all the meat and edible meat offal in the products of this Chapter is wholly obtained
Chapter 3	Fish and crustaceans, molluscs and other aquatic invertebrates	Manufacture in which all materials of Chapter 3 used are wholly obtained
Chapter 4	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included	Manufacture in which all the materials of Chapter 4 used are wholly obtained
ex Chapter 5	Products of animal origin, not elsewhere specified or included; except for:	Manufacture from materials of any heading

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
ex 0511 91	Inedible fish eggs and roes	All the eggs and roes are wholly obtained
Chapter 6	Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage	Manufacture in which all the materials of Chapter 6 used are wholly obtained
Chapter 7	Edible vegetables and certain roots and tubers	Manufacture in which all the materials of Chapter 7 used are wholly obtained
Chapter 8	Edible fruit and nuts; peel of citrus fruits or melons	Manufacture in which all the fruit, nuts and peels of citrus fruits or melons of Chapter 8 used are wholly obtained
Chapter 9	Coffee, tea, maté and spices	Manufacture from materials of any heading
Chapter 10	Cereals	Manufacture in which all the materials of Chapter 10 used are wholly obtained
Chapter 11	Products of the milling industry; malt; starches; inulin; wheat gluten	Manufacture in which all the materials of Chapters 8, 10 and 11, headings 0701, 0714, 2302 and 2303, and sub-heading 0710 10 used are wholly obtained
Chapter 12	Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder	Manufacture from materials of any heading, except that of the product
ex Chapter 13	Lac; gums, resins and other vegetable saps and extracts; except for	Manufacture from materials of any heading

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
ex 1302	Pectic substances, pectinates and pectates	Manufacture from materials of any heading and in which the weight of sugar used does not exceed 40 % of the weight of the final product
Chapter 14	Vegetable plaiting materials; vegetable products not elsewhere specified or included	Manufacture from materials of any heading
ex Chapter 15	Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes; except for:	Manufacture from materials of any heading, except that of the product
1504 to 1506	Fats and oils and their fractions, of fish or marine mammals; wool grease and fatty substances derived therefrom (including lanolin); other animal fats and oils and their fractions, whether or not refined, but not chemically modified	Manufacture from materials of any heading
1508	Groundnut oil and its fractions, whether or not refined, but not chemically modified	Manufacture from materials of any subheading, except that of the product
1509 and 1510	Olive oil and its fractions	Manufacture in which all the vegetable materials used are wholly obtained
1511	Palm oil and its fractions, whether or not refined, but not chemically modified	Manufacture from materials of any subheading, except that of the product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
ex 1512	Sunflower seed oils and their fractions - for technical or industrial uses other than the manufacture of foodstuffs for human consumption - other	Manufacture from materials of any heading, except that of the product Manufacture in which all the vegetable materials used are wholly obtained
1515	Other fixed vegetable fats and oils (including jojoba oil) and their fractions, whether or not refined, but not chemically modified	Manufacture from materials of any subheading, except that of the product
Ex 1516	Fats and oils and their fractions, of fish	Manufacture from materials of any heading
1520	Glycerol, crude; glycerol waters and glycerol lyes	Manufacture from materials of any heading
Chapter 16	Preparations of meat, of fish or of crustaceans, molluscs or other aquatic invertebrates	Manufacture in which all the materials of Chapter 2, 3 and 16 used are wholly obtained
ex Chapter 17	Sugars and sugar confectionery; except for:	Manufacture from materials of any heading, except that of the product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
1702	Other sugars, including chemically pure lactose, maltose, glucose and fructose, in solid form; sugar syrups not containing added flavouring or colouring matter; artificial honey, whether or not mixed with natural honey; caramel: - Chemically-pure maltose and fructose	Manufacture from materials of any heading, including other materials of heading 1702
	- Other	Manufacture from materials of any heading, except that of the product, in which the weight of the materials of heading 1101 to 1108, 1701 and 1703 used does not exceed 30% of the weight of the final product
1704	Sugar confectionery (including white chocolate), not containing cocoa	Manufacture from materials of any heading, except that of the product, in which: -the weight of sugar used does not exceed 40 % of the weight of the final product or - the value of sugar used does not exceed 30 % of the ex-works price of the product
ex Chapter 18	Cocoa and cocoa preparations; except for:	Manufacture from materials of any heading, except that of the product, in which the weight of sugar used does not exceed 40 % of the weight of the final product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
ex 1806	Chocolate and other food preparations containing cocoa; except for:	Manufacture from materials of any heading, except that of the product, in which: -the weight of sugar used does not exceed 40 % of the weight of the final product or - the value of sugar used does not exceed 30 % of the ex-works price of the product
180610	Cocoa powder, containing added sugar or other sweetening matters	Manufacture from materials of any heading, except that of the product, in which the weight of sugar used does not exceed 40 % of the weight of the final product
1901	Malt extract; food preparations of flour, groats, meal, starch or malt extract, not containing cocoa or containing less than 40 % by weight of cocoa calculated on a totally defatted basis, not elsewhere specified or included; food preparations of goods of headings 0401 to 0404, not containing cocoa or containing less than 5 % by weight of cocoa calculated on a totally defatted basis, not elsewhere specified or included:	Manufacture from cereals of Chapter 10
	- Malt extract	
	- Other	Manufacture from materials of any heading, except that of the product, in which the individual weight of sugar and of the materials of Chapter 4 used does not exceed 40% of the weight of the final product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
1902	Pasta, whether or not cooked or stuffed (with meat or other substances) or otherwise prepared, such as spaghetti, macaroni, noodles, lasagne, gnocchi, ravioli, cannelloni; couscous, whether or not prepared	Manufacture from materials of any heading, except that of the product, in which - the weight of the materials of headings 1006 and 1101 to 1108 used does not exceed 20% of the weight of the final product and - the weight of the materials of Chapters 2, 3 and 16 used does not exceed 20% of the weight of the final product
1903	Tapioca and substitutes therefor prepared from starch, in the form of flakes, grains, pearls, siftings or similar forms	Manufacture from materials of any heading, except potato starch of heading 1108
1904	Prepared foods obtained by the swelling or roasting of cereals or cereal products (for example, corn flakes); cereals (other than maize (corn)) in grain form or in the form of flakes or other worked grains (except flour, groats and meal), pre-cooked or otherwise prepared, not elsewhere specified or included	Manufacture from materials of any heading, except that of the product, in which: - the weight of the materials of headings 1006 and 1101 to 1108 used does not exceed 20% of the weight of the final product, and - -the weight of sugar used does not exceed 40 % of the weight of the final product
1905	Bread, pastry, cakes, biscuits and other bakers' wares, whether or not containing cocoa; communion wafers, empty cachets of a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar products	Manufacture from materials of any heading, except that of the product, in which the weight of the materials of headings 1006 and 1101 to 1108 used does not exceed 20% of the weight of the final product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
ex Chapter 20	Preparations of vegetables, fruit, nuts or other parts of plants; except for:	Manufacture from materials of any heading, except that of the product
2002 and 2003	Tomatoes, mushrooms and truffles prepared or preserved otherwise than by vinegar or acetic acid	Manufacture from materials of any heading , except that of the product, in which all the materials of Chapter 7 used are wholly obtained
2006	Vegetables, fruit, nuts, fruit-peel and other parts of plants, preserved by sugar (drained, glacé or crystallized)	Manufacture from materials of any heading, except that of the product, in which: the weight of sugar used does not exceed 40 % of the weight of the final product
2007	Jams, fruit jellies, marmalades, fruit or nut purée and fruit or nut pastes, obtained by cooking, whether or not containing added sugar or other sweetening matter	Manufacture from materials of any heading, except that of the product, in which the weight of sugar used does not exceed 40 % of the weight of the final product
ex 2008	Products, other than: - Nuts, not containing added sugar or spirits - Peanut butter; mixtures based on cereals; palm hearts; maize (corn) - fruit and nuts cooked otherwise than by steaming or boiling in water, not containing added sugar, frozen	Manufacture from materials of any heading, except that of the product, in which the weight of sugar used does not exceed 40 % of the weight of the final product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
2009	Fruit juices (including grape must) and vegetable juices, unfermented and not containing added spirit, whether or not containing added sugar or other sweetening matter	Manufacture from materials of any heading, except that of the product, in which the weight of sugar used does not exceed 40 % of the weight of the final product
ex Chapter 21	Miscellaneous edible preparations; except for:	Manufacture from materials of any heading, except that of the product
2103	- Sauces and preparations therefor; mixed condiments and mixed seasonings	Manufacture from materials of any heading, except that of the product. However, mustard flour or meal or prepared mustard may be used
	- Mustard flour and meal and prepared mustard	Manufacture from materials of any heading
2105	Ice cream and other edible ice, whether or not containing cocoa	Manufacture from materials of any heading, except that of the product, in which: - the individual weight of sugar and of the materials of Chapter 4 used does not exceed 40 % of the weight of the final product and - the combined weight of sugar and of the materials of Chapter 4 used does not exceed 60 % of the weight of the final product
2106	Food preparations not elsewhere specified or included	Manufacture from materials of any heading, except that of the product, in which the weight of sugar used does not exceed 40 % of the weight of the final product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
ex Chapter 22	Beverages, spirits and vinegar; except for:	Manufacture from materials of any heading, except that of the product, in which all the materials of sub-headings 0806 10, 2009 61, 2009 69 used are wholly obtained
2202	Waters, including mineral waters and aerated waters, containing added sugar or other sweetening matter or flavoured, and other non-alcoholic beverages, not including fruit or vegetable juices of heading 2009	Manufacture from materials of any heading, except that of the product
2207 and 2208	Undenatured ethyl alcohol of an alcoholic strength by volume of higher or less than 80 % vol; spirits, liqueurs and other spirituous beverages	Manufacture from materials of any heading, except heading 2207 or 2208, in which all the materials of sub-headings 0806 10, 2009 61, 2009 69 used are wholly obtained
ex Chapter 23	Residues and waste from the food industries; prepared animal fodder; except for:	Manufacture from materials of any heading, except that of the product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
2309	Preparations of a kind used in animal feeding	Manufacture in which: - all the materials of Chapters 2 and 3 used are wholly obtained, - the weight of materials of Chapters 10 and 11 and headings 2302 and 2303 used does not exceed 20% of the weight of the final product, - the individual weight of sugar and the materials of Chapter 4 used does not exceed 40 % of the weight of the final product and - the total combined weight of sugar and the materials of Chapter 4 used does not exceed 50% of the weight of the final product
ex Chapter 24	Tobacco and manufactured tobacco substitutes; except for:	Manufacture from materials of any heading in which the weight of materials of heading 2401 does not exceed 30% of the total weight of materials of Chapter 24 used
ex 24	Products intended for inhalation through heated delivery or other means, without combustion	Manufacture from materials of any heading, except that of the product, in which at least 10% by weight of all materials of heading 24.01 used is wholly obtained
2401	Unmanufactured tobacco; tobacco refuse	Manufacture in which all materials of heading 2401 are wholly obtained

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
ex 2402	Cigarettes, of tobacco or of tobacco substitutes	Manufacture from materials of any heading, except that of the product and of smoking tobacco of sub-heading 2403 19, in which at least 10% by weight of all materials of heading 2401 used is wholly obtained
ex Chapter 25	Salt; sulphur; earths and stone; plastering materials, lime and cement; except for:	Manufacture from materials of any heading, except that of the product, or Manufacture in which the value of all the materials used does not exceed 70% of the ex-works price of the product
ex 2519	Crushed natural magnesium carbonate (magnesite), in hermetically-sealed containers, and magnesium oxide, whether or not pure, other than fused magnesia or dead-burned (sintered) magnesia	Manufacture from materials of any heading, except that of the product. However, natural magnesium carbonate (magnesite) may be used
Chapter 26	Ores, slag and ash	Manufacture from materials of any heading, except that of the product
ex Chapter 27	Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes; except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 50 of the ex-works price of the product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
ex 2707	Oils in which the weight of the aromatic constituents exceeds that of the non-aromatic constituents, being oils similar to mineral oils obtained by distillation of high temperature coal tar, of which more than 65 % by volume distils at a temperature of up to 250 °C (including mixtures of petroleum spirit and benzole), for use as power or heating fuels	Operations of refining and/or one or more specific process(es)[1] or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product
2710	Petroleum oils and oils obtained from bituminous materials, other than crude; preparations not elsewhere specified or included, containing by weight 70 % or more of petroleum oils or of oils obtained from bituminous materials, these oils being the basic constituents of the preparations; waste oils	Operations of refining and/or one or more specific process(es)[2] or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product

1 For the special conditions relating to 'specific Processes', see Introductory Notes 8.1 and 8.3.
2 For the special conditions relating to 'specific Processes', see Introductory Notes 8.1 and 8.3.

