Takk for info. Ja, møt i midtkvartalet.

Sees snart!

Christine

Hei,

Fra NFD kommer:

Guri Mæle Breigutu - Fiskeriavdelingen
Bendik Skoglund - Fiskeriavdelingen
Anne Katrine Flornes – Avdeling for maritim politikk og kystutvikling
Astrid Holtan – Handelspolitisk avdeling
Ane Storvestre Bjørkum – Handelspolitisk avdeling
Lotte Leming Rognsås – Handelspolitisk avdeling

Jeg regner med at vi møter opp i midtkvartalet?

Hilsen Guri

FISKERIDIREKTORATET

KYSTVERKET

RAPPORT FRA FISKERIDIREKTORATET OG KYSTVERKETS FELLES ANALYSEENHET

*Denne rapporten er utarbeidet av analyseenheten på vegne av oppdragsgiver.
Offentliggjøring, innsynsbegjæringer og videre bruk av rapporten avgjøres av oppdragsgiver.*

Vår referanse: 2022 03 01

Dato: 09.03.2022

Oppdragsgiver:

Kystverket
ved Henning Osnes Teigene
Bestillingen ble mottatt 03.03.2022

Bestilling:

En oversikt over alle russiske fartøy som befinner seg i norsk indre farvann. Bestillingen omfatter også alle russiske fartøy i norsk økonomisk sone samt alle tankfartøy som ankommer norsk økonomisk sone fra russisk økonomisk sone.

Oppdragstaker(e): 2008
Telefon: +47 789 89 898

Begrep og forkortelser

- **AIS** – *Automatisk Identifikasjonssystem* – Anti kollisjonssystem for skipsfarten. Fartøy som har utstyr for AIS om bord sender ut og utveksler informasjon om sin identitet, posisjon, fart og kurs over VHF.
- **Flaggstat** – Etter folkeretten den staten hvor fartøyet er registrert eller fører flagg til. Angir nasjonaliteten til fartøyet.
- **Geometri** – Geografisk område som omfattes av bestillingen.
- **Indre farvann** – omfatter den indre del av territorialfarvannet. Det omfatter hav-områdene innenfor grunnlinjene, som fjorder, bukter, sund og havner.
- **NM** – *Nautisk Mil* – Måleenhet for distanse som brukes til sjøs. En nautisk mil er 1852 meter.
- **NØS** – *Norsk Økonomisk Sone* – Området ut til 200 nautiske mil fra grunnlinjen utenfor det norske fastland. Innenfor den økonomiske sonen har Norge eksklusiv rett til utvinning av naturressurser som fisk og petroleum.
- **Sjøterritoriet** – Sjøterritoriet omfatter den delen av territorialfarvannet som befinner seg utenfor det indre farvann. Skillet mellom sjøterritoriet og indre farvann går ved grunnlinjene.
- **Territorialfarvann** – består av sjøterritoriet og det indre farvann, totalt 12 nautiske mil fra grunnlinjen.
- **Økonomisk sone** - Området ut til 200 nautiske mil utenfor et lands sjøterritorium målt fra grunnlinjen. Innenfor den økonomiske sonen har kyststaten eksklusiv rett til utvinning av naturressurser som fisk og petroleum.

Sammendrag

Denne rapporten viser en oversikt over alle fartøy med russisk og hviterussisk flagg som er i norsk indre farvann hvor det er registrert de som er til havn, i opplag og på verft. Rapporten inneholder også en oversikt over alle russiske fartøy som befinner seg innenfor NØS men utenfor grensen 1 nautisk mil (indre farvann). Videre registreres også en oversikt over alle tankfartøy over 100 meter som seiler fra russisk økonomisk sone til NØS.

Det er per. 09.03.2022 registrert 34 russiske fartøy i indre farvann, 65 russiske fartøy i NØS utenfor 1 nautisk mil og 12 tankfartøy som har seilt fra russisk økonomisk sone til NØS. Totalt i hele NØS (inkludert indre farvann) er det registrert 99 fartøy med russisk flagg. Det registreres ingen med hviterussisk flagg.

1. Bakgrunn for bestillingen

På grunn av situasjonen i Ukraina ønsker Kystverket en oversikt over antall russiske fartøy som befinner seg i norsk indre farvann. Det er opprettet overvåkinger på russiske og hviterussiske fartøy som ankommer 1 nautisk mil, det er ikke registrert fartøy med hviterussisk flagg per 09.03.2022.

2. Kilder og metode

Tilgangen til AIS- informasjon vil variere ut fra hvorvidt fartøyet sender ut posisjoner, utstyret på fartøyet (antennor, sender etc.), evne til utsendelse, samt plassering av sensorer som fanger opp posisjoner. Tilgangen til AIS-posisjoner vil følgelig kunne variere fra fartøy til fartøy uten at noen aktivt forsøker å manipulere med AIS-dataene.

2.1 Kilder

Kystverkets AIS-data.

2.2 Metode

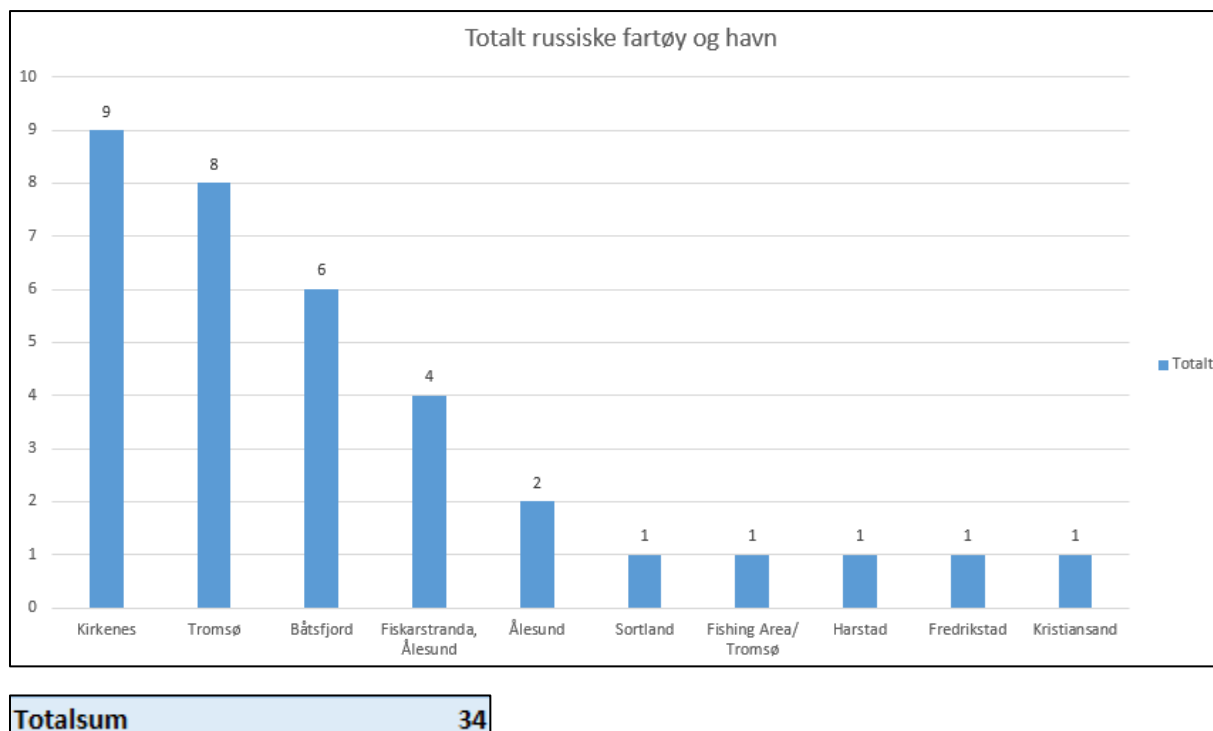

I denne analysen er det blitt utført et søk på fartøy med russisk flagg som befinner seg innenfor 1 nautisk mil (indre farvann), for å finne ut av hvilke fartøy som er til havn eller i opplag/ verft så er det utført sporing av posisjon for hvert fartøy. Videre har vi søkt etter alle russiske fartøy innenfor NØS men utenfor 1 nautisk mil (indre farvann). For å få riktig resultat i analysene så har vi opprettet to geometrier, en for indre farvann og en for NØS.

For å kartlegge alle tankfartøy så har vi gjort et søk på fartøy som seiler fra geometri russisk økonomisk sone til geometri norsk økonomisk sone. Ut ifra dette vil vi få en oversikt over alle tankfartøy over 100 meter som kommer fra russisk økonomisk sone til norsk økonomisk sone.

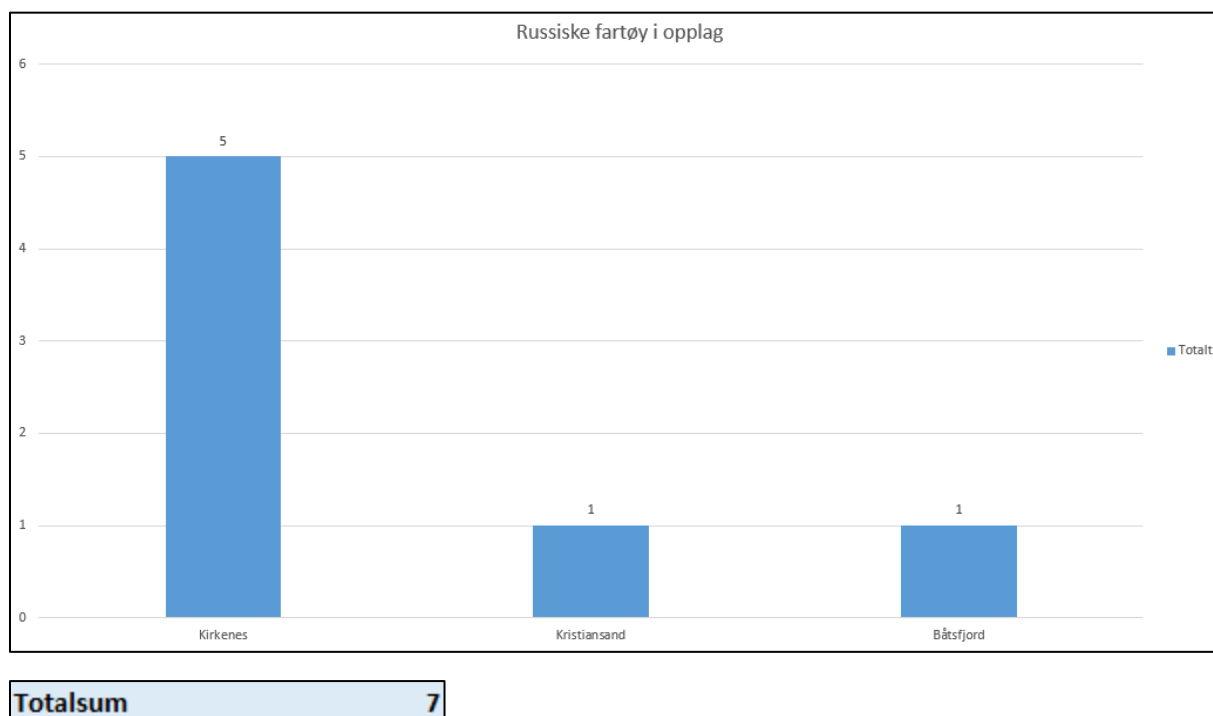

Det er opprettet en rekke overvåkinger og lister for å holde oversikten oppdatert hver dag.

3. Russiske fartøy i norsk indre farvann

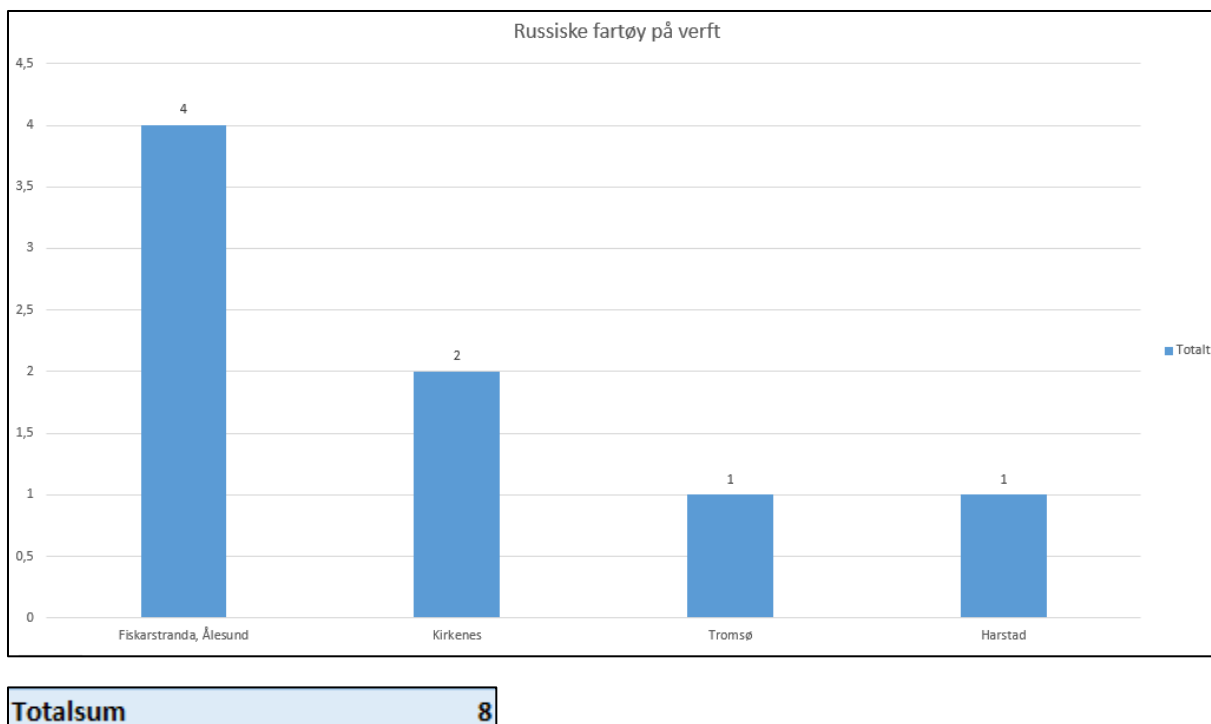

Figur 1 Russiske fartøy til havn i Norge 09.03.2022

Figur 2 Russiske fartøy i opplag i Norge 09.03.2022

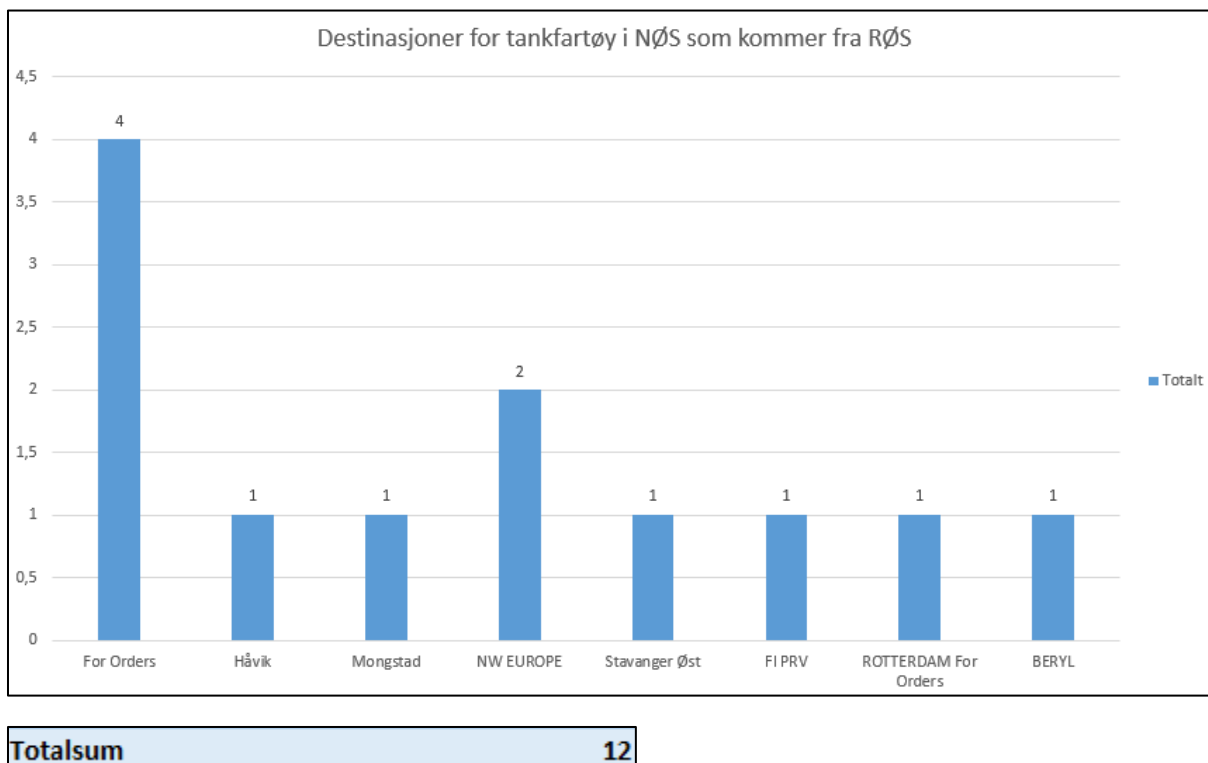

Figur 3 Russiske fartøy på verft i Norge 09.03.2022

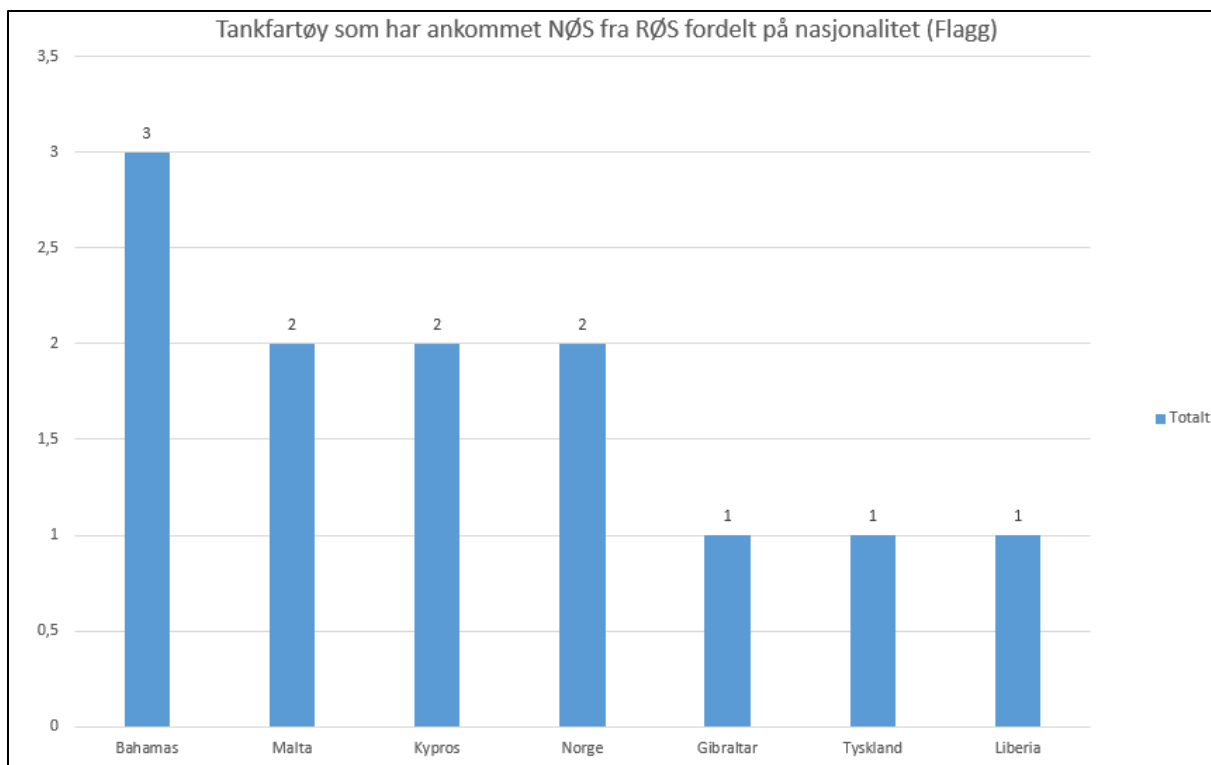

4. Tankfartøy over 100 meter som kommer fra RØS til NØS

Denne gjelder en oversikt over alle tankfartøy over 100 meter som seiler fra russisk økonomisk sone og som ankommer norsk økonomisk sone.

Figur 4 Antall tankfartøy med destinasjoner 09.03.2022

Figur 5 Tankfartøy basert på nasjonalitet 09.03.2022

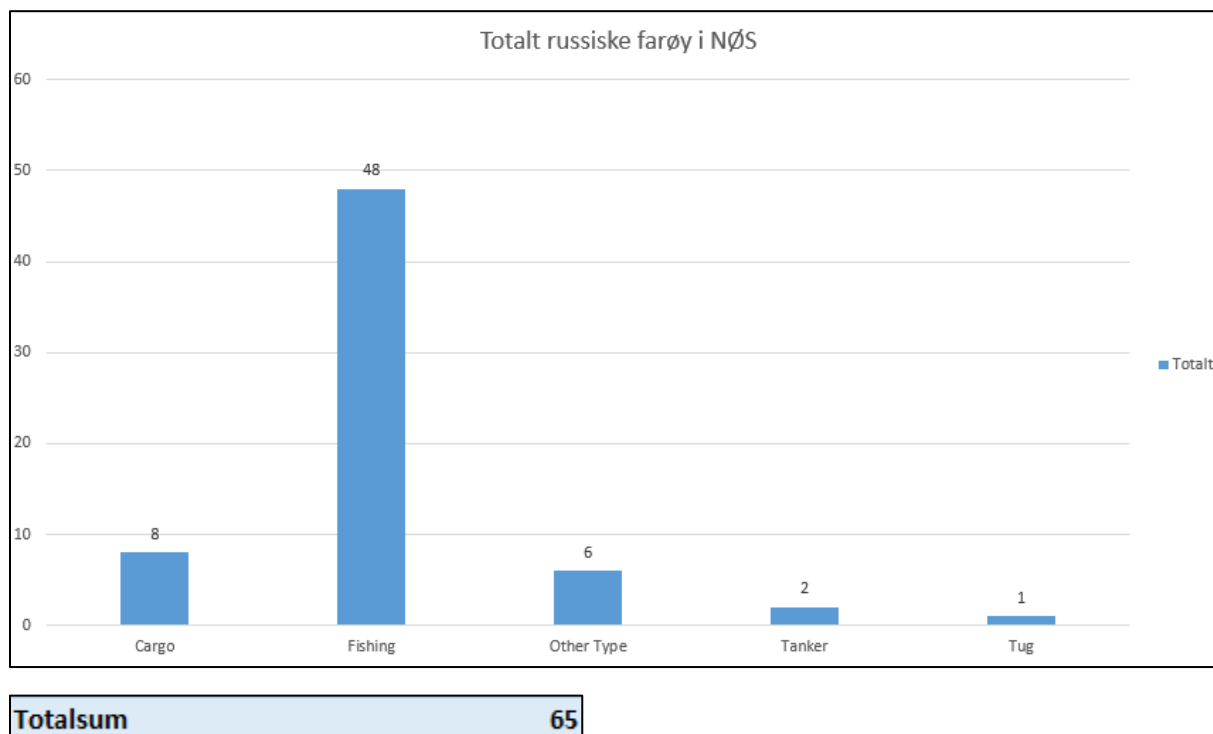

Totalsum	12
-----------------	-----------

5. Russiske fartøy i NØS utenfor 1 nautisk mil (ikke til havn)

Denne analysen tar for seg alle fartøy som befinner seg i norsk økonomisk sone med russisk flagg, den omfatter også tankfartøy med russisk flagg. Dette gjelder fartøy **utenfor 1 nautisk mil**, det vil si at fartøy som omfattes i "russiske fartøy i norsk indre farvann" ikke blir registrert her.

Figur 6 Totalt russiske fartøy i NØS, utenfor 1 nautisk mil 09.03.2022

6. Totalt

Totalt russiske fartøy innenfor 1 nautisk mil (indre farvann).

Totalsum	34
-----------------	-----------

Alle tankfartøy fra RØS til NØS.

Totalsum	12
-----------------	-----------

Totalt russiske fartøy i NØS utenfor 1 nautisk mil.

Totalsum	65
-----------------	-----------

Totalt er det registrert 99 fartøy med russisk flagg i NØS per 09.03.2022.

Vedlegg

FISKERIDIREKTORATET

KYSTVERKET

RAPPORT FRA FISKERIDIREKTORATET OG KYSTVERKETS FELLES ANALYSEENHET

*Denne rapporten er utarbeidet av analyseenheten på vegne av oppdragsgiver.
Offentliggjøring, innsynsbegjæringer og videre bruk av rapporten avgjøres av oppdragsgiver.*

Vår referanse: 2022 04 04

Dato: 21.04.2022

Oppdragsgiver:

Nærings- og Fiskeridepartementet
ved Bendik Skoglund
Bestillingen ble mottatt 20.04.2022

Bestilling:

I denne bestillingen ønsker Nærings- og Fiskeridepartementet en oversikt over aktiviteten til russiske fiskefartøy, hvilke havner de går til og antall fartøy. Vi har avtalt å levere en oversikt fra 2016 til og med 1. kvartal 2022. For mulige omlastninger leveres oversikt fra 2018 til og med 1. kvartal 2022.

Oppdragstaker(e): 2008 og 2009
Telefon: +47 789 89 898

Begrep og forkortelser

- **AIS** – *Automatisk Identifikasjonssystem* – Anti kollisjonssystem for skipsfarten. Fartøy som har utstyr for AIS om bord sender ut og utveksler informasjon om sin identitet, posisjon, fart og kurs over VHF.
- **Geometri** – Geografisk område som omfattes av bestillingen.
- **NØS** – *Norsk Økonomisk Sone* – Området ut til 200 nautiske mil fra grunnlinjen utenfor det norske fastland. Innenfor den økonomiske sonen har Norge eksklusiv rett til utvinning av naturressurser som fisk og petroleum.

Sammendrag

Som diagrammene i denne rapporten viser har Kirkenes flest anløp av russiske fiskefartøy, etterfulgt av Tromsø og Båtsfjord. Tromsø har flest anløp i første kvartal, noe som skyldes vinterfisket etter torsk. Kirkenes har større andel anløp de siste to kvartalene, da avstanden fisket foregår lengre nord og øst. Båtsfjord har flest landinger de to første kvartalene.

Fartøykontakter (mulige omlastninger) i Fiskevernsonen ved Svalbard og NØS (nord av Lofoten) fra vises i egne diagrammer. Fartøykontakter (mulige omlastninger) i Russisk økonomisk sone er ikke del av denne rapporten.

Vi registrerte i 2021 en økt omlastningsaktivitet av torsk og hyse rundt Kolguev i RØS. Dette antar vi kan skyldes at en større andel av den russiske kvoten for torsk og hyse ble fangstet i RØS i 2021. Vi legger ved tallene for 2020 og 2021 sist i dette dokumentet.

1. Bakgrunn for bestillingen

1.1 Objektene for fartøyanløp til Norge

Objektene for denne analysen er russiske fiskefartøy.

1.2 Området for fartøykontakter

Området vi har gjennomført jobben i er Fiskevernsonen ved Svalbard og del av Norsk økonomisk sone (til sør av Lofoten). Omlastninger foregår i all hovedsak rundt Bjørnøya og i Bellsundet på Svalbard. Vi registrerer årlig noen få omlastninger nord i NØS.

2. Kilder og metode

2.1 Kilder

Kystverkets data fra SafeSeaNet (kystdatahuset) og Kystverkets AIS- data.

2.2 Metode

For ordens skyld gjøres oppmerksom på at denne rapporten inneholder anløp til havn, noe som betyr at enkelte anløp kan ha annet formål enn landing av fisk. Vi har i denne rapporten også valgt å vise diagrammer for de havnene som har flest anløp, og hvor det landes mest russisk fanget fisk.

Fartøykontakter (mulige omlastninger) fra 1. januar 2018 til og med 1. kvartal 2022. For å fremskaffe disse dataene har vi kjørt en jobb for å fremskaffe alle kontakter mellom russiske fiskefartøy og alle kjente transport- og støttfartøy i tidsrommet fra 1. januar 2018 til og med 31. mars 2022.