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
2711	Petroleum gases and other gaseous hydrocarbons	Operations of refining and/or one or more specific process(es)[3] or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product
2712	Petroleum jelly; paraffin wax, microcrystalline petroleum wax, slack wax, ozokerite, lignite wax, peat wax, other mineral waxes, and similar products obtained by synthesis or by other processes, whether or not coloured	Operations of refining and/or one or more specific process(es)[4] or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product

3 For the special conditions relating to 'specific Processes', see Introductory Notes 8.1 and 8.3.
4 For the special conditions relating to 'specific Processes', see Introductory Notes 8.1 and 8.3.

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
2713	Petroleum coke, petroleum bitumen and other residues of petroleum oils or of oils obtained from bituminous materials	Operations of refining and/or one or more specific process(es)[5] or Other operations in which all the materials used are classified within a heading other than that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product
Chapter 28	Inorganic chemicals; organic or inorganic compounds of precious metals, of rare-earth metals, of radioactive elements or of isotopes	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 50 % of the ex-works price of the product

5 For the special conditions relating to 'specific Processes', see Introductory Notes 8.1 and 8.3.

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
ex Chapter 29	Organic chemicals; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20% of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
ex 2901	Acyclic hydrocarbons for use as power or heating fuels	Operations of refining and/or one or more specific process(es) (1) or Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product
ex 2902	Cyclanes and cyclenes (other than azulenes), benzene, toluene, xylenes, for use as power or heating fuels	Operations of refining and/or one or more specific process(es) (1) or Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 50 % of the ex-works price of the product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
ex 2905	Metal alcoholates of alcohols of this heading and of ethanol	Manufacture from materials of any heading, including other materials of heading 2905. However, metal alcoholates of this heading may be used, provided that their total value does not exceed 20% of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
Chapter 30	Pharmaceutical products	Manufacture from materials of any heading
Chapter 31	Fertilizers	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
Chapter 32	Tanning or dyeing extracts; tannins and their derivatives; dyes, pigments and other colouring matter; paints and varnishes; putty and other mastics; inks;	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
Chapter 33	Essential oils and resinoids; perfumery, cosmetic or toilet preparations;	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
Chapter 34	Soap, organic surface-active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing or scouring preparations, candles and similar articles, modelling pastes, "dental waxes" and dental preparations with a basis of plaster;	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
Chapter 35	Albuminoidal substances; modified starches; glues; enzymes;	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 40 % of the ex-works price of the product
Chapter 36	Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
Chapter 37	Photographic or cinematographic goods	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20 % of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
ex Chapter 38	Miscellaneous chemical products; except for:	Manufacture from materials of any heading, except that of the product. However, materials of the same heading as the product may be used, provided that their total value does not exceed 20% of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
ex3811	Anti-knock preparations, oxidation inhibitors, gum inhibitors, viscosity improvers, anti-corrosive preparations and other prepared additives, for mineral oils (including gasoline) or for other liquids used for the same purposes as mineral oils:	
	- Prepared additives for lubricating oil, containing petroleum oils or oils obtained from bituminous minerals	Manufacture in which the value of all the materials of heading 3811 used does not exceed 50 % of the ex-works price of the product
Ex 3824 90 and ex 3826 00	Biodiesel	Manufacture in which biodiesel is obtained through transesterification and/or esterification or through hydro-treatment

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
Chapter 39	Plastics and articles thereof	Manufacture from materials of any heading, except that of the product. However, materials of the same subheading as the product may be used, provided that their total value does not exceed 20% of the ex-works price of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
ex Chapter 40	Rubber and articles thereof; except for:	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
ex4012	Retreaded pneumatic, solid or cushion tyres, of rubber	Retreading of used tyres
ex Chapter 41	Raw hides and skins (other than furskins) and leather; except for:	Manufacture from materials of any heading, except that of the product
4104 to 4106	Tanned or crust hides and skins, without wool or hair on, whether or not split, but not further prepared	Re-tanning of tanned leather or Manufacture from materials of any heading, except that of the product

HS 2017	Description of product	Working or processing, carried out on non-originating materials, which confers originating status
Chapter 42	Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk worm gut)	Manufacture from materials of any heading, except that of the product or Manufacture in which the value of all the materials used does not exceed 50% of the ex-works price of the product
ex Chapter 43	Furskins and artificial fur; manufactures thereof; except for:	Manufacture from materials of any heading, except that of the product
ex 4302	Tanned or dressed furskins, assembled:	
	- Plates, crosses and similar forms.	Bleaching or dyeing, in addition to cutting and assembly of non-assembled tanned or dressed furskins
	- Other	Manufacture from non-assembled, tanned or dressed furskins
4303	Articles of apparel, clothing accessories and other articles of furskin	Manufacture from non-assembled tanned or dressed furskins of heading 4302

ANNEX V TO PROTOCOL X (RULES OF ORIGIN)

Supplier's declaration

The supplier's declaration, the text of which is given below, must be made out in accordance with the footnotes. However, the footnotes do not have to be reproduced.

SUPPLIER'S DECLARATION

for goods which have undergone working or processing in the United Kingdom, Norway or Iceland without having obtained preferential origin status

I, the undersigned, supplier of the goods covered by the annexed document, declare that:

1. The following materials which do not originate in the United Kingdom, Norway or Iceland have been used in the UK, Norway or Iceland to produce these goods:

Description of the goods supplied ([1])	**Description of non-originating materials used**	**Heading of non-originating materials used ([2])**	**Value of non-originating materials used ([2])([3])**
		Total value	

2. All the other materials used in the United Kingdom, Norway, Iceland or the European Union to produce these goods originate in the UK, Norway, Iceland or the EU;

3. The following goods have undergone working or processing outside the UK, Norway or Iceland in accordance with Article 16 (Principle of Territoriality) of Protocol X (Rules of Origin) to this Agreement and have acquired the following total value there:

Description of the goods supplied	**Total value added outside the United Kingdom, Norway or Iceland ([4])**
	(Place and Date)
	(Address and signature of the supplier; in addition the name of the person signing the declaration must be indicated in clear script)

(1) When the invoice, delivery note or other commercial document to which the declaration is annexed relates to different kinds of goods, or to goods which do not incorporate non-originating materials to the same extent, the supplier must clearly differentiate them.
Example:
The document relates to different models of electric motor of heading 85.01. to be used in the manufacture of washing machines of heading 84.50. The nature and value of the non-originating materials used in the manufacture of these motors differ from one another. The models must therefore be differentiated in the first column and the indication in the other columns must be provided separately for each of the models to make it possible for the manufacturer of washing machines to make a correct assessment of the originating status of his products depending on which electrical motor he uses.

(2) The indications requested in these columns should only be given if they are necessary.
Examples:
The rule for garments of ex Chapter 62 says that non-originating yarn may be used. If a manufacture of such garments in the United Kingdom uses fabric imported from Norway which has been obtained there by weaving non-originating yarn, it is sufficient for the United Kingdom supplier to describe in his declaration the non-originating material used as yarn, without it being necessary to indicate the heading and value of such yarn.
A producer of iron of heading 72.17 who has produced it from non-originating iron bars should indicate in the second column “bars of iron”.

Where this wire is to be used in the production of a machine, for which the rule contains a limitation for all non-originating materials used to a certain percentage value it is necessary to indicate in the third column the value of the non-originating bars.

(3) "Value of materials" means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the United Kingdom, Norway, Iceland or the European Union. The exact value for each non-originating material used must be given per unit of the goods specified in the first column.

(4) "Total added value" shall mean all costs accumulated outside the United Kingdom, Norway, Iceland or the European Union, including the value of all materials added there. The exact total added value acquired outside the United Kingdom, Norway, Iceland or the European Union must be given per unit of the goods specified in the first column.

This document has been agreed between the United Kingdom and Iceland, Liechtenstein and Norway and is provided for information only. No rights may be derived from it until the date of application.

The text is subject to legal review, including, where necessary, the harmonisation of terminology, the use of definitions and the numbering.

ANNEX VI TO PROTOCOLX (RULES OF ORIGIN)

Long-term supplier's declaration

The long-term supplier's declaration, the text of which is given below, must be made out in accordance with the footnotes. However, the footnotes do not have to be reproduced.

LONG TERM SUPPLIER'S DECLARATION

for goods which have undergone working or processing in the United Kingdom, Norway or Iceland without having obtained preferential origin status

I, the undersigned, supplier of the goods covered by this document, which are regularly supplied to

(Address and signature of the supplier; in addition the name of the person signing the declaration must be indicated in clear script)

(1) Name and address of the customer.

(2) When the invoice, delivery note or other commercial document to which the declaration is annexed relates to different kinds of goods, or to goods which do not incorporate non-originating materials to the same extent, the supplier must clearly differentiate them.

Example:

The document relates to different models of electric motor of heading 8501 to be used in the manufacture of washing machines of heading 8450. The nature and value of the non-originating materials used in the manufacture of these motors differ from one another. The models must therefore be differentiated in the first column and the indication in the other columns must be provided separately for each of the models to make it possible for the manufacturer of washing machines to make a correct assessment of the originating status of his products depending on which electrical motor he uses.

(3) The indications requested in these columns should only be given if they are necessary.

Examples:

If a manufacture of such garments in the United Kingdom uses fabric imported from Norway which has been obtained there by weaving non-originating yarn, it is sufficient for the United Kingdom supplier to describe in his declaration the non-originating material used as yarn, without it being necessary to indicate the heading and value of such yarn.

A producer of iron of heading 7217 who has produced it from non-originating iron bars should indicate in the second column “bars of iron”.

Where this wire is to be used in the production of a machine, for which the rule contains a limitation for all non-originating materials used to a certain percentage value it is necessary to indicate in the third column the value of the non-originating bars.

(4) “Value of materials” means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the materials in the United Kingdom, Norway, Iceland or the European Union. The exact value for each non-originating material used must be given per unit of the goods specified in the first column.

(5) "Total added value" shall mean all costs accumulated outside the United Kingdom, Norway, Iceland or the European Union, including the value of all materials added there. The exact total added value acquired outside the United Kingdom, Norway, Iceland or the European Union must be given per unit of the goods specified in the first column.

(6) Insert dates. The period of validity of the long-term supplier's declaration should not normally exceed 12 months, subject to the conditions laid down by the customs authorities where the long-term supplier's declaration is made out.

This document has been agreed between the United Kingdom and Iceland, Liechtenstein and Norway and is provided for information only. No rights may be derived from it until the date of application.

PROTOCOL ON RULES OF ORIGIN

TITLE I

GENERAL PROVISIONS

ARTICLE 1

Definitions

For the purposes of this Protocol:

(a) 'chapters', 'headings' and 'subheadings' mean the chapters, the headings and the subheadings (four- or six-digit codes) used in the Commodity Description and Coding System ('Harmonized System');

(b) 'classified' means the classification of a good under a particular heading or subheading of the Harmonized System;

(c) 'consignment' means products which are either:

  (i) sent simultaneously from one exporter to one consignee; or

  (ii) covered by a single transport document covering their shipment from the exporter to the consignee or, in the absence of such a document, by a single invoice;

(d) 'customs value' means the value as determined in accordance with the Agreement on implementation of Article VII of the General Agreement on Tariffs and Trade 1994 (WTO Agreement on Customs Valuation);

(e) 'ex-works price' means the price paid for the product ex works to the manufacturer in the Party in whose undertaking the last working or processing is carried out, provided that the price includes the value of all the materials used and all other costs related to its production, minus any internal taxes which are, or may be, repaid when the product obtained is exported. Where the last working or processing has been subcontracted to a manufacturer, the term 'manufacturer' refers to the enterprise that has employed the subcontractor. Where the actual price paid does not reflect all costs related to the manufacturing of the product which are actually incurred in the Party, the ex-works price means the sum of all those costs, minus any internal taxes which are, or may be, repaid when the product obtained is exported;

(f) ‘fungible material’ or ‘fungible product’ means material or product that is of the same kind and commercial quality, with the same technical and physical characteristics, and which cannot be distinguished from one another;

(g) ‘good’ means both material and product;

(h) ‘manufacture’ means any kind of working or processing, including assembly;

(i) ‘material’ means any ingredient, raw material, component or part, etc., used in the manufacture of the product;

(j) ‘maximum content of non-originating materials’ means the maximum content of non-originating materials which is permitted in order to consider a manufacture to be working or processing sufficient to confer originating status on the product. It may be expressed as a percentage of the ex-works price of the product or as a percentage of the net weight of these materials used falling under a specified group of chapters, chapter, heading or subheading;

(k) ‘product’ means the product being manufactured, even if it is intended for later use in another manufacturing operation;

(l) ‘territory’ includes the land territory, internal waters and the territorial sea of a Party;

(m) ‘value added’ shall be taken to be the ex-works price of the product minus the customs value of each of the materials incorporated which originate in the other Parties with which cumulation is applicable or, where the customs value is not known or cannot be ascertained, the first ascertainable price paid for the materials in the exporting Party; and

(n) ‘value of non-originating materials’ means the customs value at the time of importation of the non-originating materials used, or, if this is not known and cannot be ascertained, the first ascertainable price paid for the non-originating materials in the exporting Party. Where the value of the originating materials used needs to be established, this point shall be applied mutatis mutandis.