Fartøykontakten må ha vært lengre enn 4 timer og avstanden mellom de registrerte AIS posisjonene mindre enn 100 meter.

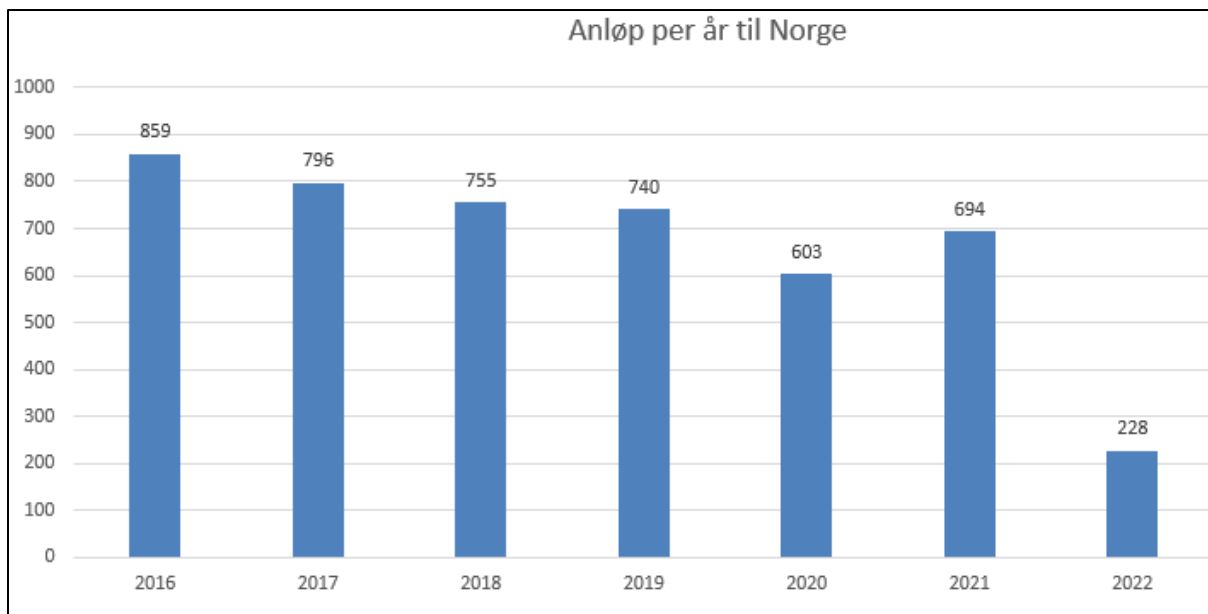

Da vi ikke med sikkerhet kan fastslå at det har foregått en omlastning velger vi å kalle dette for «fartøykontakt».

3. Resultat

Nedenstående diagrammer viser antall anløp av russiske fiskefartøy til norske havner i tidsrommet fra 1. januar 2016 til og med 1. kvartal 2022, samt fartøykontakter mellom russiske transport- og støttefartøy i tidsrommet 1. januar 2018 til og med 1. kvartal 2022.

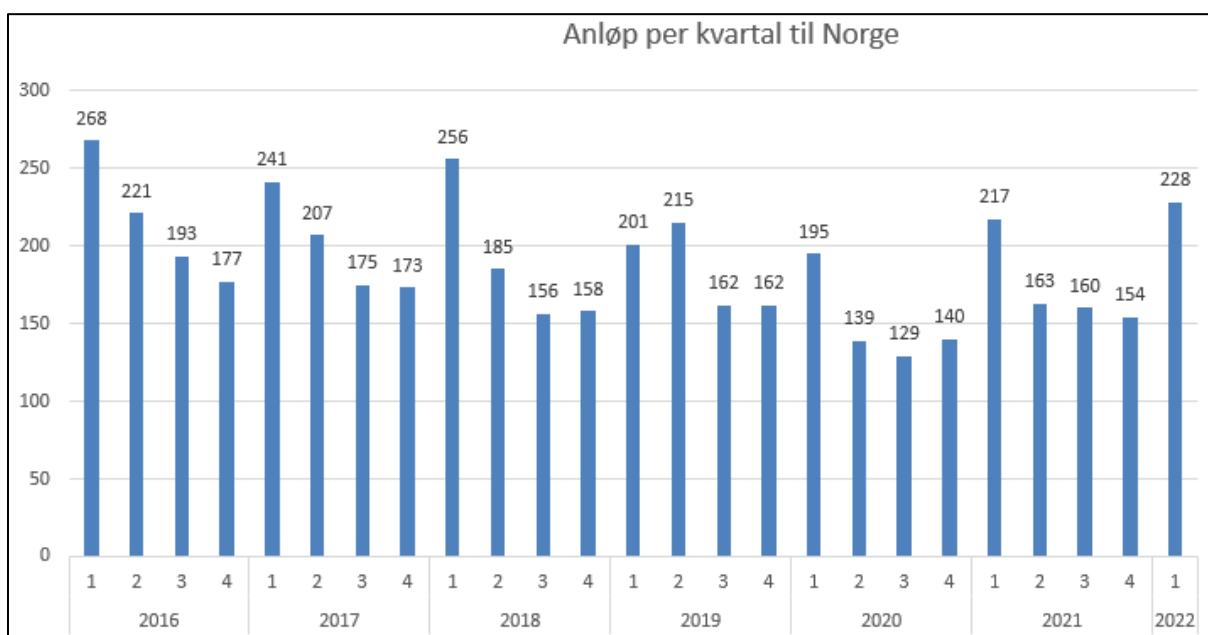

3.1 Anløp av russiske fiskefartøy

Figur 1 Anløp per år til Norge

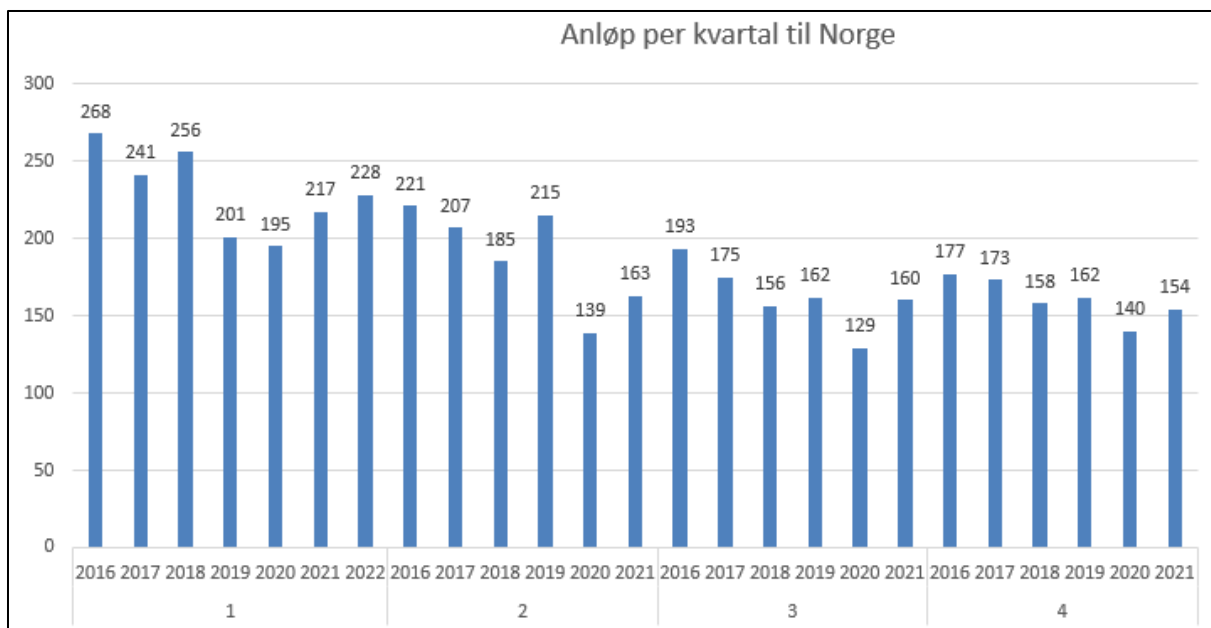

Totalt 4 675 anløp til Norge fordelt på år, uavhengig av havn.

Figur 2 Anløp per kvartal og år til Norge

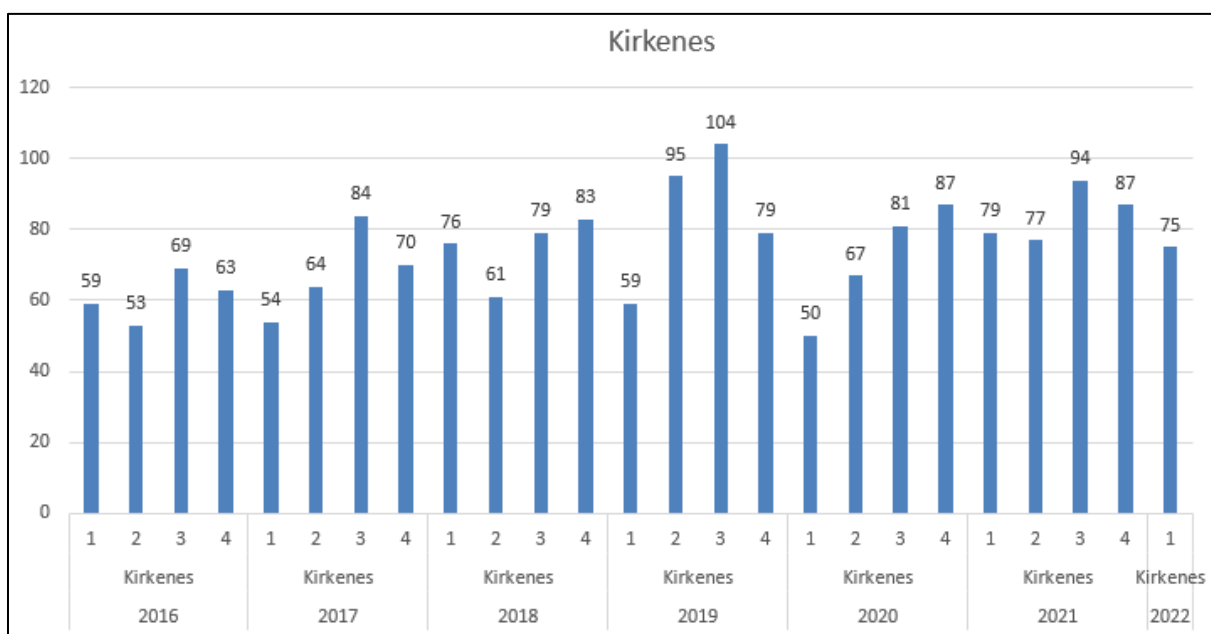

Anløp til Norge fordelt på kvartal og år, uavhengig av havn, fra 2016 til og med 1 kvartal 2022.

Figur 3 Anløp per år og kvartal til Norge

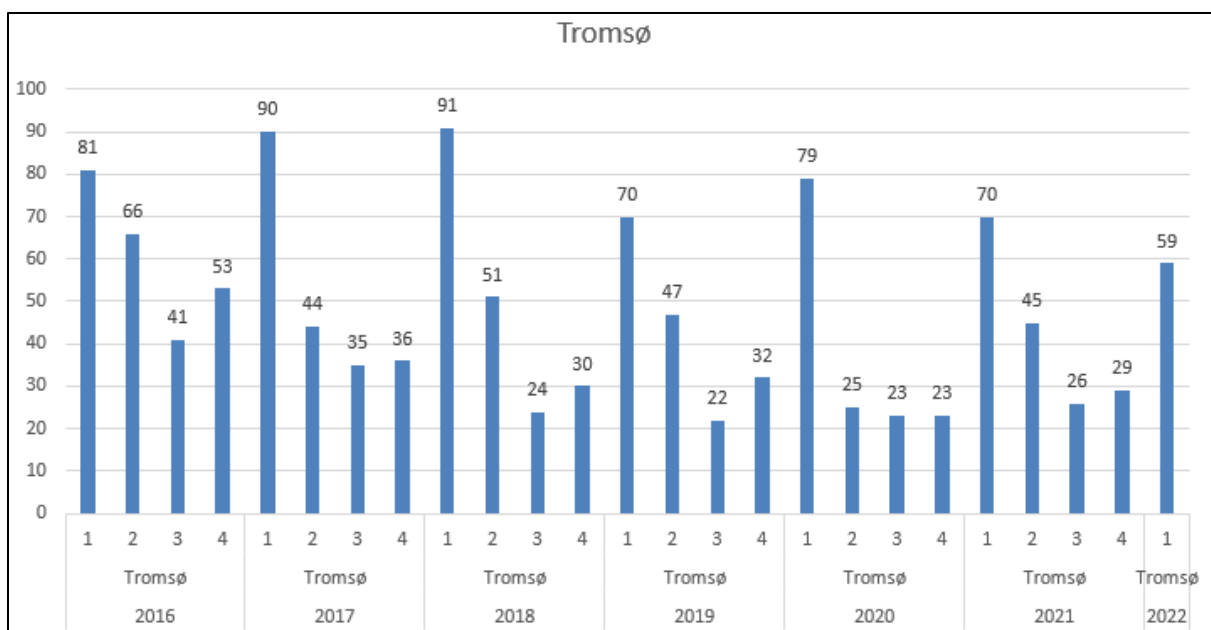

Anløp til Norge fordelt på år og kvartal, uavhengig av havn, fra 2016 til og med 1 kvartal 2022.

Figur 4 Anløp Kirkenes

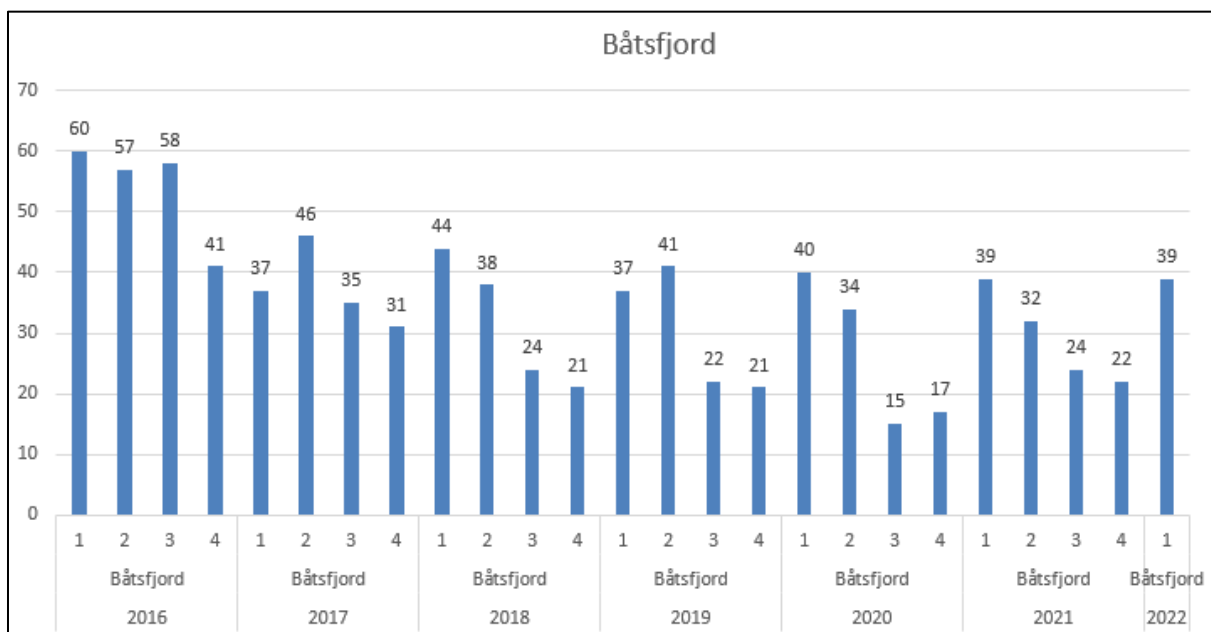

Totalt 1 849 anløp til Kirkenes fra 2016 til og med 1 kvartal 2022

Figur 5 Anløp Tromsø

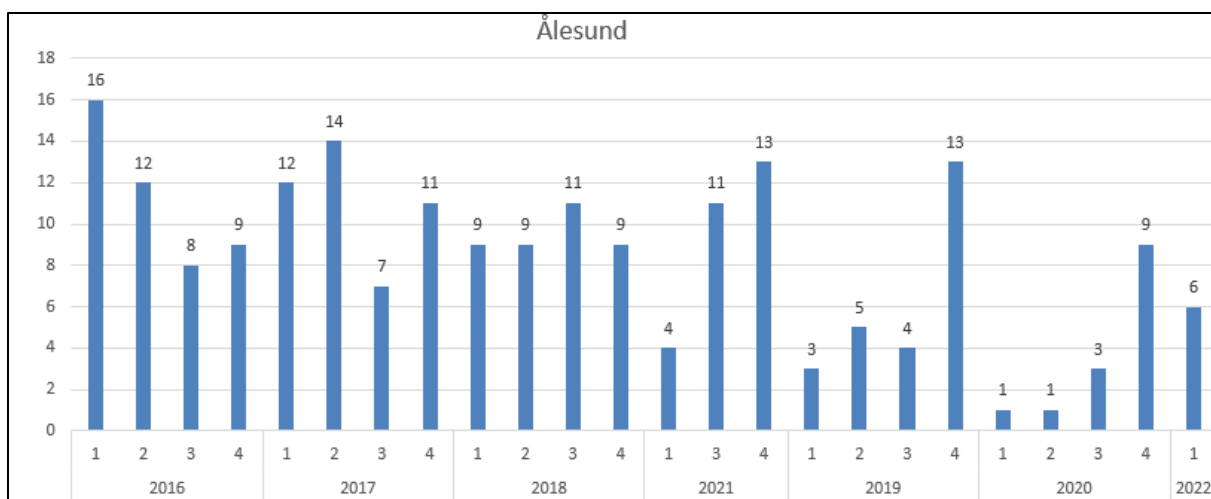

Totalt 1 192 anløp til Tromsø fra 2016 til og med 1 kvartal 2022

Figur 6 Anløp Båtsfjord

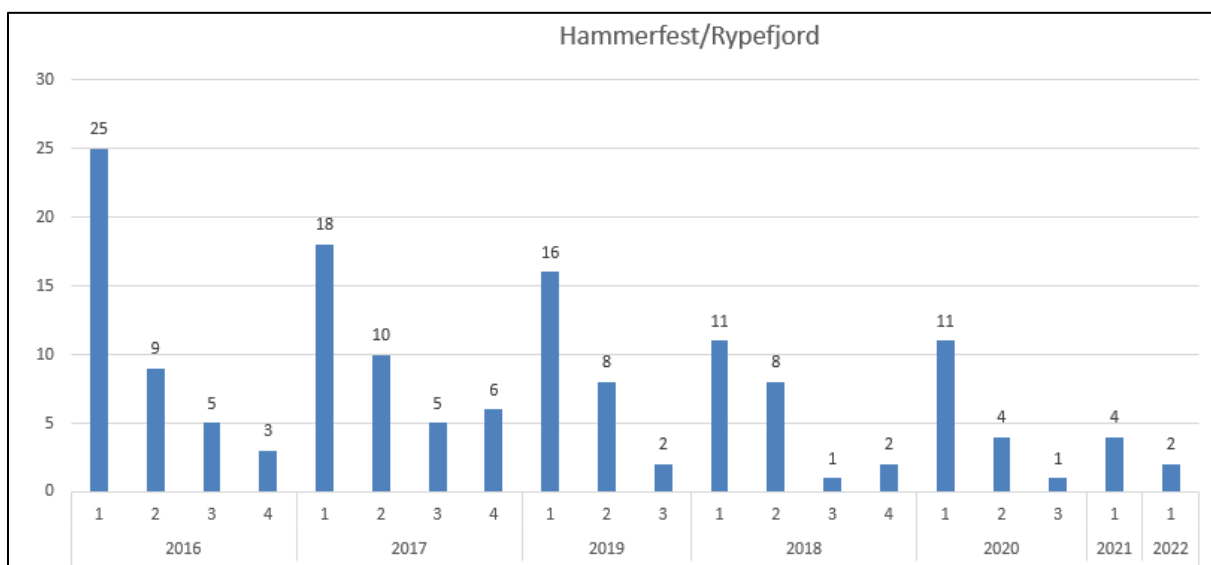

Totalt 875 anløp til Båtsfjord fra 2016 til og med 1 kvartal 2022.

Figur 7 Anløp Ålesund

Totalt 200 anløp til Ålesund fra 2016 til og med 1 kvartal 2022.

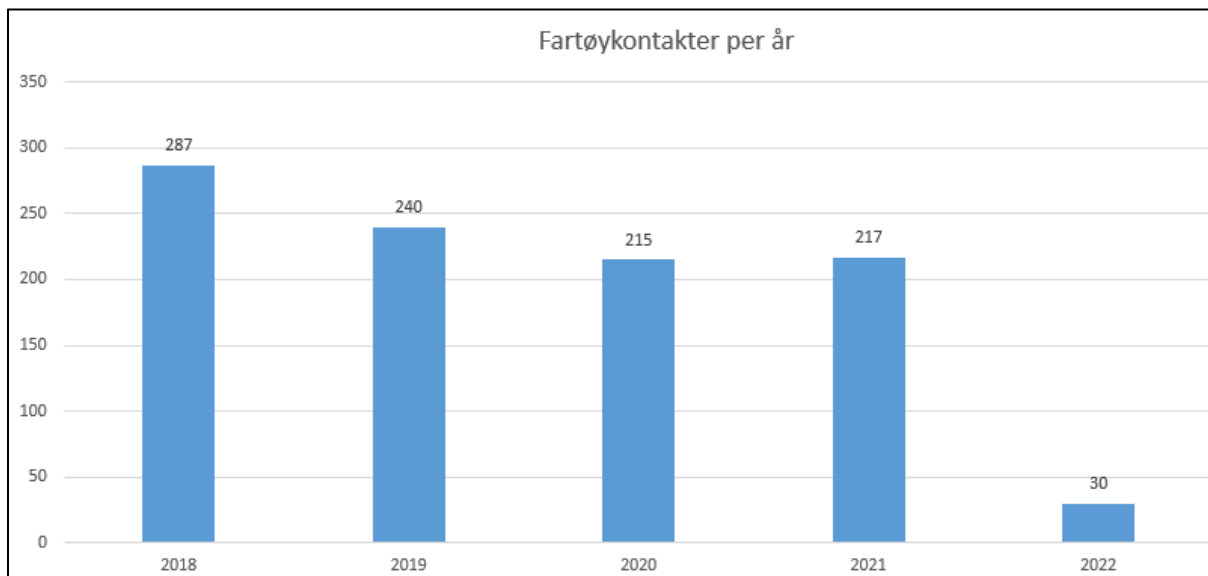

Figur 8 Anløp Hammerfest/Rypefjord

Totalt 151 anløp til Hammerfest/Rypefjord fra 2016 til og med 1 kvartal 2022

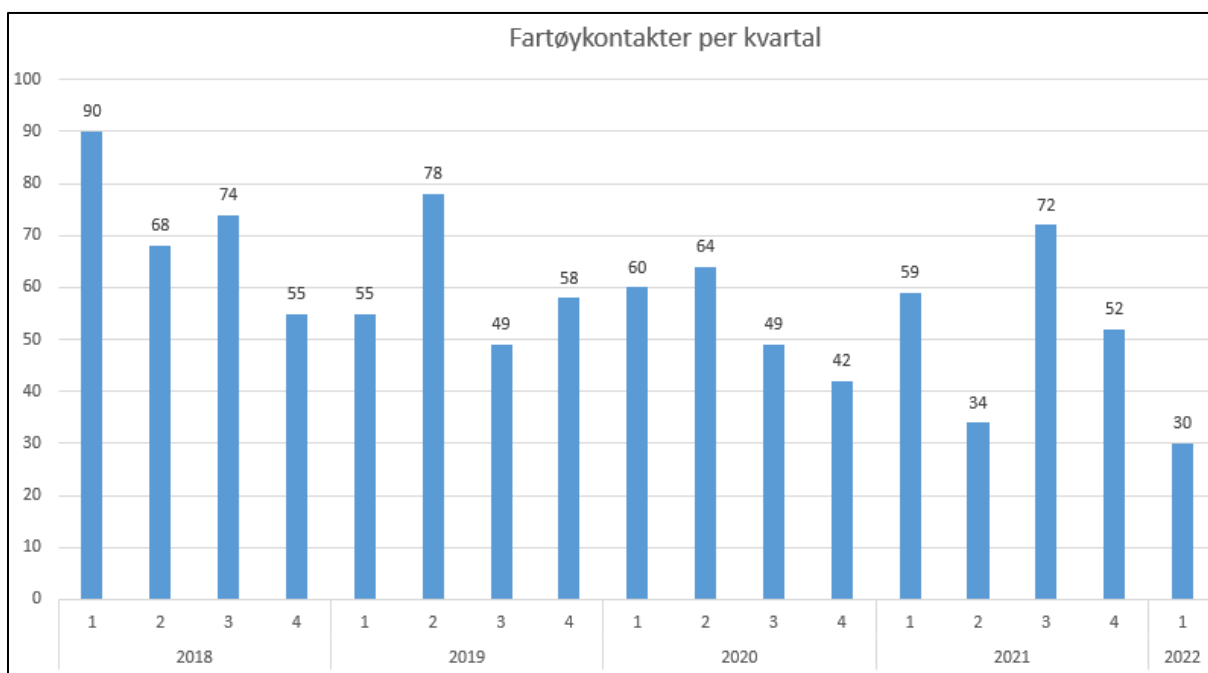

3.2 Fartøykontakter russiske fiskefartøy

Figur 9 Fartøykontakter per år

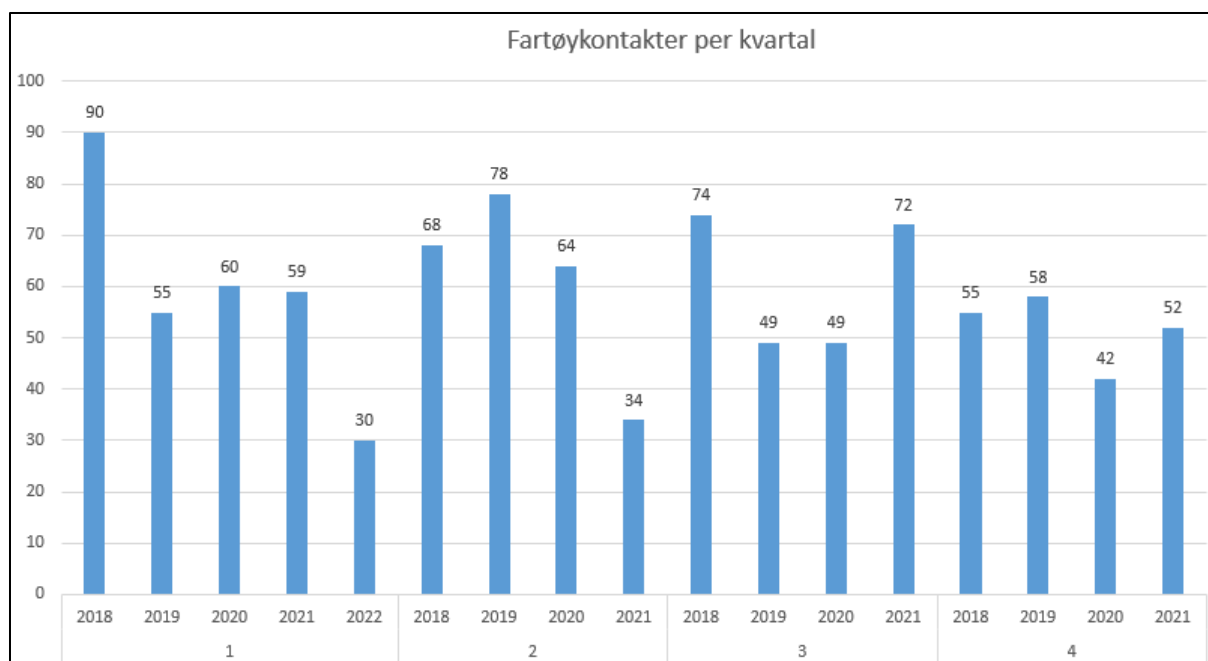

Diagrammet viser antall registrerte fartøykontakter per år fra 2018 til og med 1. kvartal 2022

Figur 10 Fartøykontakter per kvartal

Diagrammet viser antall registrerte fartøykontakter per år og kvartal.