TITLE II

DEFINITION OF THE CONCEPT OF 'ORIGINATING PRODUCTS'

ARTICLE 2

General Requirements

For the purpose of implementing the relevant Agreement, the following products shall be considered as originating in a Party:

(a) products wholly obtained in the Party, within the meaning of Article 3 (Wholly Obtained Products);

(b) products obtained in the Party incorporating materials which have not been wholly obtained there, provided that such materials have undergone sufficient working or processing in that Party within the meaning of Article 5 (Sufficient Working or Processing);

(c) products produced exclusively from originating materials; and

(d) products produced in that Party incorporating non-originating materials provided they satisfy the requirements set out in Annex II to this Protocol.

ARTICLE 3

Wholly Obtained Products

1. The following shall be considered as wholly obtained in a Party:

(a) mineral products and natural water extracted from its soil or from its seabed;

(b) plants, including aquatic plants, and vegetable products grown or harvested there;

(c) live animals born and raised there;

(d) products from live animals raised there;

(e) products from slaughtered animals born and raised there;

(f) products obtained by hunting or fishing conducted there;

(g) products obtained from aquaculture there[1];

(h) products of sea fishing and other products taken from the sea outside any territorial sea by its vessels;

(i) products made on board its factory ships exclusively from products referred to in point (h);

(j) waste and scrap resulting from manufacturing operations conducted there;

(k) used products collected there, fit only for the recovery of raw materials;

(l) products extracted from the seabed or below the seabed which is situated outside its territorial sea but where it has exclusive exploitation rights; and

(m) goods produced there exclusively from the products specified in points (a) to (l).

2. The terms 'its vessels' and 'its factory ships' in points (h) and (i) of paragraph 1 respectively shall apply only to vessels and factory ships which meet each of the following requirements:

(a) they are registered in the exporting or the importing Party; and

(b) they sail under the flag of the exporting or the importing Party;

ARTICLE 4

Recovered Materials and Remanufactured Goods

1. A recovered material is defined as a material recovered in the territory of one or both of the Parties from used goods provided such goods are fit only for such recovery.

2. Each Party shall provide that:

(a) a recovered material is treated as originating when it is used in the production of, and incorporated into, a remanufactured good;

(b) a remanufactured good is only treated as originating if it meets the relevant rule of origin for an equivalent good when new; and

1 *Litra* (g) applies if aquatic organisms, including fish, molluscs, crustaceans, other aquatic invertebrates and aquatic plants are born or raised from seed stock such as eggs, roes, fry, fingerlings, larvae, parr, smolts by intervention in the rearing or growth processes to enhance production such as regular stocking, feeding or protection from predators.

(c) a recovered material not incorporated into a remanufactured good in one of the Parties is originating only if it meets the relevant rule of origin for an equivalent good when new.

ARTICLE 5

Sufficient Working or Processing

1. Without prejudice to paragraph 3 and to Article 7 (Insufficient Working or Processing), products which are not wholly obtained in a Party shall be considered to be sufficiently worked or processed when the conditions laid down in the list in Annex II to this Protocol for the goods concerned are fulfilled.

2. If a product which has obtained originating status in a Party in accordance with paragraph 1 is used as a material in the manufacture of another product, no account shall be taken of the non-originating materials which may have been used in its manufacture.

3. The determination of whether the requirements of paragraph 1 are met, shall be carried out for each product.

   However, where the relevant rule is based on compliance with a maximum content of non-originating materials, the customs authorities of the Parties may authorise exporters to calculate the ex-works price of the products and the value of the non-originating materials on an average basis as set out in paragraph 4, in order to take into account the fluctuations in costs and currency rates.

4. Where the second subparagraph of paragraph 3 applies, an average ex-works price of the product and average value of non-originating materials used shall be calculated respectively on the basis of the sum of the ex-works prices charged for all sales of the products carried out during the preceding fiscal year and the sum of the value of all the non-originating materials used in the manufacture of the products over the preceding fiscal year as defined in the exporting Party, or, where figures for a complete fiscal year are not available, a shorter period which should not be less than three months.

5. Exporters having opted for calculation on an average basis shall consistently apply such a method during the year following the fiscal year of reference, or, where appropriate, during the year following the shorter period used as a reference. They may cease to apply such a method where during a given fiscal year, or a shorter representative period of no less than three months, they record that the fluctuations in costs or currency rates which justified the use of such a method have ceased.

6. The averages referred to in paragraph 4 shall be used as the ex-works price and the value of non-originating materials, respectively, for the purpose of

establishing compliance with the maximum content of non-originating materials.

ARTICLE 6

Tolerance Rule

1. By way of derogation from Article 5 and subject to paragraphs 2 and 3, non-originating materials which, according to the conditions set out in the list in Annex II to this Protocol, are not to be used in the manufacture of a given product may nevertheless be used, provided that their total net weight or value assessed for the product does not exceed:

   (a) 15% of the net weight of the product falling within Chapters 2 and 4 to 24, other than processed fishery products of Chapter 16;

   (b) 15% of the ex-works price of the product for products other than those covered by point (a).

2. This paragraph shall not apply to products falling within Chapters 50 to 63, for which the tolerances mentioned in Notes 6 and 7 of Annex I to this Protocol shall apply.

3. Paragraph 1 shall not allow to exceed any of the percentages for the maximum content of non-originating materials as specified in the rules laid down in the list in Annex II to this Protocol.

4. Paragraphs 1 and 2 shall not apply to products wholly obtained in a Party within the meaning of Article 3 (Wholly Obtained Products). However, without prejudice to Article 6 (Tolerance Rule) and paragraph 1 of Article 9 (Unit of Qualification), the tolerance provided for in those provisions shall nevertheless apply to product for which the rule laid down in the list in Annex II to this Protocol requires that the materials which are used in the manufacture of that product are wholly obtained.

ARTICLE 7

Insufficient Working or Processing

1. Without prejudice to paragraph 2, the following operations shall be considered to be insufficient working or processing to confer the status of an originating product, whether or not the requirements of Article 5 (Sufficient Working or Processing) are satisfied:

   (a) preserving operations to ensure that the products remain in good condition during transport and storage;

   (b) breaking-up and assembly of packages;

(c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;

(d) ironing or pressing of textiles;

(e) simple painting and polishing operations;

(f) husking and partial or total milling of rice; polishing, and glazing of cereals and rice;

(g) operations to colour or flavour sugar or form sugar lumps; partial or total milling of crystal sugar;

(h) peeling, stoning and shelling, of fruits, nuts and vegetables;

(i) sharpening, simple grinding or simple cutting;

(j) sifting, screening, sorting, classifying, grading, matching; (including the making-up of sets of articles);

(k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;

(l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;

(m) simple mixing of products, whether or not of different kinds;

(n) mixing of sugar with any material;

(o) for Chapters 27 to 40 of the Harmonized System, simple addition of water or dilution with water or another substance that does not materially alter the characteristics of the good;

(p) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;

(q) slaughter of animals; and

(r) a combination of two or more operations specified in points (a) to (q).

2. All the operations carried out in the exporting Party on a given product shall be taken into account when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

3. For the purposes of paragraph 1, operations shall be considered simple if neither special skills nor machines, apparatus or equipment especially produced or installed are needed for carrying out those operations.

ARTICLE 8

Cumulation

1. Without prejudice to the provisions of Article 2 (General Requirements), products shall be considered as originating in the exporting Party when exported to another Party if they are obtained in the exporting Party incorporating materials originating in any Party or in any of the countries listed in Annex III to this Protocol provided that the conditions set out in paragraph 6 below are met. It shall not be necessary for such materials to have undergone sufficient working or processing.

2. Without prejudice to the provisions of Article 2 (General Requirements), working or processing carried out in the United Kingdom, Iceland, Norway or the European Union, shall be considered as having been carried out in the exporting Party, subject to the conditions set out in subparagraphs 6(a) and 6(c).

3. For cumulation provided for in paragraph 1, where the working or processing carried out in the exporting Party does not go beyond the operations referred to in Article 7 (Insufficient Working or Processing), the product obtained shall be considered as originating in a Party only where the value added there is greater than the value of the materials used originating in any one of the countries referred to in paragraph 1. If this is not so, the product obtained shall be considered as originating in the country which accounts for the highest value of originating materials used in the manufacture in a Party.

4. For cumulation provided for in paragraph 2, when the working or processing carried out in the exporting Party does not go beyond the operations referred to in Article 7 (Insufficient Working or Processing), the product obtained shall be considered as originating in the exporting Party only when the value added there is greater than the value added in any one of the other countries listed in paragraph 2.

5. Products, originating in one of the other countries referred to in paragraphs 1 and 2, which do not undergo any working or processing in the exporting Party, shall retain their origin if exported into one of these countries.

6. The conditions set out in this paragraph are:

   (a) preferential trade agreements in accordance with Article XXIV of GATT 1994 are in effect between the exporting Party and that non-Party and between the importing Party and that non-Party, which foresees procedures for proving origin and administrative cooperation procedures, including procedures for verification of the originating status;

(b) for cumulation of materials, these materials meet the relevant rules under this Agreement (*mutatis mutandis)* in order to qualify as originating in the non-Party in question; and

(c) the working or processing carried out in the exporting Party goes beyond those referred to in paragraph 1 of Article 7 (Insufficient Working or Processing), without prejudice to paragraphs 3 and 4 of this Article. Such materials do not have to undergo sufficient working or processing.

7. Where preferential trade agreements are in effect between the exporting Party and a non-Party not listed in Annex III to this Protocol and between the importing Party and the same non-Party, the following shall apply:

(a) Products imported from that non-Party which are used as materials in the manufacture of a product in a Party, which product is subsequently exported to the other Party, shall be considered as originating in the Party where the last operation has been carried out once a decision to that effect has been adopted by the Joint Committee, and subject to the terms of that decision;

(b) Except to the extent that that decision may provide to the contrary, the terms of that decision, once it is adopted, shall be deemed to include the conditions set out in paragraph 6;

(c) The Joint Committee shall take into account the special position of materials classified within Chapters 1 to 24 and Chapters 35 and 38 of the Harmonized System, insofar as sensitive sectors may be affected; and

(d) The Parties shall use their best endeavours to ensure that the Joint Committee shall reach an appropriate decision promptly on the request of any Party and, if that decision lays down further conditions, that such conditions shall be the least trade-restrictive conditions reasonable in the circumstances.

ARTICLE 9

Unit of Qualification

1. The unit of qualification for the application of this Agreement shall be the particular product which is considered to be the basic unit when determining classification using the nomenclature of the Harmonized System.

2. It follows that:

(a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonized System in a single heading, the whole constitutes the unit of qualification; and

(b) when a consignment consists of a number of identical products classified under the same heading, each individual item shall be taken into account when applying this Protocol.

ARTICLE 10

Packing Materials and Containers for Shipment

Packing materials and containers for shipment that are used to protect a product during transportation shall be disregarded in determining whether a product is originating.

ARTICLE 11

Packaging Materials and Containers for Retail Sale

Packaging materials and containers in which the product is packaged for retail sale, if classified with the product, shall be disregarded in determining the origin of the product, except for the purposes of calculating the maximum value of non-originating materials if a product is subject to a maximum value of non-originating materials in accordance with Annex II to this Protocol.

ARTICLE 12

Accessories, Spare Parts and Tools

1. Accessories, spare parts, tools and instructional or other information materials shall be regarded as one product with the piece of equipment, machine, apparatus or vehicle in question if they:

   (a) are classified and delivered with, but not invoiced separately from, the product; and

   (b) are of the types, quantities and value of customary for that product.

2. Accessories, spare parts, tools and instructional or other information materials referred to paragraph 1 shall be disregarded in determining the origin of the product except for the purposes of calculating the maximum value of non-originating materials if a product is subject to a maximum value of non-originating materials set out in Annex II to this Protocol.

ARTICLE 13

Sets

1. Sets, as defined in General Rule 3 of the Harmonized System, shall be regarded as originating when all the component products are originating.

2. When a set is composed of originating and non-originating products, the set as a whole shall however be regarded as originating, provided that the value of the non-originating products does not exceed 15% of the ex-works price of the set.

ARTICLE 14

Neutral Elements

In order to determine whether a product is an originating product, no account shall be taken of the origin of the following which might be used in its manufacture:

(a) energy and fuel;

(b) plant and equipment;

(c) machines and tools; and

(d) any other goods which do not enter, and which are not intended to enter, into the final composition of the product.