Figur 11 Fartøykontakter per kvartal og år

Diagrammet viser antall registrerte fartøykontakter kvartal og år.

ICES	Torsk 2020	Andel %	Torsk 2021	Andel %	Hyse 2020	Andel %	Hyse 2021	Andel %
Ia	84 171	0,03	0		1 618	0,00	0	
Ia1	414	0,00	0		0		0	
Ib	134 733 363	43,10	173 705 389	49,34	62 159 632	69,84	76 758 524	78,12
Ila2	78 468 394	25,10	69 169 738	19,65	9 954 993	11,18	5 051 552	5,14
Ilb2	99 355 423	31,78	109 181 710	31,01	16 889 210	18,98	16 446 430	16,74
Sum	312 641 765	100,00	352 056 837	100,00	89 005 453	100,00	98 256 506	100,00

Tabellen ovenfor viser hvilket ICES statistikkområde torsk og hyse er rapportert fangstet i 2020 og 2021. Som det fremkommer av tallmaterialet er det en økning i Ib (Barentshavet/RØS) både for torsk og hyse. I ICES Ila2 (NØS) er det en nedgang i fangst både av torsk og hyse, mens i Ilb2 (SVA) er det en mindre nedgang i fangstandel (%).

Vedlegg

Ingen.

Havneinformasjon: meldepliktige ankomster fra SafeSeaNet

Aggregert statistikk over meldepliktige ankomster til lokasjoner i Norge i tidsrommet fra 2021 til og med 2021 som registrerte i SafeSeaNet. Omfatter ikke seilas som er untatt fra meldeplikt slik som innenriks rutegående bil- og persontransport.

Subject: Fiskefartøy

Hei,

I møte for EU Maritime Directors i går viste DG MOVE til at det vurderes hvorvidt fiskefartøy er omfattet av havneforbudet eller ikke. Det kom ikke frem hvorfor dette er uklart, men det er mulig at denne problemstillingen kan være knyttet til usikkerhet om hvorvidt fiskefartøy er å anse som "et skip som omfattes av relevante internasjonale konvensjoner", jf. art. 3ea nr. 3 a) i forordningen.

DG MOVE vil komme tilbake med mer informasjon så snart spørsmålet er avklart. I mellomtiden vil vi be næringsråden følge opp saken i Brussel. Dersom andre har andre kanaler som kan brukes vil det helt sikkert også kunne være nyttig.

Mvh

Dear Mr. Ostnes,

Following your exchange with Ms. Kopczynska on the inclusion of fishing vessels in the EU ban to Russian flagged vessels in accordance with Article 3ea of COUNCIL REGULATION (EU) No 833/2014, I would like to confirm that fishing vessels are not included in the scope of the ban given that they are not included in the definition of a vessel under paragraph 3 of the above mentioned Article.

Please do not hesitate to contact us in case of any further questions.

Kind regards,

Subject: Kgl. res. om forbud mot havneanløp og veitransport - foreløpig utkast

Vedlagt er foreløpig utkast til kongelig resolusjon om forskriftsendringer om gjennomføring av forbud mot havneanløp for russiske skip og veitransport for russiske veitransportforetak, samt midlertidig suspensjon av berørte forpliktelser i skipsfartsavtale med Russland og veitransportavtaler med Russland og Hviterussland.

Dersom dere har merknader, ber vi om tilbakemelding **innen kl. 12 i morgen (onsdag)**.

Vær oppmerksom på at vi arbeider videre med utkastet parallelt. Blant annet er vi i kontakt med SMK om utformingen av overskrift og tilrådning. Vi sender også dette på uformell foreleggelse til SD, JD og FIN, samt internt i UD.

Forskriftsendring vedrørende veitransportforbudet for Hviterussland skal fattes i departementsvedtak. Det er ikke sikkert det er mulig å få dette på plass på fredag.

Det gjenstår også å skrive nyhetssak. Denne skal i utgangspunktet legges opp sammen med kgl.res.

Hilsen
Kristina Nygård
folkerettsrådgiver, Rettsavdelingen, UD

KONGELIG RESOLUSJON

Utenriksdepartementet
Utenriksminister: Anniken Huitfeldt

Ref.nr.:
Saksnr.: 14/6286
Dato: 29. april 2022

Det fastsettes forskrift om endring i forskrift 15. august 2014 nr. 1076 om restriktive tiltak vedrørende handlinger som undergraver eller truer Ukrainas territorielle integritet, suverenitet, uavhengighet og stabilitet. Forskriften fastsettes i samsvar med vedlegg til resolusjonen. Midlertidig suspensjon av berørte forpliktelser under avtale 18. mars 1974 mellom Norge og Sovjetunionen om skipsfart, avtale 20. juni 2005 mellom Norge og Russland om internasjonal vegtransport og avtale 21. februar 1997 mellom Norge og Hviterussland om internasjonal vegtransport.

1. Innledning

Det fremmes med dette forslag til forskrift om endring i forskrift 15. august 2014 nr. 1076 om restriktive tiltak vedrørende handlinger som undergraver eller truer Ukrainas territorielle integritet, suverenitet, uavhengighet og stabilitet. Samtidig foreslås midlertidig suspensjon av berørte forpliktelser under avtale 18. mars 1974 mellom Norge og Sovjetunionen om skipsfart (videreført med Russland), avtale 20. juni 2005 mellom Norge og Russland om internasjonal vegtransport og avtale 21. februar 1997 mellom Norge og Hviterussland om internasjonal vegtransport. Formålet er å gjennomføre i norsk rett restriktive tiltak vedtatt av EU om forbud mot veitransport for russiske og hviterussiske veitransportforetak og stengning av havner for russiskflaggede skip.

EU har, som reaksjon mot Russlands militære aggresjon mot Ukraina, vedtatt å delvis stenge EU-havner for russiskflaggede skip. Videre har EU vedtatt et forbud mot veitransport gjennom EU-statenes territorium for russiske og hviterussiske veitransportforetak.

Norge har sluttet opp om og gjennomført i norsk rett alle EUs restriktive tiltak mot Russland vedtatt av EU til og med 15. mars 2022, unntatt forbud mot kringkasting fra mediehusene Sputnik og RT. Listeføringene vedtatt av EU i femte sanksjonspakke har allerede trådt i kraft i Norge. Regjeringen har tidligere besluttet å arbeide for å gjennomføre restriksjoner på havneanløp og veitransport.

Gjennomføring av tiltakene vil være i strid med avtale 18. mars 1974 mellom Norge og Sovjetunionen om skipsfart, avtale 20. juni 2005 mellom Norge og Russland om internasjonal vegtransport og avtale 21. februar 1997 mellom Norge og Hviterussland om internasjonal vegtransport. Det tilrås derfor at de berørte forpliktelsene under de tre avtalene suspenderes midlertidig i tråd med det grunnlaget som folkerettslige regler gir for slik suspensjon i møte med rettsbrudd av den karakter som de restriktive tiltakene rettes mot.

Endringsforskriften gis med hjemmel i lov 16. april 2021 nr. 18 om gjennomføring av internasjonale sanksjoner (sanksjonsloven) § 2. Sanksjonsloven § 2 gir Kongen fullmakt til å gi forskrift med nødvendige bestemmelser for å gjennomføre restriktive tiltak som er vedtatt i mellomstatlige organisasjoner, eller som ellers har bred internasjonal oppslutning, og som har som formål å opprettholde fred og sikkerhet eller sikre respekt for demokrati og rettsstat, menneskerettigheter eller folkeretten for øvrig.

Utenriksdepartementet har iht. forskriften § 23 hjemmel til å endre, suspendere eller oppheve forskriften. Gjennomføringen av de nye restriktive tiltakene knyttet til havneanløp og veitransport, som innebærer en suspensjon av folkerettslige forpliktelser, anses imidlertid som en «sak av viktighet», jf. Grunnloven § 28, og den må derfor behandles i statsråd.

2. Nærmere om restriksjoner på havneanløp og veitransport og forholdet til avtaler om skipsfart og veitransport med Russland og Hviterussland

EU vedtok 8. april 2022 nye restriktive tiltak mot Russland (EUs femte sanksjonspakke) som svar på Russlands militære aggresjon mot Ukraina. Tiltakene er vedtatt av EU som endringer i forordning (EU) nr. 269/2014 om restriktive tiltak mot handlinger som undergraver eller truer Ukrainas territoriale integritet, suverenitet og uavhengighet, forordning (EU) nr. 833/2014 om restriktive tiltak i lys av Russlands handlinger som destabiliserer situasjonen i Ukraina, samt endring av forordning (EF) nr. 765/2006 om restriktive tiltak i lys av situasjonen i Hviterussland og Hviterusslands medvirkning i Russlands aggresjon mot Ukraina. Tiltakene omfatter, med visse unntak, bl.a. forbud mot havneanløp for russiskflaggede fartøy og veitransport utført av russiske og hviterussiske transportforetak.

Tiltakene kan gjennomføres i Norge ved endringer i forskrift 15. august 2014 nr. 1076 om restriktive tiltak vedrørende handlinger som undergraver eller truer Ukrainas territoriale integritet, suverenitet, uavhengighet og stabilitet og i forskrift 8. september 2006 nr. 1041 om restriktive tiltak i lys av situasjonen i Hviterussland og Hviterusslands medvirkning i Russlands aggresjon mot Ukraina. Tilrådning om endringer i 2014-forskriften fremmes i denne resolusjonen. Endringer i 2006-forskriften vil treffes i et departementsvedtak. Omtalen i det følgende bygger på den forutsetning at endringene vedtas.

Forbudet mot havneanløp for russiskflaggede fartøy vil omfatte skip over 500 bruttotonn som seiler kommersielt i internasjonal fart, samt yachter og lystfartøy eller fritidsfartøy som nærmere definert i forskriften. Fiskefartøy omfattes ikke. Gitt definisjonen av fartøy, legges det til grunn at forbudet normalt ikke vil omfatte anløp fra søk og redningsfartøy eller forskningsfartøy, jf. hensynet til å verne om operativt samarbeid om søk og redning og forskningssamarbeidet. Enkelte unntak gis, herunder for fartøy i nødssituasjoner, og det kan gis tillatelse til anløp blant annet av humanitære grunner. Forbudet gjennomføres for havner på Fastlands-Norge. Svalbard, Jan Mayen og bilandene er ikke omfattet.

Gjennomføringen av forbudet mot havneanløp for en rekke russiskflaggede skip vil komme i konflikt med norske forpliktelser i avtale 18. mars 1974 om skipsfart mellom Norge og Sovjetunionen, videreført med Russland, jf. protokoll 22. april 1993. Etter avtalen artikkel 5 første ledd har partene en gjensidig plikt til å likestille hverandres skip i internasjonal fart «for så vidt gjelder adgang til havner, opphold i dem og avreise derfra». Med skip forstås her skip som i henhold til vedkommende parts lovgivning bærer dens flagg jf. avtalen artikkel 1 første ledd. Avtalen

artikkel 5 første ledd innebærer således en plikt for Norge til å tillate russiskflaggede skip å anløpe og oppholde seg i norske havner. Tilsvarende plikt må anses forutsatt i avtalens artikkel 12 om mannskapsbytte, som forutsetter at mannskapsbytte for russiskflaggede skip skal kunne forekomme i norske havner. En rett til anløp og opphold i norske havner kan også anses forutsatt i avtalens artikkel 3, som forbyr tiltak som begrenser adgang for motpartens skip til å konkurrere på like vilkår, og artikkel 4, som forplikter partene til å avholde seg fra tiltak som kan gi hverandres skip mindre gunstig stilling sammenlignet med en tredjestat med henblikk på sjøtransport, behandling av handelsskip, mannskap, passasjerer og last.

Forbudene mot godstransport på vei vil gjelde for transportører etablert i Russland og Hviterussland. Det gjøres unntak for leveringspliktig post. Det kan også gis tillatelse til transport der det er nødvendig av humanitære grunner eller av hensyn til nærmere definerte formål.

Gjennomføringen av forbudene mot godstransport på vei vil komme i konflikt med norske forpliktelser under avtalen 20. juni 2005 mellom Norge og Russland om internasjonal vegtransport og avtalen 21. februar 1997 mellom Norge og Hviterussland om internasjonal veitransport. Avtalene omhandler også persontransport, men forbudene vil ikke komme i konflikt med disse bestemmelsene.

3. Nærmere om forskriftens enkelte bestemmelser

Til ny § 19a

Ny §19a gjennomfører i norsk rett havneforbudet inntatt i rådsforordning 2022/576 artikkel 3 ea, med nødvendige tilpasninger. Tiltaket innebærer i grove trekk et forbud mot å gi adgang til havner på Fastlands-Norge til fartøy som er registrert under russisk flagg. Forbudet gjelder fra 7. mai 2022, jf. *første ledd*. Det følger av *andre ledd* at forbudet også gjelder for fartøy som har byttet sitt russiske flagg eller sin registrering til enhver annen stats flagg eller registrering etter 24. februar 2022. I *tredje ledd* spesifiseres hvilke fartøy som omfattes av forbudet. Forbudet omfatter skip over 500 bruttotonn som seiler kommersielt i internasjonal fart, samt yachter og lystfartøy eller fritidsfartøy. Fiskefartøy omfattes ikke. Enkelte unntak fra havneforbudet følger av *fjerde og femte ledd*. Etter *fjerde ledd* kommer ikke forbudet til anvendelse på fartøy i nødssituasjoner av hensyn til maritim sikkerhet eller for å redde liv til sjøs. Etter *femte ledd* kan Utenriksdepartementet gi et fartøy tillatelse til å anløpe en havn, på de vilkårene departementet finner hensiktsmessig etter å ha slått fast at anløpet er nødvendig av humanitære grunner eller av hensyn til nærmere definerte formål, herunder bl.a. kjøp, import eller transport av legemidler, medisinske produkter og matprodukter, samt naturgass og olje og visse produkter oppført i nytt vedlegg XXIV.