ARTICLE 15

Accounting Segregation

1. If originating and non-originating fungible materials are used in the working or processing of a product, economic operators may ensure the management of materials using the accounting segregation method, without keeping the materials on separate stocks.

2. If originating and non-originating fungible products of heading 17.01, Chapters 27, 28, 29, and headings 32.01-32.07 and 39.01-39.14 of the Harmonized System are exported from one Party to the other, economic operators may ensure the management of these products using the accounting segregation method, without keeping the products on separate stocks.

3. Parties may require that the application of accounting segregation is subject to prior authorisation by the customs authorities. The customs authorities may grant the authorisation subject to any conditions they deem appropriate and shall monitor the use made of the authorisation. The customs authorities may withdraw the authorisation whenever the beneficiary makes improper use of

the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Protocol.

4. Through the use of accounting segregation it must be ensured that, at any time, no more products can be considered as 'originating in the exporting Party' than would have been the case if a method of physical segregation of the stocks had been used.

5. The method shall be applied and the application thereof shall be recorded on the basis of the general accounting principles applicable in the exporting Party.

6. The beneficiary of the method referred to in paragraphs 1 and 2 shall make out or apply for proofs of origin for the quantity of products which may be considered as originating in the exporting Party. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.

TITLE III

TERRITORIAL REQUIREMENTS

ARTICLE 16

Principle of Territoriality

1. The conditions set out in Title II shall be fulfilled without any interruption in a Party concerned.

2. If originating products exported from a Party to another country are returned, they shall be considered to be non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

   (a) the products returned are the same as those which were exported; and

   (b) they have not undergone any operations beyond that necessary to preserve them in good condition while in that country or while being exported.

3. The obtention of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside the exporting Party on materials exported from that Party and subsequently re-imported there, provided:

   (a) those materials are wholly obtained in the exporting Party or have undergone working or processing beyond the operations referred to in Article 7 (Insufficient Working or Processing) prior to being exported; and

(b) it can be demonstrated to the satisfaction of the customs authorities that:

(i) the re-imported products have been obtained by working or processing the exported materials; and

(ii) the total added value acquired outside the exporting Party by applying this Article does not exceed 10% of the ex-works price of the end product for which originating status is claimed.

4. For the purposes of paragraph 3, the conditions for obtaining originating status set out in Title II shall not apply to working or processing done outside the exporting Party. However, where, in the list in Annex II to this Protocol, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the exporting Party, taken together with the total added value acquired outside that Party by applying this Article, shall not exceed the stated percentage.

5. For the purposes of applying paragraphs 3 and 4, 'total added value' shall be taken to mean all costs arising outside the exporting Party, including the value of the materials incorporated there.

6. Paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex II to this Protocol or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 6 (Tolerance Rule) is applied.

7. Any working or processing of the kind covered by this Article and done outside the exporting Party shall be done under the outward processing arrangements, or similar arrangements.

ARTICLE 17

Non-Alteration

1. The preferential treatment provided for under the relevant Agreement shall apply only to products satisfying the requirements of this Agreement and declared for importation in a Party provided that those products are the same as those exported from the exporting Party. They shall not have been altered, transformed in any way or subjected to operations other than to preserve them in good condition or than adding or affixing marks, labels, seals or any documentation to ensure compliance with specific domestic requirements of the importing Party carried out under customs supervision in the country(ies) of transit or splitting prior to being declared for home use.

2. Storage of products or consignments may take place provided they remain under customs supervision in the third country(ies) of transit.

3. Without prejudice to Title V of this Protocol, the splitting of consignments may take place, provided they remain under customs supervision in the third country(ies) of splitting.

4. In the case of doubt, the importing Party may request the importer or its representative to submit at any time all appropriate documents to provide evidence of compliance with this Article, which may be given by any documentary evidence, and notably by:

   (a) contractual transport documents such as bills of lading;

   (b) factual or concrete evidence based on marking or numbering of packages;

   (c) a certificate of non-manipulation provided by the customs authorities of the country(ies) of transit or splitting or any other documents demonstrating that the goods remained under customs supervision in the country(ies) of transit or splitting; or

   (d) any evidence related to the goods themselves.

ARTICLE 18

Exhibitions

1. Originating products, sent for exhibition in a country other than with which cumulation is applicable in accordance with Article 8 and sold after the exhibition for importation in a Party, shall benefit on importation from the relevant Agreement provided it is shown to the satisfaction of the customs authorities that:

   (a) an exporter has consigned these products from a Party to the country in which the exhibition is held and has exhibited them there;

   (b) the products have been sold or otherwise disposed of by that exporter to a person in another Party;

   (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and

   (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin shall be issued or made out in accordance with Title V of this Protocol and submitted to the customs authorities of the importing Party in the normal manner. The name and address of the exhibition shall be

indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

PROOF OF ORIGIN

ARTICLE 19

Origin Declaration

1. For the purpose of obtaining preferential tariff treatment in the importing Party, a proof of origin in the form of an origin declaration in accordance with Annex IV to this Protocol must be completed by an exporter in a Party for products originating in any Party and otherwise fulfilling the requirements of this Protocol.

2. The origin declaration must be made out using one of the linguistic versions of the text set out in Annex IV to this Protocol on an invoice or on any other commercial document that describes the originating product in sufficient detail to enable its identification. The importing Party shall not require the importer to submit a translation of the origin declaration.

3. The origin declaration shall bear the original signature of the exporter or the authorised representative under the exporter's responsibility.

4. Notwithstanding paragraph 3, the Parties shall allow:

   (a) the use of electronic signatures or identification codes pursuant to paragraph 5 for exporters in the United Kingdom; and

   (b) authorization numbers pursuant to Article 20 (Approved Exporter) for exporters in Iceland or Norway.

5. Each Party shall permit an origin declaration to be sent electronically and directly from the exporter in one Party to an importer in the other Party. Such an approach will allow the use of electronic signatures or identification codes.

6. The origin declaration may be completed when the products to which it relates are exported, or after exportation. An origin declaration shall be valid one year from the date of completion, or for such longer period as may be provided by the importing Party.

7. An origin declaration may apply to multiple shipments of identical products imported into a Party within the period specified in the origin declaration, which shall not exceed 12 months.

8. Notwithstanding paragraph 1, the Parties may allow forwarding agents, customs brokers and other persons to complete an origin declaration. In such cases, they must be empowered in writing by the exporter of the product to complete origin declarations. They must submit the said authorisation to the competent authorities, at their request.

9. An exporter who has completed an origin declaration must keep a copy of the origin declaration and all documents supporting the originating status of the product, in paper or electronic form, for at least three years from the date of completion.

10. If an exporter has completed an origin declaration for a product referred to in paragraph 2 of Article 8 (Cumulation), the exporter must possess a completed and signed supplier's declaration in accordance with Annex V to this Protocol or Annex VI to this Protocol from the supplier of the non-originating materials used in the production of the product. The customs authority of the exporting Party may, subject to its domestic requirements, allow the supplier's declaration to be completed without signature.

ARTICLE 20

Approved Exporter

1. The customs authorities of Iceland or Norway may, subject to domestic requirements, authorise an exporter of that Party (hereinafter referred to as "approved exporter") to complete origin declarations without signature.

2. An exporter who requests such authorisation must offer to the satisfaction of the customs authorities of Iceland or Norway all guarantees necessary to verify the originating status of the products as well as the fulfilment of any other requirement under this Protocol.

3. The customs authorities of Iceland or Norway shall provide, to the approved exporter, an authorisation number to be included in the origin declaration instead of the signature.

4. The customs authorities of Iceland or Norway shall monitor the proper use of an authorisation and may withdraw it if the exporter no longer meets the conditions or otherwise makes improper use of it.

TITLE V

PREFERENTIAL TREATMENT

ARTICLE 21

Importation Requirements

1. Each Party shall grant preferential tariff treatment in accordance with this Agreement to originating products of a Party imported from another Party, on the basis of a claim for preferential tariff treatment made by the importer based on an origin declaration referred to in Article 19 (Origin Declaration).

2. An origin declaration must be submitted to the customs authority of the importing Party within one year from its completion the validity period provided by the importing Party. The expiration of this period may be suspended as long as the products covered by that origin declaration remain under customs control of the importing Party. After this period, an origin declaration may be accepted only in exceptional circumstances.

3. Notwithstanding paragraph 1, a Party may, in accordance with its domestic laws and regulations, waive the requirements to present an origin declaration.

4. An importer who has been granted preferential tariff treatment must keep the origin declaration and other relevant documents for three years after the date on which preferential tariff treatment was granted, or longer if required by the laws and regulations of the importing Party.

ARTICLE 22

Delayed Claims for Preferential Treatment

If a product would have qualified for preferential treatment when it was imported into the territory of a Party but the importer did not have an origin declaration at the time of importation, the importer of the product having a valid origin declaration may, within a period of time of no less than 2 years after the date of importation, apply in accordance with domestic laws and regulations for a refund of duties paid as a result of the good not having been accorded preferential tariff treatment.

ARTICLE 23

Importation by Instalments

Where, at the request of an importer and in accordance with domestic laws, regulations, or published requirements of the importing Party, a dismantled or non-

assembled product within the meaning of General Interpretative Rule 2(a) is imported by instalments, a single origin declaration may be submitted to the customs authority upon importation of the first instalment. Alternatively, an origin declaration may be submitted for each imported instalment.

ARTICLE 24

Exemptions from Origin Declaration Requirements

1. Each Party may, in conformity with its laws and regulations, waive the requirement to present an origin declaration for low value importations of originating goods from the other Party.

2. Each Party may exclude any importation from the provisions of paragraph 1 when the importation is part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purpose of avoiding the requirements of this Protocol related to origin declarations.

3. Each Party may set value limits for products referred to in paragraph 1, and shall exchange information regarding those limits.

ARTICLE 25

Record Keeping Requirements

1. The exporting Party shall require an exporter that has completed an origin declaration to keep, and to provide on request:

   (a) a copy of the origin declaration and all supporting documents; and

   (b) written statements from producers or suppliers which evidence the origin declaration's claim that the good is originating,

   for three years after the completion of the origin declaration, or for such longer period of time as the exporting Party may specify.

2. Each Party shall provide that, if an exporter has based an origin declaration on a written statement from a producer or supplier, that producer or supplier shall be required to maintain records in accordance with paragraph 1.

3. The importing Party may require that an importer that has been granted preferential treatment shall keep documentation relating to the importation of the good, including a copy of the origin declaration, for three years after the date of import, or for a longer period of time as that Party may specify.

4. Each Party shall permit, in accordance with that Party's laws and regulations, importers, exporters, producers and suppliers in its territory to maintain

documentation or records in any medium, provided that the documentation or records can be retrieved and printed.

5. A Party may deny preferential treatment to a good that is the subject of a verification of origin when the importer, exporter, producer or supplier of the good that is required to maintain records or documentation under this Article:

   (a) fails to maintain records or documentation in accordance with this Protocol; or

   (b) denies access to those records or documentation.

ARTICLE 26

Cooperation of Exporters and Importers with the Customs Authority

1. Each Party shall ensure that exporters and importers benefitting from the Agreement must, within the framework of this Agreement and subject to laws and regulations of that Party, cooperate with the customs authority of that Party and submit, upon their request, supporting documents regarding the fulfilment of the requirements of this Protocol.

2. The exporting Party shall ensure that an exporter who has completed an origin declaration must:

   (a) upon request of the customs authority of that Party, submit the documents referred to in paragraph 6 of Article 19 (Origin Declaration) to that authority, which may carry out inspections and verify the exporters or the producer's accounts and take other appropriate measures; and

   (b) when becoming aware of or having reason to believe that an origin declaration contains incorrect information, immediately notify the importer and the customs authority of the exporting Party of any change affecting the originating status of each product covered by that origin declaration.

3. The importing Party shall ensure that an importer who has requested or has been granted preferential tariff treatment must:

   (a) upon request of the customs authority of that Party, submit the documents referred to in paragraph 3 of Article 17 (Non-alteration) to that authority; and

   (b) when becoming aware of or having reason to believe that the origin declaration contains incorrect information, immediately notify the customs authority of that Party of any change affecting the originating status of each product covered by an origin declaration.

ARTICLE 27

Discrepancies

The customs authority of the importing Party shall not reject a claim for preferential tariff treatment due to minor errors or discrepancies in the origin declaration, or for the sole reason that an invoice was issued in a third country.

TITLE VI

ADMINISTRATIVE COOPERATION

ARTICLE 28

Verification of Origin

1. The customs authority of the exporting Party shall carry out verifications of origin declarations on request of the importing Party.

2. The verification request may question the authenticity of origin declarations, the originating status of the product concerned or the fulfilment of other requirements of this Protocol. It shall identify the reasons for the inquiry and include a copy of the origin declaration and, if appropriate, any other document or information giving reason to believe that the origin declaration could be invalid.

3. The importing Party shall submit the verification request to the exporting Party within 34 months from the completion of the origin declaration. The exporting Party is not obliged to conduct verifications based on verification requests received after that deadline.

4. The customs authority of the importing Party may, subject to its domestic laws and regulations, suspend preferential tariff treatment of a product covered by an origin declaration until the verification procedure has been finalised.

5. The customs authority of the exporting Party may request evidence, carry out inspections at the exporter's or producer's premises, check the exporter's and the producer's accounts and take other appropriate measures to verify compliance with this Protocol.

6. The requesting Party shall be informed of the results and findings of the verification within 10 months from the date of the verification request. If the requesting Party receives no reply within that time limit, or if the reply does not clearly state whether a product is originating or whether the origin

declaration is valid, the requesting Party may deny preferential tariff treatment to the consignment covered by the origin declaration in question.

7. Where the requested Party is unable to meet the deadline referred to in paragraph 6, it shall, upon request within that deadline, be granted an extension of the deadline.

8. Each Party shall provide that, if there are differences in relation to the verification procedures of this Article or in the interpretation of the rules of origin in determining whether a good qualifies as originating, and these differences cannot be resolved through consultations between the customs authority requesting the verification and the customs authority responsible for performing the verification, and if the customs authority of the importing Party intends to make a determination of origin that is inconsistent with the results and findings of the verification provided by the customs authority of the exporting Party, the customs authority of the importing Party shall notify the customs authority of the exporting Party within 60 days of receiving those results and findings of the verification.

9. At the request of either Party, the Parties shall hold and conclude consultations within 90 days from the date of the notification referred to in paragraph 8 to resolve those differences. The period for concluding consultations may be extended on a case by case basis by mutual written consent between the Parties. If the differences cannot be settled by consultation between the Parties, each Party may seek to resolve these differences within the Joint Committee.

ARTICLE 29

Denial of Preferential Tariff Treatment

1. An importing Party may deny preferential tariff treatment or recover unpaid customs duties in accordance with its domestic laws and regulations where a product does not meet the requirements of this Protocol or where the importer or exporter fails to demonstrate compliance with the relevant requirements.

2. Slight discrepancies between the statements made in the origin declaration and those made in other documents submitted to the customs authority for customs clearance or obvious formal errors, such as typing errors in an origin declaration, shall not as such render the origin declaration invalid.

3. In all cases, the settlement of differences between the importer and the customs authority of the importing Party shall be under the law of the importing Party.

ARTICLE 30

Notifications and Cooperation

1. The Parties shall provide each other with:

   (a) the addresses of the customs authorities of the Parties responsible for verifications referred to in Article 28 (Verification of Origin Declarations) and other issues related to the implementation or application of this Protocol;

   (b) information on the use of electronic signatures and identification codes referred to in Article 19 (Origin Declaration), and authorisation numbers referred to in Article 20 (Approved Exporter); and

   (c) information on the interpretation, application and administration of this Protocol.

2. The Parties shall endeavour to resolve technical matters related to the implementation or application of this Protocol, to the extent possible, through direct consultations between the customs authority referred to in subparagraph (1)(a) or in the Sub-Committee on Trade in Goods. Disputes that cannot be settled through such consultations shall be submitted to the Joint Committee.

3. The Parties shall provide each other with details of the arrangements or agreements, including their dates of entry into effect, and their corresponding rules of origin, which are applied with the other countries referred to in paragraphs 1, 2 and 7 of Article 8 (Cumulation).

ARTICLE 31

Confidentiality

1. This Protocol does not require a Party to furnish or allow access to information, the disclosure of which would impede law enforcement or would be contrary to that Party's law protecting business information.

2. Each Party shall maintain, in conformity with its law, the confidentiality of the information collected pursuant to this Protocol and shall protect that information from disclosure that could prejudice the competitive position of the person providing the information. If the Party receiving or obtaining the information is required by its law to disclose the information, that Party shall notify the person or Party who provided that information.

3. Each Party shall ensure that the confidential information collected pursuant to this Protocol shall not be used for purposes other than the administration and enforcement of determination of origin and of customs matters, except

with the permission of the person or Party who provided the confidential information.

4. Where personal data is transferred pursuant to this Protocol, such transfer shall take place in accordance with the transferring Party's rules on international transfers of personal data. Where needed, each Party will make best efforts, while respecting its rules on international transfers of personal data, to establish safeguards necessary for the transfer of personal data.

5. Notwithstanding paragraph 3, a Party may allow information collected pursuant to this Protocol to be used in any administrative, judicial, or quasi-judicial proceedings instituted for failure to comply with customs related laws and regulations implementing this Protocol. A Party shall notify the person or Party who provided the information in advance of such use.

6. The Parties shall exchange information on their respective law for the purpose of facilitating the operation and application of paragraph 2.

TITLE VII

FINAL PROVISIONS

ARTICLE 32

Penalties

Each Party shall provide for the imposition of criminal, civil or administrative penalties for violations of its domestic laws and regulations related to this Protocol.

ARTICLE 33

Products in Transit or Storage

The provisions of this Protocol may be applied to products which, on the date of entry into force of the Agreement, are either in transit or in temporary storage in a customs warehouse or free zone under customs control. For such products, an origin declaration may be completed retrospectively up to six months after the entry into force of the Agreement, provided that the provisions of this Protocol and in particular Article 17 have been fulfilled.

TITLE VIII

APPLICATION OF THE PROTOCOL

ARTICLE 34

Liechtenstein

Without prejudice to Article 2 (General Requirements), a product originating in Liechtenstein shall, due to the customs union between Switzerland and Liechtenstein, be considered as originating in Switzerland.

ARTICLE 35

Free Zones

1. The Parties shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By way of derogation from paragraph 1, when products originating in a Party are imported into a free zone under cover of a proof of origin and undergo treatment or processing, a new proof or origin may be issued or made out, if the treatment or processing undergone complies with this Protocol.

ARTICLE 36

Republic of San Marino

Without prejudice to Article 2 (General Requirements), a product originating in the Republic of San Marino shall, due to the customs union between the European Union and the Republic of San Marino, be considered as originating in the European Union.

ARTICLE 37

Principality of Andorra

Without prejudice to Article 2 (General Requirements), a product originating in the Principality of Andorra classified under Chapters 25 to 97 shall, due to the customs union between the European Union and the Principality of Andorra, be considered as originating in the European Union.

ARTICLE 38

Ceuta and Melilla

The term "European Union" used in this Protocol does not cover Ceuta and Melilla. The term "products originating in the European Union" does not cover products originating in Ceuta and Melilla.

This document has been agreed between the United Kingdom and Iceland, Liechtenstein and Norway and is provided for information only. No rights may be derived from it until the date of application.

ANNEX I

REFERRED TO IN [ARTICLE 2.39]

PROVISIONS AND ARRANGEMENTS CONCERNING SANITARY AND PHYTOSANITARY MATTERS

INTRODUCTION

When the provisions in this Annex refer to sanitary measures that for Iceland and Norway are governed by the EEA Agreement, the Parties understand that such measures are taken by the EU and that Iceland and Norway, simultaneously with the EU Member States, implement corresponding measures on the basis of the relevant EU acts and in accordance with their obligations under the EEA Agreement.

PART 1

Official Certification

1. Where the importing Party requires official certificates, the model certificates shall be set in line with the principles as laid down in the international standards of the Codex, the IPPC and the OIE.

2. The Parties shall promote the implementation of electronic certification and other technologies to facilitate trade.

PART 2

Import Conditions and Procedures

1. The exporting Party shall ensure that products exported to the other Parties, such as animals and animal products, plants and plant products, or other related objects, meet the SPS requirements of the importing Party.

2. The importing Party may require that imports of particular products are subject to authorisation. Such authorisation shall be granted where a request is made by the relevant competent authority of the exporting Party which

objectively demonstrates, to the satisfaction of the importing Party, that the authorisation requirements of the importing Party are fulfilled.

3. The importing Party shall not introduce authorisation requirements which are additional to those which were applicable on 31 December 2020, unless the application of such requirements to further products is justified to mitigate a significant risk to human, animal or plant health.

4. The importing Party shall establish and communicate to the other Parties import conditions for all products. The importing Party shall ensure that its import conditions are applied in a proportionate and non-discriminatory manner.

5. Each Party shall ensure that all SPS control, inspection and approval procedures are initiated and completed without undue delay. Information requirements shall be limited to what is necessary for the approval process to take into account information already available in the importing Party, such as on the legislative framework and audit reports of the exporting Party.

6. Except in duly justified circumstances related to its level of protection, each Party shall provide a transition period between the publication of any changes to its approval procedures and their application to allow the other Parties to become familiar with and adapt to such changes. Each Party shall not unduly prolong the approval process for applications submitted prior to publication of the changes.

7. In relation to the processes set out in paragraphs 2 to 5, the following actions shall be taken:

   (a) as soon as the importing Party has positively concluded its assessment, it shall promptly take all necessary legislative and administrative measures to allow trade to take place without undue delay;

   (b) the exporting Party shall:

      (i) provide all relevant information required by the importing Party; and

      (ii) give reasonable access to the importing Party for audit and other relevant procedures.

8. The importing Party shall accept consignments without requiring that the importing Party verifies compliance of those consignments before their departure from the territory of the exporting Party.

9. A Party may collect fees for the costs incurred to conduct specific SPS border checks, which should not exceed the recovery of the costs.

10. The importing Party shall have the right to carry out import checks on products imported from the exporting Party for the purpose of ensuring compliance with its SPS import requirements.

11. The import checks carried out on products imported from the exporting Party shall be based on the SPS risk associated with such importations. Import checks shall be carried out only to the extent necessary to protect human, animal or plant life or health, without undue delay and with a minimum effect on trade between the Parties.

12. Information on the proportion of products from the exporting Party checked at import shall be made available by the importing Party upon request of the exporting Party.

13. If import checks reveal non-compliance with the relevant import conditions the action taken by the importing Party must be based on an assessment of the risk involved and not be more trade restrictive than required to achieve that Party's appropriate level of SPS protection.

PART 3

Lists of Approved Establishments

1. Whenever justified, the importing Party may maintain a list of approved establishments meeting its import requirements as a condition to allow imports of animal products from these establishments.

2. Unless justified to mitigate a significant risk to human or animal health, lists of approved establishments shall only be required for the products for which they were required on 31 December 2020.

3. The exporting Party shall inform the importing Party of its list of establishments meeting the importing Party's conditions which shall be based on guarantees provided by the exporting Party.

4. Upon a request from the exporting Party, the importing Party shall approve establishments which are situated in the territory of the exporting Party, based on guarantees provided by the exporting Party, without prior inspection of individual establishments.

5. Unless the importing Party requests additional information and subject to guarantees being provided by the exporting Party, the importing Party shall take the necessary legislative or administrative measures, in accordance with its applicable legal procedures, to allow imports from those establishments without undue delay.

6. The list of the approved establishments shall be made publicly available by the importing Party.

7. Where the importing Party decides to reject the request of the exporting Party to accept adding an establishment to the list of approved establishments, it shall inform the exporting Party without delay and shall submit a reply, including information about the non-conformities which led to the rejection of the establishment's approval.

PART 4

Recognition of Animal Disease Status and Regional Conditions

1. The Parties shall recognise the concept of zoning including disease-free areas, and areas of low disease prevalence and shall apply it to the trade between the Parties, in accordance with the SPS Agreement, including the guidelines to further the practical implementation of Article 6 of the SPS Agreement (WTO/SPS Committee Decision G/SPS/48) and the relevant recommendations, standards and guidelines of the OIE. The SPS Joint Management Committee may define further details for these procedures, taking into account any relevant SPS Agreement and OIE standards, guidelines or recommendations.

2. The Parties may also agree to cooperate on the concept of compartmentalisation as referred to in Chapters 4.4 and 4.5 of the OIE Terrestrial Animal Health Code and Chapters 4.1 and 4.2 of the OIE Aquatic Animal Health Code.

3. When establishing or maintaining the zones referred to in paragraph 1, the Parties shall consider factors such as geographical location, ecosystems, epidemiological surveillance and the effectiveness of sanitary controls.

4. With regard to animals and animal products, when establishing or maintaining import conditions upon the request of the exporting Party, the importing Party shall recognise the disease-free areas established by the exporting Party as a basis for consideration towards the determination of allowing or maintaining the import, without prejudice to paragraphs 6 and 7.

5. The exporting Party shall identify the parts of its territory referred to in paragraph 4 and, if requested, provide a full explanation and supporting data based on the OIE standards, or in other ways established by the SPS Joint Management Committee, based on the knowledge acquired through experience of the exporting Party's relevant authorities.