Til ny § 19b

Ny 19b gjennomfører i norsk rett forbudet for veitransportforetak som er etablert i Russland til å transportere varer på vei innenfor norsk territorium, herunder i transitt, jf. *første ledd*. Det er i *andre ledd* gjort unntak for veitransportforetak som frakter post som en leveringspliktig tjeneste. Det følger av *tredje ledd* at forbudet ikke gjelder før 7. mai 2022 for godstransport som ble innledet før 29. april 2022, på nærmere vilkår. Etter *fjerde ledd* kan Utenriksdepartementet gi tillatelse til transport av varer på vei av veitransportforetak som er etablert i Russland, dersom departementet har slått fast at nevnte transport er nødvendig av humanitære grunner eller av hensyn til nærmere definerte formål, herunder bl.a. kjøp, import eller transport av legemidler, medisinske produkter og matprodukter. Tilsvarende forbud og unntak for hviterussiske veitransportforetak vil bli vedtatt ved forskriftsendring fastsatt av Utenriksdepartementet. Det er

enkelte forskjeller mellom det norske forbudet og sanksjonene vedtatt av EU. Blant annet er det for 2014-forskriften foreslått et unntak for transport som er nødvendig for drift av *alle* utenlandske representasjoner i Russland. Dette unntaket er for EU begrenset til EU og dets medlemslands representasjoner.

I tillegg inntas en ny definisjon i § 2 bokstav ee for veitransportforetak. Slike foretak defineres som *«alle fysiske eller juridiske personer som driver godstransport for kommersielle formål ved bruk av motorvogner eller vogntog.»*

4. Økonomiske og administrative konsekvenser

Forbud mot havneanløp for enkelte skip og forbud mot veitransport kan i seg selv føre til resiprositet, selv om dette vil være i strid med de aktuelle landenes plikter overfor Norge. Når gjennomføringen av disse tiltakene i tillegg fordrer midlertidig suspensjon av forpliktelser under bilaterale avtaler, kan det føre til ytterligere reaksjoner.

Et forbud mot havneanløp vil innebære tapt omsetning for havner og andre som leverer tjenester til russiskflaggede fartøy. For enkeltbedrifter kan de økonomiske konsekvensene være betydelige. For havnene vil forbudet kunne medføre økt administrativ ressursbruk.

Norske rederier har få eller ingen russiskflaggede fartøy slik at et forbud ikke vil få direkte konsekvenser for norsk rederinæring. Eventuelle gjengjeldelsestiltak fra russisk side og en utestengning av norske rederier vil imidlertid kunne få store konsekvenser for enkeltrederier. Russiskflaggede skip utgjør en forholdsvis liten andel av verdensflåten. Et forbud vil kunne ha noen konsekvenser for frakt av varer og gods til og fra Norge, men konsekvensene for forsyningskjedene generelt antas å være begrenset.

For den norske veitransportnæringen vil de økonomiske konsekvensene av et forbud være svært små. Forbud mot veitransport utført av russiske transportører kan imidlertid få økonomiske konsekvenser for andre næringer. Både norske bedrifter som eksporterer varer til Russland, og bedrifter som importerer råvarer som er nødvendige for sin egen produksjon i Norge, kan bli rammet av et slikt forbud. Det er usikkert i hvor stor grad veitransport benyttes til å frakte disse varene. Det er også usikkert om veitransporten mellom landene kan utføres av norske transportører istedenfor russiske. Enkelte bedrifter i Troms og Finnmark er avhengig av varetransport fra Nord-Russland, og det vil få betydelige konsekvenser for disse dersom transporten stanses som følge av forbud mot russisk veitransport.

De nærmere administrative og økonomiske konsekvensene knyttet til håndheving av bestemmelsene er ikke avklart.

De mer indirekte og langsiktige konsekvenser er vanskelig å forutsi.

5. Vurdering

For Norge er det en grunnleggende nasjonal interesse å støtte opp om folkeretten og et verdenssamfunn hvor konflikter løses med fredelige midler. Norge bør derfor slutte opp om og gjennomføre de restriktive tiltakene som EU har vedtatt som et svar på Russlands folkerettsstridige militære aggresjon. Norsk tilslutning til tiltakene er også et uttrykk for Norges støtte til

og solidaritet med det ukrainske folk. Innføring av et forbud mot havneanløp og veitransport i strid med norske folkerettslige forpliktelser vil i utgangspunktet gi grunnlag for rettslig ansvar for Norge i henhold til folkerettens regler om statsansvar. Etter lov av 16. april 2021 om gjennomføring av internasjonale sanksjoner (sanksjonsloven) § 2 tredje ledd, vil tiltak innført i strid med folkeretten være ulovlig etter norsk rett, og kan dermed gi grunnlag for rettskrav og rettsprosess i Norge. Tilslutning til restriksjonene på havneanløp og godstransport på vei fordrer derfor at det under folkeretten er grunnlag for å suspendere de berørte norske forpliktelsene i de bilaterale avtalene om skipsfart og veitransport.

Det legges til grunn at å nekte russiske fartøy havneanløp og fastsette restriksjoner på veitransport for russiske og hviterussiske transportforetak, kan anses som lovlige restriksjoner i henhold til folkerettens regler om statsansvar, som følge av å være lovlige mottiltak for å bringe Russlands folkerettsbrudd til opphør. Statspraksis underbygger eksistensen av en unntaksvis adgang til mottiltak for tredjestater i de mest alvorlige tilfeller av brudd på fellesskapsforpliktelser. Utenriksdepartementets vurdering er at den aktuelle situasjonen gir en ekstraordinær og unntaksvis adgang til å iverksette mottiltak mot Russland og Hviterussland, selv om Norge ikke er direkte rammet av de russiske folkerettsbruddene. Russlands invasjon av Ukraina, og Hviterusslands rettstridige medvirkning, er et grovt brudd på maktforbudet i FN-pakten artikkel 2 (4), og det er dokumentert grove og systematiske russiske brudd på grunnleggende menneskerettigheter og humanitærrettslige regler. Disse folkerettsbruddene er av en eksepsjonell og alvorlig karakter, som understreket av de krav som både FNs generalforsamling og Den internasjonale domstolen i Haag (ICJ) har stilt til Russland om opphør av de folkerettsstridige handlingene.

Suspensjonen skal være midlertidig, og avsluttes senest ved innfrielse av det folkerettslige ansvaret som følger av de rettsbruddene som grunngir tiltaket. Mottiltaket må også være forholdsmessig, altså stå i et rimelig forhold til det forutgående rettsbruddet. Det anses utvilsomt at iverksettelse av mottiltak i den foreliggende situasjon er en forholdsmessig reaksjon på de særdeles alvorlige russiske og hviterussiske folkerettsbruddene.

Gjennomføringen av de restriktive tiltakene anses å være forenelig med Norges folkerettslige forpliktelser.

Havneforbudet begrenses til Fastlands-Norge. Forbudet får dermed ikke betydning for behovet for godstransport med skip til Svalbard.

I vurderingen av gjennomføringen av havneforbudet i Norge har særlig forholdet til det norsk-russiske fiskerisamarbeidet vært viktig. Som kyststater er Norge og Russland etter havrettskonvensjonen pålagt å samarbeide om forvaltningen av bestander som vandrer mellom de økonomiske sonene. Fiskerisamarbeidet med Russland sikrer den langsiktige, bærekraftige forvaltningen av fiskebestandene i Barentshavet. EU-forordningen gir forbudet mot havneanløp anvendelse for «*skip som omfattes av relevante internasjonale konvensjoner*». Det er ikke helt klart hvordan dette skal forstås. Forordningen er tolket basert på eksisterende rettskilder, og det er Utenriksdepartementets vurdering at fiskefartøy ikke omfattes av forordningen. Det legges til grunn at forbudet normalt heller ikke vil omfatte anløp fra søk og redningsfartøy eller

forskningsfartøy. Dette er i tråd med hvordan enkelte sentrale EU-land tolker forordningen. Forskriften inneholder en straffesanksjonert forpliktelse og etter norsk rett må denne være tilstrekkelig presis. En henvisning til «*skip som omfattes av relevante internasjonale konvensjoner*» er ikke tilstrekkelig presis. Ved gjennomføring i den norske forskriften har Utenriksdepartementet derfor lagt til grunn at den omfatter fartøy over 500 bruttotonn som seiler kommersielt i internasjonal fart. Fiskefartøy omfattes ikke. Videre gis enkelte unntak, herunder for fartøy i nødssituasjoner, og det kan gis tillatelse til anløp blant annet av humanitære grunner. For det tilfelle at forordningen i EU på et senere tidspunkt skulle fortolkes slik at fiskefartøy anses omfattet av forordningen, vil likevel den norske gjennomføringen knyttet til å unnta fiskefartøy gjøres gjeldende i den norske forskriften som en nasjonal tilpasning.

6. Foreleggelse og høring

Forslaget til endringsforskrift og midlertidig suspensjon av berørte forpliktelser under de bilaterale avtalene om skipsfart og veitransport har ikke vært på foreleggelse og høring.

Utenriksdepartementet

t i l r å r :

- 1) Det fastsettes forskrift om endring i forskrift 15. august 2014 nr. 1076 om restriktive tiltak vedrørende handlinger som undergraver eller truer Ukrainas territoriale integritet, suverenitet, uavhengighet og stabilitet. Forskriften fastsettes i samsvar med vedlegg til resolusjonen.
- 2) Berørte forpliktelser under avtale 18. mars 1974 mellom Norge og Sovjetunionen om skipsfart, avtale 20. juni 2005 mellom Norge og Russland om internasjonal vegtransport og avtale 21. februar 1997 mellom Norge og Hviterussland om internasjonal vegtransport suspenderes midlertidig.

”VASKESEDDEL”

Det legges frem en kongelig resolusjon om fastsettelse av forskrift om endring i forskrift 15. august 2014 nr. 1076 om restriktive tiltak vedrørende handlinger som undergraver eller truer Ukrainas territoriale integritet, suverenitet, uavhengighet og stabilitet, samt om midlertidig suspensjon av berørte forpliktelser i avtale 18. mars 1974 mellom Norge og Sovjetunionen om skipsfart, avtale 20. juni 2005 mellom Norge og Russland om internasjonal vegtransport og avtale 21. februar 1997 mellom Norge og Hviterussland om internasjonal vegtransport. Endringene kommer som følge av at Norge har sluttet opp om EUs femte sanksjonspakke vedtatt 8. april 2022.

Forskriftsendringene innebærer at russiskflaggede fartøy over 500 bruttotonn som seiler kommersielt i internasjonal fart, samt yachter og lystfartøy eller fritidsfartøy ikke kan anløpe havner på Fastlands-Norge. Fiskefartøy omfattes ikke. Det legges til grunn at forbudet normalt heller ikke vil omfatte anløp fra søk og redningsfartøy eller forskningsfartøy. Veitransportforetak etablert i Russland kan ikke transportere gods på norsk territorium. Enkelte unntak fra forbudene gis, og Utenriksdepartementet kan gi tillatelse blant annet av humanitære grunner.

Gjennomføringen av tiltakene vil være i strid med forpliktelser etter de bilaterale avtalene med Russland om skipsfart og internasjonal vegtransport. I tillegg vil et forbud som vedtas av Utenriksdepartementet mot godstransport for veitransportforetak fra Hviterussland være i strid med forpliktelser etter den bilaterale avtalen fra 1997. De berørte forpliktelsene under de tre avtalene suspenderes derfor midlertidig i tråd med den folkerettslige mottiltakslæren.

Forskrift om endring i forskrift 15. august 2014 nr. 1076 om restriktive tiltak vedrørende handlinger som undergraver eller truer Ukrainas territorielle integritet, suverenitet, uavhengighet og stabilitet

Fastsatt ved kgl.res. 29. april 2022 med hjemmel i lov 16. april 2021 nr. 18 om gjennomføring av internasjonale sanksjoner (sanksjonsloven) § 2. Fremmet av Utenriksdepartementet.

I

I forskrift 15. august 2014 nr. 1076 om restriktive tiltak vedrørende handlinger som undergraver eller truer Ukrainas territorielle integritet, suverenitet, uavhengighet og stabilitet gjøres følgende endringer:

Ny § 2 bokstav ee skal lyde:

ee. veitransportforetak: alle fysiske eller juridiske personer som driver godstransport for kommersielle formål ved bruk av motorvogner eller vogntog.

Ny § 19a skal lyde:

§ 19a. Forbud mot havneanløp for russiske fartøy

Det er forbudt etter 7. mai 2022 å gi adgang til havner på Fastlands-Norge til fartøy som er registrert under russisk flagg.

Første ledd får anvendelse på fartøy som har byttet sitt russiske flagg eller sin registrering til enhver annen stats flagg eller registrering etter 24. februar 2022.

I denne paragrafen menes med «fartøy»

- a. skip på 500 bruttotonn eller mer som seiler kommersielt i internasjonal fart. Fiskefartøy er ikke omfattet.*
- b. en yacht som er minst 15 meter lang, som ikke frakter gods, og som har høyst tolv passasjerer, eller*
- c. et lystfartøy eller fritidsfartøy som definert i europaparlaments- og rådsdirektiv 2013/53/EU.*

Første ledd får ikke anvendelse på et fartøy som har behov for hjelp og søker nødhavn, nødhavnanløp av hensyn til maritim sikkerhet eller for å redde liv til sjøs.

Som unntak fra første ledd kan Utenriksdepartementet gi et fartøy tillatelse til å anløpe en havn, på de vilkårene departementet finner hensiktsmessige, etter å ha slått fast at anløpet er nødvendig for

- a. kjøp, import eller transport av naturgass og olje til Norge eller EU, herunder raffinerte petroleumsprodukter, titan, aluminium, kobber, nikkel, palladium og jernmalm, samt visse kjemiske produkter og jernprodukter som oppført i vedlegg XXIV,*

- b. kjøp, import eller transport av legemidler, medisinske produkter, landbruksprodukter og matprodukter, herunder hvete og gjødsel som det er tillatt å importere, kjøpe og frakte i henhold til denne forskriften,*
- c. humanitære formål,*
- d. transport av kjernebrensel og andre varer som er strengt nødvendige for drift av sivil kjernefysisk kapasitet, eller*
- e. kjøp, import eller transport til Norge av kull og annet fast fossilt brensel, som oppført i vedlegg XXII, til 31. august 2022.*

Ny § 19b skal lyde:

§ 19b. Forbud mot godstransport for russiske veitransportforetak

Det er forbudt for veitransportforetak som er etablert i Russland, å transportere varer på vei innenfor norsk territorium, herunder i transitt.

Forbudet i første ledd gjelder ikke for veitransportforetak som frakter post som en leveringspliktig tjeneste.

Forbudet i første ledd gjelder ikke før 7. mai 2022 for godstransport som ble innledet før 29. april 2022, forutsatt at veitransportforetakets kjøretøy

- a. allerede befant seg på norsk eller EUs territorium 29. april 2022, eller*
- b. er avhengig av å kjøre transitt gjennom norsk territorium for å returnere til Russland.*

Som unntak fra forbudet i første ledd kan Utenriksdepartementet tillate transport av varer på vei av veitransportforetak som er etablert i Russland dersom departementet har slått fast at nevnte transport er nødvendig av hensyn til

- a. kjøp, import eller transport av naturgass og olje til Norge eller EU, herunder raffinerte petroleumsprodukter, i tillegg til titan, aluminium, kobber, nikkel, palladium og jernmalm,*
- b. kjøp, import eller transport av legemidler, medisinske produkter, landbruksprodukter og matprodukter, herunder hvete og gjødsel som det er tillatt å importere, kjøpe og frakte i henhold til denne forskriften,*
- c. humanitære formål,*
- d. drift av diplomatiske eller konsulære representasjoner i Russland, herunder delegasjoner, ambassader og utenriksstasjoner, eller av internasjonale organisasjoner i Russland som har immunitet i henhold til folkeretten, eller*

- e. overføring eller eksport til Russland av kulturgjenstander som er utlånt innenfor rammen av et formelt kultursamarbeid med Russland.

Nytt vedlegg XXIV skal lyde:

Vedlegg XXIV. Liste over varer som omtalt i § 19a

<i>CN code</i>	<i>Name of the good</i>
<i>2810 00 10</i>	<i>Diboron trioxide</i>
<i>2810 00 90</i>	<i>Oxides of boron; boric acids (excluding diboron trioxide)</i>
<i>2812 15 00</i>	<i>Sulphur monochloride</i>
<i>2814 10 00</i>	<i>Anhydrous ammonia</i>
<i>2825 20 00</i>	<i>Lithium oxide and hydroxide</i>
<i>2905 42 00</i>	<i>Pentaerythritol "pentaerythrite"</i>
<i>2909 19 90</i>	<i>Ethers, acyclic and halogen, sulfo, nitro and nitroso derivatives thereof (excluding diethyl ether and tert-butyl ethyl ether (ethyl tertiary butyl ether, etbe))</i>
<i>3006 92 00</i>	<i>Waste pharmaceuticals</i>
<i>3105 30 00</i>	<i>Diammonium hydrogenorthophosphate (excluding those in tablets or similar forms, or in packages with a gross weight of <= 10 kg)</i>
<i>3105 40 00</i>	<i>Ammonium dihydrogenorthophosphate and mixtures thereof with diammonium hydrogenorthophosphate (excluding those in tablets or similar forms, or in packages with a gross weight of <= 10 kg).</i>
<i>3811 19 00</i>	<i>Anti-knock agents for petrol (excluding those based on lead compounds)</i>
<i>ex 7203</i>	<i>Direct reduced iron or other spongy iron</i>
<i>ex 7204</i>	<i>Ferrous scrap</i>

II

Forskriften trer i kraft straks.

KONGELIG RESOLUSJON

Utenriksdepartementet
Utenriksminister: Anniken Huitfeldt

Ref.nr.:
Saksnr.: 14/6286
Dato: 29. april 2022

Det fastsettes forskrift om endring i forskrift 15. august 2014 nr. 1076 om restriktive tiltak vedrørende handlinger som undergraver eller truer Ukrainas territorielle integritet, suverenitet, uavhengighet og stabilitet. Forskriften fastsettes i samsvar med vedlegg til resolusjonen. Midlertidig suspensjon av berørte forpliktelser under avtale 18. mars 1974 mellom Norge og Sovjetunionen om skipsfart, avtale 20. juni 2005 mellom Norge og Russland om internasjonal vegtransport og avtale 21. februar 1997 mellom Norge og Hviterussland om internasjonal vegtransport.

1. Innledning

Det fremmes med dette forslag til forskrift om endring i forskrift 15. august 2014 nr. 1076 om restriktive tiltak vedrørende handlinger som undergraver eller truer Ukrainas territorielle integritet, suverenitet, uavhengighet og stabilitet. Samtidig foreslås midlertidig suspensjon av berørte forpliktelser under avtale 18. mars 1974 mellom Norge og Sovjetunionen om skipsfart (videreført med Russland), avtale 20. juni 2005 mellom Norge og Russland om internasjonal vegtransport og avtale 21. februar 1997 mellom Norge og Hviterussland om internasjonal vegtransport. Formålet er å gjennomføre i norsk rett restriktive tiltak vedtatt av EU om forbud mot veitransport for russiske og hviterussiske veitransportforetak og stengning av havner for russiskflaggede skip.

EU har, som reaksjon mot Russlands militære aggresjon mot Ukraina, vedtatt å delvis stenge EU-havner for russiskflaggede skip. Videre har EU vedtatt et forbud mot veitransport gjennom EU-statenes territorium for russiske og hviterussiske veitransportforetak.

Norge har sluttet opp om og gjennomført i norsk rett alle EUs restriktive tiltak mot Russland vedtatt av EU til og med 15. mars 2022, unntatt forbud mot kringkasting fra mediehusene Sputnik og RT. Listeføringene vedtatt av EU i femte sanksjonspakke har allerede trådt i kraft i Norge. Regjeringen har tidligere besluttet å arbeide for å gjennomføre restriksjoner på havneanløp og veitransport.

Gjennomføring av tiltakene vil være i strid med avtale 18. mars 1974 mellom Norge og Sovjetunionen om skipsfart, avtale 20. juni 2005 mellom Norge og Russland om internasjonal vegtransport og avtale 21. februar 1997 mellom Norge og Hviterussland om internasjonal vegtransport. Det tilrås derfor at de berørte forpliktelsene under de tre avtalene suspenderes midlertidig i tråd med det grunnlaget som folkerettslige regler gir for slik suspensjon i møte med rettsbrudd av den karakter som de restriktive tiltakene rettes mot.

Endringsforskriften gis med hjemmel i lov 16. april 2021 nr. 18 om gjennomføring av internasjonale sanksjoner (sanksjonsloven) § 2. Sanksjonsloven § 2 gir Kongen fullmakt til å gi forskrift med nødvendige bestemmelser for å gjennomføre restriktive tiltak som er vedtatt i mellomstatlige organisasjoner, eller som ellers har bred internasjonal oppslutning, og som har som formål å opprettholde fred og sikkerhet eller sikre respekt for demokrati og rettsstat, menneskerettigheter eller folkeretten for øvrig.

Utenriksdepartementet har iht. forskriften § 23 hjemmel til å endre, suspendere eller oppheve forskriften. Gjennomføringen av de nye restriktive tiltakene knyttet til havneanløp og veitransport, som innebærer en suspensjon av folkerettslige forpliktelser, anses imidlertid som en «sak av viktighet», jf. Grunnloven § 28, og den må derfor behandles i statsråd.

2. Nærmere om restriksjoner på havneanløp og veitransport og forholdet til avtaler om skipsfart og veitransport med Russland og Hviterussland

EU vedtok 8. april 2022 nye restriktive tiltak mot Russland (EUs femte sanksjonspakke) som svar på Russlands militære aggresjon mot Ukraina. Tiltakene er vedtatt av EU som endringer i forordning (EU) nr. 269/2014 om restriktive tiltak mot handlinger som undergraver eller truer Ukrainas territoriale integritet, suverenitet og uavhengighet, forordning (EU) nr. 833/2014 om restriktive tiltak i lys av Russlands handlinger som destabiliserer situasjonen i Ukraina, samt endring av forordning (EF) nr. 765/2006 om restriktive tiltak i lys av situasjonen i Hviterussland og Hviterusslands medvirkning i Russlands aggresjon mot Ukraina. Tiltakene omfatter, med visse unntak, bl.a. forbud mot havneanløp for russiskflaggede fartøy og veitransport utført av russiske og hviterussiske transportforetak.

Tiltakene kan gjennomføres i Norge ved endringer i forskrift 15. august 2014 nr. 1076 om restriktive tiltak vedrørende handlinger som undergraver eller truer Ukrainas territoriale integritet, suverenitet, uavhengighet og stabilitet og i forskrift 8. september 2006 nr. 1041 om restriktive tiltak i lys av situasjonen i Hviterussland og Hviterusslands medvirkning i Russlands aggresjon mot Ukraina. Tilrådning om endringer i 2014-forskriften fremmes i denne resolusjonen. Endringer i 2006-forskriften vil treffes i et departementsvedtak. Omtalen i det følgende bygger på den forutsetning at endringene vedtas.

Forbudet mot havneanløp for russiskflaggede fartøy vil omfatte skip over 500 bruttotonn som seiler kommersielt i internasjonal fart, samt yachter og lystfartøy eller fritidsfartøy som nærmere definert i forskriften. Fiskefartøy omfattes ikke. Gitt definisjonen av fartøy, legges det til grunn at forbudet normalt ikke vil omfatte anløp fra søk og redningsfartøy eller forskningsfartøy, jf. hensynet til å verne om operativt samarbeid om søk og redning og forskningssamarbeidet. Enkelte unntak gis, herunder for fartøy i nødssituasjoner, og det kan gis tillatelse til anløp blant annet av humanitære grunner. Forbudet gjennomføres for havner på Fastlands-Norge. Svalbard, Jan Mayen og bilandene er ikke omfattet.

Gjennomføringen av forbudet mot havneanløp for en rekke russiskflaggede skip vil komme i konflikt med norske forpliktelser i avtale 18. mars 1974 om skipsfart mellom Norge og Sovjetunionen, videreført med Russland, jf. protokoll 22. april 1993. Etter avtalen artikkel 5 første ledd har partene en gjensidig plikt til å likestille hverandres skip i internasjonal fart «for så vidt gjelder adgang til havner, opphold i dem og avreise derfra». Med skip forstås her skip som i henhold til vedkommende parts lovgivning bærer dens flagg jf. avtalen artikkel 1 første ledd. Avtalen

artikkel 5 første ledd innebærer således en plikt for Norge til å tillate russiskflaggede skip å anløpe og oppholde seg i norske havner. Tilsvarende plikt må anses forutsatt i avtalens artikkel 12 om mannskapsbytte, som forutsetter at mannskapsbytte for russiskflaggede skip skal kunne forekomme i norske havner. En rett til anløp og opphold i norske havner kan også anses forutsatt i avtalens artikkel 3, som forbyr tiltak som begrenser adgang for motpartens skip til å konkurrere på like vilkår, og artikkel 4, som forplikter partene til å avholde seg fra tiltak som kan gi hverandres skip mindre gunstig stilling sammenlignet med en tredjestat med henblikk på sjøtransport, behandling av handelsskip, mannskap, passasjerer og last.

Forbudene mot godstransport på vei vil gjelde for transportører etablert i Russland og Hviterussland. Det gjøres unntak for leveringspliktig post. Det kan også gis tillatelse til transport der det er nødvendig av humanitære grunner eller av hensyn til nærmere definerte formål.

Gjennomføringen av forbudene mot godstransport på vei vil komme i konflikt med norske forpliktelser under avtalen 20. juni 2005 mellom Norge og Russland om internasjonal vegtransport og avtalen 21. februar 1997 mellom Norge og Hviterussland om internasjonal veitransport. Avtalene omhandler også persontransport, men forbudene vil ikke komme i konflikt med disse bestemmelsene.

3. Nærmere om forskriftens enkelte bestemmelser

Til ny § 19a

Ny §19a gjennomfører i norsk rett havneforbudet inntatt i rådsforordning 2022/576 artikkel 3 ea, med nødvendige tilpasninger. Tiltaket innebærer i grove trekk et forbud mot å gi adgang til havner på Fastlands-Norge til fartøy som er registrert under russisk flagg. Forbudet gjelder fra 7. mai 2022, jf. *første ledd*. Det følger av *andre ledd* at forbudet også gjelder for fartøy som har byttet sitt russiske flagg eller sin registrering til enhver annen stats flagg eller registrering etter 24. februar 2022. I *tredje ledd* spesifiseres hvilke fartøy som omfattes av forbudet. Forbudet omfatter skip over 500 bruttotonn som seiler kommersielt i internasjonal fart, samt yachter og lystfartøy eller fritidsfartøy. Fiskefartøy omfattes ikke. Enkelte unntak fra havneforbudet følger av *fjerde og femte ledd*. Etter *fjerde ledd* kommer ikke forbudet til anvendelse på fartøy i nødssituasjoner av hensyn til maritim sikkerhet eller for å redde liv til sjøs. Etter *femte ledd* kan Utenriksdepartementet gi et fartøy tillatelse til å anløpe en havn, på de vilkårene departementet finner hensiktsmessig etter å ha slått fast at anløpet er nødvendig av humanitære grunner eller av hensyn til nærmere definerte formål, herunder bl.a. kjøp, import eller transport av legemidler, medisinske produkter og matprodukter, samt naturgass og olje og visse produkter oppført i nytt vedlegg XXIV.

Til ny § 19b

Ny 19b gjennomfører i norsk rett forbudet for veitransportforetak som er etablert i Russland til å transportere varer på vei innenfor norsk territorium, herunder i transitt, jf. *første ledd*. Det er i *andre ledd* gjort unntak for veitransportforetak som frakter post som en leveringspliktig tjeneste. Det følger av *tredje ledd* at forbudet ikke gjelder før 7. mai 2022 for godstransport som ble innledet før 29. april 2022, på nærmere vilkår. Etter *fjerde ledd* kan Utenriksdepartementet gi tillatelse til transport av varer på vei av veitransportforetak som er etablert i Russland, dersom departementet har slått fast at nevnte transport er nødvendig av humanitære grunner eller av hensyn til nærmere definerte formål, herunder bl.a. kjøp, import eller transport av legemidler, medisinske produkter og matprodukter. Tilsvarende forbud og unntak for hviterussiske veitransportforetak vil bli vedtatt ved forskriftsendring fastsatt av Utenriksdepartementet. Det er

enkelte forskjeller mellom det norske forbudet og sanksjonene vedtatt av EU. Blant annet er det for 2014-forskriften foreslått et unntak for transport som er nødvendig for drift av *alle* utenlandske representasjoner i Russland. Dette unntaket er for EU begrenset til EU og dets medlemslands representasjoner.