6. The Parties shall recognise disease-free areas which are in place on 31 December 2020.

7. Paragraph 6 shall also apply to subsequent adaptations to the disease-free areas except in cases of significant changes in the disease situations.

8. The Parties may carry out audits and verifications pursuant to Part 5 (Audits and Verifications) to implement paragraphs 4 to 7.

9. The Parties shall establish close cooperation with the objective of maintaining confidence in the procedures in relation to the establishment of disease-free areas, and areas of low disease prevalence, with the aim to minimise trade disruption.

10. The importing Party shall base its own determination of the animal health status of the exporting Party or parts thereof on the information provided by the exporting Party in accordance with the SPS Agreement and OIE standards, and take into consideration any determination made by the exporting Party.

11. Where the importing Party does not accept the determination made by the exporting Party as referred to in paragraph 10, the importing Party shall objectively justify and explain to the exporting Party the reasons for that rejection and, upon request, hold consultations, in accordance with paragraph 2 of Article [2.44] (Notifications and Consultations).

12. Each Party shall ensure that the obligations set out in paragraphs 4 to 7, 10 and 11 are carried out without undue delay. The importing Party will expedite the recognition of the disease status when the status has been recovered after an outbreak.

13. Where a Party considers that a specific region has a special status with respect to a specific disease and which fulfils the criteria laid down in the OIE Terrestrial Animal Health Code Chapter 1.2 or the OIE Aquatic Animal Health Code Chapter 1.2, it may request recognition of this status. The importing Party may request additional guarantees in respect of imports of live animals and animal products appropriate to the agreed status.

PART 5

Audits and Verifications

1. The importing Party may carry out audits and verifications of the following:

   (a) all or part of the exporting Party's authorities' inspection and certification system; and

   (b) the results of the controls carried out under the exporting Party's inspection and certification system.

2. The Parties shall carry out those audits and verifications in accordance with the provisions of the SPS Agreement, taking into account the relevant international standards, guidelines and recommendations of the Codex, the OIE or the IPPC.

3. For the purpose of carrying out such audits and verifications, the importing Party may conduct audits and verifications by means of requests of information from the exporting Party or audit and verification visits to the exporting Party, which may include:

   (a) an assessment of all or part of the responsible authorities' total control programme, including, where appropriate, reviews of regulatory audit and inspection activities;

   (b) on-the-spot checks; and

   (c) the collection of information and data to assess the causes of recurring or emerging problems in relation to exports of products.

4. The importing Party shall share with the exporting Party the results and conclusions of the audits and verifications carried out pursuant to paragraph 1. The importing Party may make these results publicly available.

5. Prior to the commencement of an audit or verification, the Parties concerned shall discuss the objectives and scope of the audit or verification, the criteria or requirements against which the exporting Party will be assessed, and the itinerary and procedures for conducting the audit or verification which shall be laid down in an audit or verification plan. Unless otherwise agreed by the Parties concerned, the importing Party shall provide the exporting Party with an audit or verification plan at least 30 days prior to the commencement of the audit or verification.

6. The importing Party shall provide the exporting Party the opportunity to comment on the draft audit or verification report. The importing Party shall provide a final report in writing to the exporting Party normally within two months from the date of receipt of those comments.

7. Each Party shall bear its own costs associated with such an audit or verification.

PART 6

Emergency Measures

1. If the importing Party considers that there is a serious risk to human, animal or plant life or health, it may take without prior notification the necessary measures for the protection of human, animal or plant life or health. For consignments that are in transit between the importing Party and the exporting Party, the importing Party shall consider the most suitable and proportionate solution to avoid unnecessary disruptions to trade.

2. The Party taking the measures shall notify the other Parties of an emergency SPS measure as soon as possible after its decision to implement the measure and no later than 24 hours after the decision has been taken. If a Party requests

technical consultations to address the emergency SPS measure, the technical consultations must be held within 10 days of the notification of the emergency SPS measure. The Parties concerned shall consider any information provided through the technical consultations. These consultations shall be carried out in order to avoid unnecessary disruptions to trade. The Parties concerned may consider options for the facilitation of the implementation or the replacement of the measures.

3. The importing Party shall consider, in a timely manner, information that was provided by the exporting Party when it makes its decision with respect to consignments that, at the time of adoption of the emergency SPS measure, are being transported between the Parties concerned, in order to avoid unnecessary disruptions to trade.

4. The importing Party shall ensure that any emergency measure taken on the grounds referred to in paragraph 1 is not maintained without scientific evidence or, in cases where scientific evidence is insufficient, is adopted in accordance with paragraph 7 of Article 5 of the SPS Agreement.

ANNEX TBT-I

MOTOR VEHICLES AND EQUIPMENT AND PARTS THEREOF

ARTICLE 1

Definitions

1. For the purposes of this Annex:

(a) "WP.29" means the World Forum for Harmonisation of Vehicle Regulations within the framework of the United Nations Economic Commission for Europe (UNECE);

(b) "1958 Agreement" means the Agreement Concerning the Adoption of Harmonized Technical United Nations Regulations for Wheeled Vehicles, Equipment and Parts which can be Fitted and/or be Used on Wheeled Vehicles and the Conditions for Reciprocal Recognition of Approvals Granted on the Basis of these United Nations Regulations, done at Geneva on 20 March 1958, administered by the WP.29, and all subsequent amendments and revisions thereof;

(c) "1998 Agreement" means the Agreement concerning the Establishing of Global Technical Regulations for Wheeled Vehicles, Equipment and Parts which can be Fitted and/or be Used on Wheeled Vehicles, done at Geneva on 25 June 1998, administered by the WP.29, and all subsequent amendments and revisions thereof;

(d) "UN Regulations" means Regulations adopted in accordance with the 1958 Agreement;

(e) "GTR" means a Global Technical Regulation established and placed on the Global Registry in accordance with the 1998 Agreement;

(f) "HS 2017" means the 2017 edition of the Harmonised System Nomenclature issued by the World Customs Organization;

(g) "type approval" means the procedure whereby an approval authority certifies that a type of vehicle, system, component or separate technical unit satisfies the relevant administrative provisions and technical requirements;

(h) "type-approval certificate" means the document whereby an approval authority officially certifies that a type of vehicle, system, component or separate technical unit is type-approved.

2. Terms referred to in this Annex shall have the same meaning as they have in the 1958 Agreement or in Annex 1 to the TBT Agreement.

ARTICLE 2

Product Scope

This Annex applies to the trade between the Parties of all categories of motor vehicles, equipment and parts thereof, as defined in Paragraph 1.1. of UNECE Consolidated Resolution on the Construction of Vehicles (R.E.3)[1], falling under, inter alia, Chapters 40, 84, 85, 87 and 94 of the HS 2017 (hereinafter referred to as "products covered").

ARTICLE 3

Objectives

With regard to the products covered, the objectives of this Annex are to:

(a) eliminate and prevent any unnecessary technical barriers to bilateral trade;

(b) promote the compatibility and convergence of regulations based on international standards;

(c) promote the recognition of approvals based on approval schemes applied under the agreements administered by WP.29;

(d) reinforce competitive market conditions based on principles of openness, non- discrimination and transparency;

(e) promote high levels of protection of human health, safety and the environment; and

(f) maintain cooperation on issues of mutual interest to foster continued mutually beneficial development in trade.

ARTICLE 4

Relevant International Standards

The Parties recognise that the WP.29 is the relevant international standardising body and that UN Regulations and GTRs under the 1958 Agreement

1 ECE/TRANS/WP.29/78/Rev.6 of 11 July 2017

and 1998 Agreement are relevant international standards for the products covered by this Annex.

ARTICLE 5

Regulatory Convergence Based on Relevant International Standards

1. Neither Party shall introduce or maintain any domestic technical regulation, marking, or conformity assessment procedure diverging from UN Regulations or GTRs in areas covered by such Regulations or GTRs, including where the relevant UN Regulations or GTRs have not been completed but their completion is imminent, unless there are substantiated reasons why a specific UN Regulation or GTR is an ineffective or inappropriate means for the fulfilment of legitimate objectives pursued, for example, in the areas of road safety or the protection of the environment or human health.

2. A Party which introduces a divergent domestic technical regulation, marking, or conformity assessment procedure as referred to in paragraph 1, shall at the request of the other Party, identify the parts of the domestic technical regulation, marking, or conformity assessment procedure which substantially diverge from the relevant UN Regulations or GTRs and provide justification for the divergence.

3. Each Party shall systematically consider applying UN Regulations adopted after the entry into force of this Agreement, and shall inform each other of any changes regarding the implementation of those UN Regulations in its respective domestic legal system following the protocol established under the 1958 Agreement[2] and in line with Article 8 (Cooperation).

4. Insofar as a Party has introduced or maintains domestic technical regulations, markings or conformity assessment procedures that diverge from UN Regulations or GTRs as permitted by paragraph 1, that Party shall review those domestic technical regulations, markings or conformity assessment procedures at regular intervals, preferably not exceeding five years, with a view to increasing their convergence with the relevant UN Regulations or GTRs. When reviewing their domestic technical regulations, markings and conformity assessment procedures, each Party shall consider whether the justification for the divergence still exists. The outcome of these reviews, including any scientific and technical information used, shall be notified to the other Party upon request.

5. Each Party shall refrain from introducing or maintaining domestic technical regulations, markings, or conformity assessment procedures which have the effect of prohibiting, restricting or increasing the burden for the importation and putting into service on their domestic market of products type-approved

2 Iceland shall not be required to follow the protocol established under the 1958 Agreement when informing the UK under this paragraph of any changes regarding the implementation of those UN Regulations that pertain to the domestic legal system of Iceland.

under UN Regulations for the areas covered by those UN Regulations unless such domestic technical regulations, markings or conformity assessment procedures are explicitly provided for by those UN Regulations.

ARTICLE 6

Type Approval and Market Surveillance

1. Each Party shall accept on its market products which are covered by a valid UN type-approval certificate as compliant with its domestic technical regulations, markings and conformity assessment procedures, without requiring any further testing or marking to verify or attest compliance with any requirement covered by the UN type approval certificate concerned. In the case of vehicle approvals, the UN Universal International Whole Vehicle Type Approval (U-IWVTA) shall be considered valid in respect of the requirements covered by the U-IWVTA. UN type-approval certificates issued by a Party can only be considered valid if that Party has acceded to the relevant UN Regulations.

2. Each Party shall only be required to accept valid UN type-approval certificates issued pursuant to the latest version of the UN Regulations it has acceded to.

3. For the purpose of paragraph 1, the following shall be considered sufficient proof of the existence of a valid UN type-approval:

   (a) for whole vehicles, a valid UN Declaration of Conformance certifying compliance with a U-IWVTA;

   (b) for equipment and parts, a valid UN type-approval mark affixed to the product; or

   (c) for equipment and parts to which a UN type-approval mark cannot be affixed, a valid UN type-approval certificate.

4. For the purpose of conducting market surveillance, the competent authorities of a Party may verify that the products covered comply, as appropriate, with

   (a) all the domestic technical regulations of that Party; or

   (b) the UN Regulations with which compliance has been attested, in accordance with this Article, by a valid UN Declaration of Conformance certifying compliance with a U- IWVTA in the case of whole vehicles, or by a valid UN type-approval mark affixed to the product or a valid UN type-approval certificate in the case of equipment and parts.

   (c) Such verifications shall be carried out by random sampling in the market and in accordance with the technical regulations referred to in point (a) or (b) of this paragraph, as the case may be.

5. The Parties shall endeavour to cooperate in the field of market surveillance to support the identification and addressing of non-conformities of vehicles, systems, components or separate technical units.

6. A Party may take any appropriate measures with respect to vehicles, systems, components or separate technical units that present a serious risk to the health or safety of persons or with regard to other aspects of the protection of public interests, or that otherwise do not comply with applicable requirements. Such measures may include:

   (a) prohibiting or restricting the making available on the market; and

   (b) the registration or the entry into service of the vehicles, systems, components or separate technical units concerned, or withdrawing them from the market or recalling them.

   A Party that adopts or maintains such measures shall promptly inform the other Party of those measures and, at the request of the other Party, shall provide its reasons for adopting those measures.

ARTICLE 7

Products with New Technologies or New Features

1. Neither Party shall refuse or restrict the access to its market of a product that is covered by this Annex and that has been approved by the exporting Party on the grounds that the product incorporates a new technology or a new feature that the importing Party has not yet regulated, unless it can demonstrate that it has reasonable grounds for believing that the new technology or new feature creates a risk for human health, safety or the environment.