I tillegg inntas en ny definisjon i § 2 bokstav ee for veitransportforetak. Slike foretak defineres som *«alle fysiske eller juridiske personer som driver godstransport for kommersielle formål ved bruk av motorvogner eller vogntog.»*

4. Økonomiske og administrative konsekvenser

Forbud mot havneanløp for enkelte skip og forbud mot veitransport kan i seg selv føre til resiprositet, selv om dette vil være i strid med de aktuelle landenes plikter overfor Norge. Når gjennomføringen av disse tiltakene i tillegg fordrer midlertidig suspensjon av forpliktelser under bilaterale avtaler, kan det føre til ytterligere reaksjoner.

Et forbud mot havneanløp vil innebære tapt omsetning for havner og andre som leverer tjenester til russiskflaggede fartøy. For enkeltbedrifter kan de økonomiske konsekvensene være betydelige. For havnene vil forbudet kunne medføre økt administrativ ressursbruk.

Norske rederier har få eller ingen russiskflaggede fartøy slik at et forbud ikke vil få direkte konsekvenser for norsk rederinæring. Eventuelle gjengjeldelsestiltak fra russisk side og en utestengning av norske rederier vil imidlertid kunne få store konsekvenser for enkeltrederier. Russiskflaggede skip utgjør en forholdsvis liten andel av verdensflåten. Et forbud vil kunne ha noen konsekvenser for frakt av varer og gods til og fra Norge, men konsekvensene for forsyningskjedene generelt antas å være begrenset.

For den norske veitransportnæringen vil de økonomiske konsekvensene av et forbud være svært små. Forbud mot veitransport utført av russiske transportører kan imidlertid få økonomiske konsekvenser for andre næringer. Både norske bedrifter som eksporterer varer til Russland, og bedrifter som importerer råvarer som er nødvendige for sin egen produksjon i Norge, kan bli rammet av et slikt forbud. Det er usikkert i hvor stor grad veitransport benyttes til å frakte disse varene. Det er også usikkert om veitransporten mellom landene kan utføres av norske transportører istedenfor russiske. Enkelte bedrifter i Troms og Finnmark er avhengig av varetransport fra Nord-Russland, og det vil få betydelige konsekvenser for disse dersom transporten stanses som følge av forbud mot russisk veitransport.

De nærmere administrative og økonomiske konsekvensene knyttet til håndheving av bestemmelsene er ikke avklart.

De mer indirekte og langsiktige konsekvenser er vanskelig å forutsi.

5. Vurdering

For Norge er det en grunnleggende nasjonal interesse å støtte opp om folkeretten og et verdenssamfunn hvor konflikter løses med fredelige midler. Norge bør derfor slutte opp om og gjennomføre de restriktive tiltakene som EU har vedtatt som et svar på Russlands folkerettsstridige militære aggresjon. Norsk tilslutning til tiltakene er også et uttrykk for Norges støtte til

og solidaritet med det ukrainske folk. Innføring av et forbud mot havneanløp og veitransport i strid med norske folkerettslige forpliktelser vil i utgangspunktet gi grunnlag for rettslig ansvar for Norge i henhold til folkerettens regler om statsansvar. Etter lov av 16. april 2021 om gjennomføring av internasjonale sanksjoner (sanksjonsloven) § 2 tredje ledd, vil tiltak innført i strid med folkeretten være ulovlig etter norsk rett, og kan dermed gi grunnlag for rettskrav og rettsprosess i Norge. Tilslutning til restriksjonene på havneanløp og godstransport på vei fordrer derfor at det under folkeretten er grunnlag for å suspendere de berørte norske forpliktelsene i de bilaterale avtalene om skipsfart og veitransport.

Det legges til grunn at å nekte russiske fartøy havneanløp og fastsette restriksjoner på veitransport for russiske og hviterussiske transportforetak, kan anses som lovlige restriksjoner i henhold til folkerettens regler om statsansvar, som følge av å være lovlige mottiltak for å bringe Russlands folkerettsbrudd til opphør. Statspraksis underbygger eksistensen av en unntaksvis adgang til mottiltak for tredjestater i de mest alvorlige tilfeller av brudd på fellesskapsforpliktelser. Utenriksdepartementets vurdering er at den aktuelle situasjonen gir en ekstraordinær og unntaksvis adgang til å iverksette mottiltak mot Russland og Hviterussland, selv om Norge ikke er direkte rammet av de russiske folkerettsbruddene. Russlands invasjon av Ukraina, og Hviterusslands rettstridige medvirkning, er et grovt brudd på maktforbudet i FN-pakten artikkel 2 (4), og det er dokumentert grove og systematiske russiske brudd på grunnleggende menneskerettigheter og humanitærrettslige regler. Disse folkerettsbruddene er av en eksepsjonell og alvorlig karakter, som understreket av de krav som både FNs generalforsamling og Den internasjonale domstolen i Haag (ICJ) har stilt til Russland om opphør av de folkerettsstridige handlingene.

Suspensjonen skal være midlertidig, og avsluttes senest ved innfrielse av det folkerettslige ansvaret som følger av de rettsbruddene som grunngir tiltaket. Mottiltaket må også være forholdsmessig, altså stå i et rimelig forhold til det forutgående rettsbruddet. Det anses utvilsomt at iverksettelse av mottiltak i den foreliggende situasjon er en forholdsmessig reaksjon på de særdeles alvorlige russiske og hviterussiske folkerettsbruddene.

Gjennomføringen av de restriktive tiltakene anses å være forenelig med Norges folkerettslige forpliktelser.

Havneforbudet begrenses til Fastlands-Norge. Forbudet får dermed ikke betydning for behovet for godstransport med skip til Svalbard.

I vurderingen av gjennomføringen av havneforbudet i Norge har særlig forholdet til det norsk-russiske fiskerisamarbeidet vært viktig. Som kyststater er Norge og Russland etter havrettskonvensjonen pålagt å samarbeide om forvaltningen av bestander som vandrer mellom de økonomiske sonene. Fiskerisamarbeidet med Russland sikrer den langsiktige, bærekraftige forvaltningen av fiskebestandene i Barentshavet. EU-forordningen gir forbudet mot havneanløp anvendelse for «*skip som omfattes av relevante internasjonale konvensjoner*». Det er ikke helt klart hvordan dette skal forstås. Forordningen er tolket basert på eksisterende rettskilder, og det er Utenriksdepartementets vurdering at fiskefartøy ikke omfattes av forordningen. Det legges til grunn at forbudet normalt heller ikke vil omfatte anløp fra søk og redningsfartøy eller

forskningsfartøy. Dette er i tråd med hvordan enkelte sentrale EU-land tolker forordningen. Forskriften inneholder en straffesanksjonert forpliktelse og etter norsk rett må denne være tilstrekkelig presis. En henvisning til «skip som omfattes av relevante internasjonale konvensjoner» er ikke tilstrekkelig presis. Ved gjennomføring i den norske forskriften har Utenriksdepartementet derfor lagt til grunn at den omfatter fartøy over 500 bruttotonn som seiler kommersielt i internasjonal fart. Fiskefartøy omfattes ikke. Videre gis enkelte unntak, herunder for fartøy i nødssituasjoner, og det kan gis tillatelse til anløp blant annet av humanitære grunner. For det tilfelle at forordningen i EU på et senere tidspunkt skulle fortolkes slik at fiskefartøy anses omfattet av forordningen, vil likevel den norske gjennomføringen knyttet til å unnta fiskefartøy gjøres gjeldende i den norske forskriften som en nasjonal tilpasning.

6. Foreleggelse og høring

Forslaget til endringsforskrift og midlertidig suspensjon av berørte forpliktelser under de bilaterale avtalene om skipsfart og veitransport har ikke vært på foreleggelse og høring.

KGL.RESOLUSJON

Utenriksdepartementet

tilrår:

2.9 APR. 2022
Marianne Hvi

- 1) Det fastsettes forskrift om endring i forskrift 15. august 2014 nr. 1076 om restriktive tiltak vedrørende handlinger som undergraver eller truer Ukrainas territorielle integritet, suverenitet, uavhengighet og stabilitet. Forskriften fastsettes i samsvar med vedlegg til resolusjonen.
- 2) Berørte forpliktelser under avtale 18. mars 1974 mellom Norge og Sovjetunionen om skipsfart, avtale 20. juni 2005 mellom Norge og Russland om internasjonal vegtransport og avtale 21. februar 1997 mellom Norge og Hviterussland om internasjonal vegtransport suspenderes midlertidig.

Emne: SV: Oppdatert liste over russiske fartøy <500BT innenfor 1nm siste år

Hei igjen!

Beklager dette tok litt lenger tid enn forventet.

Se nytt excel-dokument. **Antall unike fiskefartøy over 400BT var siste år 109 (basert på unike IMO-nummer).** Se fane «Antall unike fiskefartøy». Se også fane «informasjon unike fiskefartøy» for mer informasjon om hvert enkelt fartøy.

Igjen, ikke nøl med å ta kontakt for mer info.

Mvh
Nils Haktor

Hei,

Ref. dialog tidligere i dag om fiskefartøy. Vedlagt finner dere Sjøfartsdirektoratets nærmere redegjørelse for sertifisering etter MARPOL.

Mvh Lillian

Hei

Sjøfartsdirektoratet viser til henvendelsen fra departementet hvor dere ber om redegjørelse som viser hvordan utenlandske fiskefartøy er omfattet av sertifikatkravene i MARPOL når de er i norsk jurisdiksjon.

Vedlagt er vår redegjørelse for spørsmålet.

Med vennlig hilsen

Gerd Lise Sjøiland

Sertifikatkrav i MARPOL og utenlandske fiskefartøy

Vi viser til henvendelsen fra departementet hvor dere ber om redegjørelse som viser hvordan utenlandske fiskefartøy er omfattet av sertifikatkravene i MARPOL når de er i norsk jurisdiksjon.

MARPOL (Den internasjonale konvensjon om hindring av forurensning fra skip) er gjennomført i norsk rett i skipssikkerhetsloven og forskrift om miljømessig sikkerhet (for-2012-05-30-488)¹. Forskrift om miljømessig sikkerhet gjelder også utenlandske skip i norsk territorialfarvann, norsk økonomisk sone og på kontinentalsokkelen, innenfor folkerettens begrensninger, se forskriften § 1. I det følgende forutsettes det at de utenlandske skipene befinner seg i norsk territorialfarvann, norsk økonomisk sone eller på kontinentalsokkelen.

Hvert vedlegg har egen virkeområdebestemmelse og sertifikatbestemmelser, og hvert vedlegg er inkorporert i norsk rett gjennom hver sin bestemmelse i forskriften om miljømessig sikkerhet. Nedenfor omtales vedleggene som har sertifikatkrav.

MARPOL vedlegg I om hindring av oljeforurensing gjelder for norske og utenlandske skip, jf. miljø sikkerhetsforskriften § 1 jf. § 4. Kravene i vedlegget gjelder i utgangspunktet for alle skip, jf. MARPOL vedlegg I regel 2, og omfatter derfor også fiskefartøy uavhengig av størrelse. Kravet til sertifikat følger av MARPOL vedlegg I regel 7, og gjelder for alle skip (også fiskefartøy) med bruttotonnasje 400 eller mer og dessuten for oljetankskip med bruttotonnasje 150 eller mer. Krav om sertifikat gjelder bare for skip som brukes i reiser til havner eller offshoreterminaler som hører inn under jurisdiksjonen til andre parter i denne konvensjonen, se MARPOL vedlegg I regel 7. *Utenlandske fiskefartøy med bruttotonnasje 400 eller mer som anløper norsk havn skal derfor ha sertifikat etter MARPOL vedlegg I, såkalt IOPP-sertifikat, dette gjelder dermed også for russiske fiskefartøy med bruttotonnasje 400 eller mer.*

Forskriften om miljømessig sikkerhet § 7 jf. MARPOL vedlegg II om hindring av forurensing fra skadelige stoffer i bulk er ikke relevant for fiskefartøy, se virkeområdebestemmelsen i vedlegget regel 2.

MARPOL vedlegg IV om hindring av kloakkforurensing fra skip og flyttbare innretninger, jf. miljø sikkerhetsforskriften § 9, gjelder på strekningen Lindesnes til svenskegrensen. Russiske fiskefartøy kan

¹ I tillegg er en bestemmelse om skip til skip overføring av olje tatt inn regelverk som Kystverket forvalter, se forskrift om miljømessig sikkerhet § 4 og MARPOL vedlegg I regel 42, men det er ikke relevant i denne sammenhengen

etter russiske regler som gjennomfører MARPOL være omfattet av sertifikatplikten i MARPOL vedlegg VI regel 5.

MARPOL vedlegg VI om hindring av luftforurensning fra skip og flyttbare innretninger , gjelder for norske og utenlandske skip, jf. miljøsikkerhetsforskriften § 1 jf. § 12. Kravene i vedlegget gjelder i utgangspunktet for alle skip, jf. MARPOL vedlegg VI regel 1, og omfatter derfor også fiskefartøy uavhengig av størrelse. Kravet til sertifikat følger av MARPOL vedlegg VI regel 6, og gjelder for alle skip (også fiskefartøy) med bruttotonnasje 400 eller mer og dessuten for oljetankskip med bruttotonnasje 150 eller mer. Krav om sertifikat gjelder bare for skip som brukes i reiser til havner eller offshoreterminaler som hører inn under jurisdiksjonen til andre parter i denne konvensjonen, se MARPOL vedlegg VI regel 6. *Utenlandske fiskefartøy med bruttotonnasje 400 eller mer som anløper norsk havn skal derfor ha sertifikat etter MARPOL vedlegg II, såkalt IAPP-sertifikat, dette gjelder dermed også for russiske fiskefartøy med bruttotonnasje 400 eller mer.*

Med hilsen

Thomas Angell Bergh
Underdirektør

Hei igjen,

Jeg viser til tidligere telefon- og e-postkorrespondanse om EUs havneforbud og det norske unntaket for fiskefartøy jf. [sanksjonsforskriften](#) § 19 tredje ledd bokstav a.

Vi ber om en juridisk redegjørelse for hvorfor russiskflaggede fiskefartøy innenfor norsk jurisdiksjon skal være sertifisert etter MARPOL og dermed være omfattet av EUs forordning article 3ea punkt 3 (a).

Vi ber om å få det oversendt så snart som mulig – helst i løpet av dagen.

Beklager kort frist og på forhånd tusen takk.

Med vennlig hilsen

Lillian S. Siggerud Kragelund