2. If a Party decides to refuse the access to its market or requires the withdrawal from its market of a product of the other Party covered by this Annex on the grounds that it incorporates a new technology or a new feature creating a risk for human health, safety or the environment, it shall promptly notify that decision to the other Party and to the economic operator or operators concerned. This notification shall include all relevant scientific or technical information taken into account in the decision.

ARTICLE 8

Cooperation

1. In order to further facilitate trade in motor vehicles, their parts and equipment, and to prevent market access problems, while ensuring human health, safety and environmental protection, the Parties shall endeavour to cooperate and to exchange information as appropriate.

2. Areas of cooperation under this Article may include in particular:

(a) the development and establishment of technical regulations or related standards;

(b) the exchange, to the extent possible, of research, information and results linked to the development of new vehicle safety regulations or related standards, advanced emission reduction, and emerging vehicle technologies;

(c) the exchange of available information on the identification of safety-related or emission-related defects and non-compliance with technical regulations; and

(d) the promotion of greater international harmonisation of technical requirements through multilateral fora, such as the 1958 Agreement and the 1998 Agreement, including through cooperation in the planning of initiatives in support of such harmonization

This document has been agreed between the United Kingdom and Iceland, Liechtenstein and Norway and is provided for information only. No rights may be derived from it until the date of application.

ANNEX TBT-II

MEDICINAL PRODUCTS

ARTICLE 1

Definitions

For the purposes of this Annex:

(a) “authority” means an authority of a Party as listed in Appendix 1;

(b) “Good Manufacturing Practice" or "GMP” means that part of quality assurance which ensures that products are consistently produced and controlled in accordance with the quality standards appropriate for their intended use and as required by the applicable marketing authorisation or product specifications, as listed in Appendix 2;

(c) "inspection" means an evaluation of a manufacturing facility to determine whether such manufacturing facility is operating in compliance with Good Manufacturing Practice and/or commitments made as part of the approval to market a product, which is conducted in accordance with the laws, regulations and administrative provisions of the relevant Party, and includes pre-marketing and post-marketing inspection;

(d) “official GMP document” means a document issued by an authority of a Party following the inspection of a manufacturing facility, including, for example, inspection reports, certificates attesting the compliance of a manufacturing facility with GMP, or a GMP non-compliance statement.

ARTICLE 2

Scope

The provisions of this Annex apply to medicinal products as listed in Appendix 3.

ARTICLE 3

Objectives

With regard to the products covered the objectives of this Annex are:

(a) to facilitate the availability of medicines in each Party's territory;

(b) to set out the conditions for the recognition of inspections and for the exchange and acceptance of official GMP documents between the Parties;

(c) to promote public health by safeguarding patient safety and animal health and welfare, as well as to protect high levels of consumer and environmental protection, where relevant, by promoting regulatory approaches in line with the relevant international standards.

ARTICLE 4

International Standards

The relevant standards for the products covered by this Annex shall ensure a high level of protection of public health in line with standards, practices and guidelines developed by the World Health Organization (WHO), the Organization for Economic Cooperation and Development (OECD), the International Council for Harmonisation of Technical Requirements for Pharmaceuticals for Human Use (ICH), and the International Cooperation on Harmonisation of Technical Requirements for Registration of Veterinary Medicinal Products (VICH).

ARTICLE 5

Recognition of Inspections and Acceptance of Official GMP Documents

1. A Party shall recognise inspections carried out by the other Party and shall accept official GMP documents issued by the other Party in accordance with the laws, regulations and technical guidelines listed in Appendix 2.

2. An authority of a Party may in specific circumstances opt not to accept an official GMP document issued by an authority of the other Party for manufacturing facilities located in the territory of the issuing authority. Examples of such circumstances include the indication of material inconsistencies or inadequacies in an inspection report, quality defects identified in post-market surveillance or other specific evidence of serious concern in relation to product quality or patient safety. Each Party shall ensure that where an authority of a Party opts not to accept an official GMP document issued by an authority of the other Party, that authority notifies the relevant authority of the other Party of the reasons for not accepting the document and may request clarification from the authority of the other Party. The relevant Party shall ensure that its authority endeavours to respond to the request for clarification in a timely manner.

3. A Party may accept official GMP documents issued by an authority of the other Party for manufacturing facilities located outside the territory of the issuing authority.

4. Each Party may determine the terms and conditions under which it accepts official GMP documents issued under paragraph 3.

ARTICLE 6

Exchange of Official GMP Documents

1. Each Party shall ensure that if an authority of a Party requests an official GMP document from the authority of the other Party, the authority of the other Party shall endeavour to transmit the document within 30 calendar days of the date of the request.

2. Each Party shall treat the information in a document obtained pursuant to paragraph 1 as confidential. This shall not prevent disclosure of such information which may be required under national law.

ARTICLE 7

Safeguards

1. Each Party has the right to conduct its own inspection of manufacturing facilities that have been certified as compliant by the other Party.

2. Each Party shall ensure that, prior to conducting an inspection under paragraph 1, the authority of the Party that intends to conduct the inspection notifies the relevant authority of the other Party of the inspection in writing, stating the reasons for conducting its own inspection. The authority of the Party that intends to conduct the inspection shall endeavour to notify the authority of the other Party in writing at least 30 days before a proposed inspection, but may provide a shorter notice in urgent situations. The authority of the other Party may join the inspection.

ARTICLE 8

Changes to Applicable Laws and Regulations

1. Each Party shall notify the other Party at least 60 days before adopting any new measures or changes relating to Good Manufacturing Practice concerning any of the relevant laws, regulations and technical guidelines listed in Appendix 2.

2. The Parties shall exchange all the necessary information, including changes to their respective laws, regulations, technical guidelines or inspection procedures relating to Good Manufacturing Practice so that each Party can consider whether the conditions for the recognition of inspections and acceptance of official GMP documents pursuant to Article 5(1) continue to exist.

3. If as a result of any of the new measures or changes referred to in paragraph 1 of this Article, a Party considers that it can no longer recognise inspections or accept official GMP documents issued by the other Party, it shall notify the other Party of its intention to apply Article 9 and the Parties shall enter into consultations via the Technical Barriers to Trade Committee.

4. Any notification under this Article shall be done via the designated contact.

ARTICLE 9

Suspension

1. Without prejudice to Article 5(2), each Party has the right to suspend totally or partially the recognition of inspections and acceptance of official GMP documents of the other Party pursuant to Article 5(1) for all or some of the products listed in Appendix 3. That right shall be exercised in an objective and reasoned manner. The Party exercising such right shall notify the other Party and provide a written justification. A Party shall continue to accept official GMP documents of the other Party issued prior to such suspension, unless the Party decides otherwise on the basis of health or safety considerations.

2. Where, following consultations referred to in Article 8(3), a Party nevertheless suspends the recognition of inspections and acceptance of official GMP documents pursuant to Article 5(1), it may do so in accordance with paragraph 1 of this Article not earlier than 60 days after the commencement of the consultations. During that 60-day period, both Parties shall continue to recognise inspections and accept official GMP documents issued by an authority of the other Party.

3. Where recognition of inspections and acceptance of official GMP documents pursuant to Article 5(1) is suspended, at the request of a Party, the Parties shall discuss the matter via the Technical Barriers to Trade Committee and they shall make every effort to consider possible measures that would enable the recognition of inspections and acceptance of official GMP documents to be restored.

ARTICLE 10

Regulatory Cooperation

1. The Parties shall endeavour to consult one another, as permitted by their respective law, on proposals to introduce significant changes to technical regulations or inspection procedures, including those that affect how documents from the other Party are recognised in accordance with Article 5 and, where appropriate, to provide the opportunity to comment on such proposals, without prejudice to Article 8.

2. The Parties shall endeavour to cooperate with a view to strengthening, developing and promoting the adoption and implementation of internationally agreed scientific or technical guidelines including, where feasible, through the presentation of joint initiatives, proposals and approaches in the relevant international organisations and bodies referred to in Article 4.

ARTICLE 11

Amendments to Appendices

The Joint Committee shall have the power to amend Appendix 1 in order to update the list of authorities, Appendix 2 in order to update list of applicable laws and regulations and technical guidelines, and Appendix 3 in order to update the list of covered products.

ARTICLE 12

Non-Application of Dispute Settlement

Chapter [XX] [Dispute Settlement] of this Agreement does not apply in respect of disputes regarding the interpretation and application of this Annex.

ANNEX TBT-III

CHEMICALS

ARTICLE 1

Definition

For the purposes of this Annex:

(a) "responsible authorities" means:

(i) For Iceland and Norway: the government of Iceland and the government of Norway;

(ii) For the United Kingdom: the government of the United Kingdom.

(b) "UN GHS" means the United Nations Globally Harmonized System of Classification and Labelling of Chemicals.

ARTICLE 2

Scope

This Annex applies to the trade, regulation, import and export of chemicals between Iceland, Norway, and the United Kingdom in respect of their registration, evaluation, authorisation, restriction, approval, classification, labelling and packaging.

ARTICLE 3

Objectives

1. The objectives of this Annex are to:

(a) facilitate the trade of chemicals and related products between the Parties;

(b) ensure high levels of protection for the environment, and human and animal health; and

(c) provide for cooperation between Iceland, Norway and United Kingdom responsible authorities.

2. The Parties acknowledge that the commitments made under this Annex do not prevent either Party from setting its own priorities on chemicals regulation,

including establishing its own levels of protection in respect of the environment, and human and animal health.

ARTICLE 4

Relevant International Organisations and Bodies

The Parties recognise that international organisations and bodies, in particular the OECD and the Sub-Committee of Experts on the Globally Harmonized System of Classification and Labelling of Chemicals (SCEGHS) of the United Nations Economic and Social Council (ECOSOC), are relevant for developing scientific and technical guidelines with respect to chemicals.

ARTICLE 5

Participation in Relevant International Organisations and Bodies, and Regulatory Developments

1. The Parties shall actively contribute to the development of the scientific or technical guidelines referred to in Article 4 with respect to the assessment of hazards and risks of chemicals and the formats for documenting the results of such assessments.

2. Each Party shall implement any guidelines issued by the international organisations and bodies referred to in Article 4, unless those guidelines would be ineffective or inappropriate for the achievement of that Party's legitimate objectives.

ARTICLE 6

Classification and Labelling of Chemicals

1. Each Party shall implement the UN GHS as comprehensively as it considers feasible within its respective system, including for chemicals that are not within the scope of this Annex, except where there are specific reasons to apply a different labelling system for particular chemical products in their finished state intended for the final user. Each Party shall periodically update its implementation based on the regularly issued revisions of the UN GHS.

2. Where the responsible authority of a Party intends to classify individual substances in accordance with its respective rules and procedures, it shall give the responsible authority of the other Party the possibility of expressing its views in accordance with those respective rules and procedures within the applicable timelines.

3. Each Party shall make information about its procedures related to the classification of substances publicly available in accordance with its respective rules and procedures. Each Party shall endeavour to respond to comments received from the other Party pursuant to paragraph 2.

4. Nothing in this Article shall oblige either Party to achieve any particular outcome regarding the implementation of the UN GHS in its territory or regarding the classification of a given substance, or to advance, suspend or delay its respective procedures and decision-making processes.

ARTICLE 7

Cooperation

1. The Parties recognise that voluntary cooperation on chemicals regulation can facilitate trade in ways that benefit consumers, businesses and the environment and that contribute to enhancing the protection of human and animal health.

2. The Parties commit to facilitating the exchange of non-confidential information between their responsible authorities, including through cooperation on electronic formats and tools used to store data.

3. The Parties shall cooperate where appropriate with a view to strengthening, developing and promoting the adoption and implementation of internationally agreed scientific or technical guidelines, including, where feasible, through the presentation of joint initiatives, proposals and approaches in the relevant international organisations and bodies, in particular those referred to in Article 4.

4. The Parties shall cooperate, if considered beneficial by both Parties, with regard to the dissemination of data related to chemicals safety, and shall make such information available to the public with the objective of ensuring easy access to and the comprehensibility of that information by different target groups. Upon request of either Party, the other Party shall provide available non- confidential information on chemicals safety to the requesting Party.

5. If a Party so requests and the other Party agrees to do so, the Parties shall enter into consultations on scientific information and data in the context of new and emerging issues related to the hazards or risks posed by chemicals to human health or the environment, with a view to creating a common pool of knowledge and, if feasible, and to the extent possible, promoting a common understanding of the science related to such issues.

ARTICLE 8

Information Exchange

The Parties shall cooperate and exchange information with respect to any issue relevant for the implementation of this Annex within the Technical Barriers to Trade Committee.

This document has been agreed between the United Kingdom and Iceland, Liechtenstein and Norway and is provided for information only. No rights may be derived from it until the date of application.

The text is subject to legal review, including, where necessary, the harmonisation of terminology, the use of definitions and the numbering.

ANNEX TBT-IV

ORGANIC PRODUCTS

ARTICLE 1

Objective and Scope

1. The objective of this Annex is to set out the provisions and procedures for fostering trade in organic products in accordance with the principles of non-discrimination and reciprocity, by means of the recognition of equivalence by the Parties of their respective laws.

2. This Annex applies to the organic products listed in Appendices 1 and 2 which comply with the laws and regulations listed in Appendix 3 or 4[1]. The Joint Committee shall have the power to amend Appendices 1, 2, 3 and 4.

ARTICLE 2

Definitions

For the purposes of this Annex:

(a) "competent authority" means an official agency that has jurisdiction over the laws and regulations listed in Appendix 3 or 4 and is responsible for the implementation of this Annex;

(b) "control authority" means an authority on which the competent authority has conferred, in whole or in part, its competence for inspections and certifications in the field of organic production in accordance with the laws and regulations listed in Appendix 3 or 4;

(c) "control body" means an entity recognised by the competent authority to carry out inspections and certifications in the field of organic production in accordance with the laws and regulations listed in Appendix 3 or 4; and

(d) "equivalence" means the capability of different laws, regulations and requirements, as well as inspection and certification systems, of meeting the same objectives.

---

[1] The provisions contained in this Annex shall apply to Iceland, except for the provisions concerning live animals, other than fish and aquaculture animals, and animal products such as ova, embryo and semen.

ARTICLE 3

Recognition of Equivalence

1. With respect to products listed in Appendix 1, Iceland and Norway shall recognise the laws and regulations of the United Kingdom listed in Appendix 3 as equivalent to the laws and regulations of Iceland and Norway listed in Appendix 4.

2. With respect to products listed in Appendix 2, the United Kingdom shall recognise the laws and regulations of Iceland and Norway listed in Appendix 4 as equivalent to the United Kingdom's laws and regulations listed in Appendix 3.

3. In view of the date of application of 1 January 2022 of Regulation (EU) 2018/848 of the European Parliament and of the Council of 30 May 2018 on organic production and labelling of organic products and repealing Council Regulation (EC) No 834/2007, the recognition of equivalence referred to in paragraphs 1 and 2 shall be reassessed by each Party after both:

   (a) a decision on reassessment is taken under Article 3 (Recognition of equivalence) of Annex TBT-4 (Organic Products) of the UK-EU TCA, and

   (b) a decision is taken on the application of the Council Regulation to EEA EFTA under the EEA Agreement.

4. If, as a result of the reassessment under this paragraph equivalence is not confirmed by a Party, recognition of equivalence shall be suspended.

5. Without prejudice to paragraph 3, in the event of the modification, revocation or replacement of the laws and regulations listed in Appendix 3 or 4, the new rules shall be considered equivalent to the other Party's rules unless a Party objects in accordance with the procedure set out in paragraphs 5 and 6.

6. If, following the receipt of further information from the other Party that it has requested, a Party considers that the laws, regulations or administrative procedures or practices of the other Party no longer meet the requirements for equivalence, that Party shall issue a reasoned request to the other Party to amend the relevant laws, regulations or administrative procedures or practices, and shall provide the other Party with an adequate period, which shall not be less than three months, for ensuring equivalence.

7. If, following the expiry of the period in paragraph 5, the Party concerned still considers that the requirements for equivalence are not met, it may take a decision to unilaterally suspend the recognition of equivalence of the relevant laws and regulations listed in Appendix 3 or 4, as regards the relevant organic products listed in Appendix 1 or 2.

8. A decision to unilaterally suspend the recognition of equivalence of the laws and regulations listed in Appendix 3 or 4, as regards the relevant organic products listed in Appendix 1 or 2 may also be taken, following the expiry of a notice period of three

months, where a Party has not provided the information required under Article 6 or does not agree to a peer review under Article 7.

9. Where recognition of equivalence is suspended in accordance with this Article, at the request of a Party, the Parties shall discuss the matter within the Technical Barriers to Trade Committee and they shall make every effort to consider possible measures that would enable recognition of equivalence to be restored.

9. With respect to products not listed in Appendix 1 or 2, equivalence shall be discussed by the Technical Barriers to Trade Committee at the request of a Party.

ARTICLE 4

Import and Placing on the Market

1. Iceland and Norway shall accept the import into their territories of the products listed in Appendix 1, and the placing of those products on the market as organic products, provided that those products comply with the laws and regulations of the United Kingdom listed in Appendix 3 and are accompanied by a certificate of inspection issued by a control body recognised by the United Kingdom and indicated to Iceland and Norway as referred to in paragraph 3.

2. The United Kingdom shall accept the import into its territory of the products listed in Appendix 2, and the placing of those products on the market as organic products, provided that those products comply with the laws and regulations of Iceland and Norway listed in Appendix 4 and are accompanied by a certificate of inspection issued by a control body recognised by Iceland and Norway and indicated to the United Kingdom as referred to in paragraph 3.

3. Each Party recognises the control authorities or control bodies indicated by the other Party as responsible for performing the relevant controls as regards organic products covered by the recognition of equivalence as referred to in Article 3 (Recognition of Equivalence) and for issuing the certificate of inspection as referred to in paragraphs 1 and 2 of this Article with a view to their import into and placing on the market in the territory of the other Party.

4. The importing Party, in cooperation with the other Party, shall assign code numbers to each relevant control authority and control body indicated by the other Party.

ARTICLE 5

Labelling

1. Products imported into the territory of a Party in accordance with this Annex shall meet the requirements for labelling set out in the laws and regulations of the importing Party listed in Appendices 3 and 4. Those products may bear the organic logos of Iceland or Norway, any United Kingdom organic logo or a combination of

these logos, as set out in the relevant laws and regulations, provided that those products comply with the labelling requirements for the respective logo or logos.

2. The Parties undertake to avoid any misuse of the terms referring to organic production in relation to organic products that are covered by the recognition of equivalence under this Annex.

3. The Parties undertake to protect, against any misuse or imitation, the organic logos of Iceland and Norway and any United Kingdom organic logo set out in the relevant laws and regulations. The Parties shall ensure that the organic logos of Iceland and Norway and any United Kingdom organic logo are used only for the labelling, advertising or commercial documents of organic products that comply with the laws and regulations listed in Appendices 3 and 4.

ARTICLE 6

Exchange of Information

1. The Parties shall exchange all relevant information with respect to the implementation and application of this Annex. In particular, by 31 March of the second year following the entry into force of this Agreement, and by 31 March of each following year, each Party shall send to the other:

   (a) a report that contains information with respect to the types and quantities of organic products exported under this Annex, covering the period from January to December of the previous year;

   (b) a report on the monitoring and supervisory activities carried out by its competent authorities, the results obtained, and the corrective measures taken, covering the period from January to December of the previous year; and

   (c) details of observed irregularities and infringements of the laws and regulations listed in Appendix 3 or 4, as relevant.

2. Each Party shall inform the other Party without delay of:

   (a) any update to the list of its competent authorities, control authorities and control bodies, including the relevant contact details (in particular the address and the internet address);

   (b) any changes or repeals it intends to make in respect of laws or regulations listed in Appendix 3 or Appendix 4, any proposals for new laws or regulations or any relevant proposed changes to administrative procedures and practices related to organic products covered by this Annex; and

   (c) any changes or repeals it has adopted in respect of laws or regulations listed in Appendix 3 or Appendix 4, any new legislation or relevant changes to

administrative procedures and practices related to organic products covered by this Annex.

ARTICLE 7

Peer Reviews

1. Following advance notice of at least six months, each Party shall permit officials or experts designated by the other Party to conduct peer reviews in its territory to verify that the relevant control authorities and control bodies are carrying out the controls required to implement this Annex.

2. Each Party shall cooperate with and assist the other Party, to the extent permitted under the applicable law, in carrying out the peer reviews referred to in paragraph 1, which may include visits to offices of relevant control authorities and control bodies, processing facilities and certified operators.

APPENDIX 1

ORGANIC PRODUCTS FROM THE UNITED KINGDOM FOR WHICH ICELAND AND NORWAY RECOGNISE EQUIVALENCE

Description	**Comments**
Unprocessed plant products	
Live animals or unprocessed animal products[2]	Includes Honey
Aquaculture products and seaweeds	
Processed agricultural products for use as food	
Processed agricultural products for use as feed	
Seeds and propagating material	

The organic products listed in this Appendix shall be unprocessed agricultural or aquaculture products produced in the United Kingdom or processed agricultural products for use as food or feed that have been processed in the United Kingdom with ingredients that have been grown in the United Kingdom or that have been imported into the United Kingdom in accordance with United Kingdom laws and regulations.

[2] See footnote in Article 1.2.

APPENDIX 2

ORGANIC PRODUCTS FROM ICELAND AND NORWAY FOR WHICH THE UNITED KINGDOM RECOGNISES EQUIVALENCE

ANNEX-TBT-V

TRADE IN WINE

ARTICLE 1

Scope and Definitions

1. This Annex applies to wine falling under Heading 22.04 of the Harmonised System.

2. For the purposes of this Annex, "wine produced in" means fresh grapes, grape must and grape must in fermentation that have been turned into wine or added to wine in the territory of the exporting Party.

ARTICLE 2

Product Definitions, Oenological Practices and Processes

1. Oenological practices for wine recommended and published by the International Organisation of the Vine and Wine (OIV) shall be considered relevant international standards for the purposes of this Annex.

2. Each Party shall authorise the importation and sale for consumption of wine produced in the other Party, if that wine has been produced in accordance with:

   (a) product definitions authorised in each Party under the laws and regulations referred to in Appendix 1;

   (b) the oenological practices established in each Party under the laws and regulations referred to in Appendix 1 that are in accordance with the relevant OIV standards; and

   (c) oenological practices and restrictions established in each Party that are not in accordance with the relevant OIV standards, listed in Appendix 2.

3. The Joint Committee shall have the power to amend the Appendices referred to in paragraph 2.

ARTICLE 3

Certification Requirements on Import in the Respective Territories of the Parties

1. For wine produced in a Party and placed on the market in the other Party, the documentation and certification that may be required by either Party shall be limited to a certificate, as set out in Appendix 3, authenticated in conformity with the exporting Party's laws and regulations.

2. A certificate required under paragraph 1 may take the form of an electronic document. Access to the electronic document or to the data necessary for its establishment shall be given by each Party on request of the competent authorities of the other Party where the goods are to be released into free circulation. If access to the relevant electronic systems is not available, the necessary data may also be requested in the form of a paper document.

3. The Joint Committee shall have the power to amend Appendix 3.

4. The methods of analysis recognised as reference methods by the OIV and published by the OIV shall be the reference methods for the determination of the analytical composition of the wine in the context of control operations.

ARTICLE 4

Food Information and Lot Codes

1. Unless otherwise specified in this Article, the labelling of wine imported and marketed under this Agreement must be in compliance with the laws and regulations that apply in the territory of the importing Party.

2. A Party shall not require any of the following dates or their equivalent to appear on the container, label, or packaging of wine:

   (a) the date of packaging;

   (b) the date of bottling;

   (c) the date of production or manufacture;

   (d) the date of expiration, use by date, use or consume by date, expire by date;

   (e) the date of minimum durability, best-by-date, best quality before date; or

   (f) the sell-by-date.

   By way of derogation from point (e) of the first subparagraph, a Party may require the display of a date of minimum durability on products that, due to

the addition of perishable ingredients, could have a shorter date of minimum durability than would normally be expected by the consumer.

3. Each Party shall ensure that a code is indicated on the label of packaged products that allows for the identification of the lot to which the product belongs, in accordance with the legislation of the Party exporting the packaged product. The lot code shall be easily visible, clearly legible and indelible. A Party shall not allow the marketing of packaged products which do not comply with the requirements set out in this paragraph.

4. Each Party shall permit mandatory information, including translations or an indication of the number of standard drinks or alcohol units whenever required, to be displayed on a supplementary label affixed to a wine container. Supplementary labels may be affixed to a wine container after importation but prior to the product being placed on the market in the Party's territory, provided that the mandatory information is fully and accurately displayed.

5. The importing Party shall not require the label to display allergens which have been used in the production of wine but are not present in the final product.

ARTICLE 5

Transitional Measures

Wine which, at the date of entry into force of this Agreement, has been produced, described and labelled in accordance with the laws and regulations of a Party but in a manner that does not comply with this Annex, may continue to be labelled and placed on the market as follows:

(a) by wholesalers or producers, for a period of two years from the entry into force of this Agreement; and

(b) by retailers, until stocks are exhausted.

ARTICLE 6

Information Exchange

The Parties shall cooperate and exchange information on any issue relevant for the implementation of this Annex within the Technical Barriers to Trade Committee.

ARTICLE 7

Review

No later than three years from the entry into force of this Agreement, the Parties shall consider further steps to facilitate trade in wine between the Parties.
