Production licences at 1 January 2002¹

The interests shown for each production licence apply to the licence as such, and not necessarily to fields which might lie within the licence. Interests will differ for unitised fields or for those in which the sliding scale has been exercised. See chapters 14-16 for information on interests in the various fields. Production licences which cover all or part of a field are indicated by the use of bold text in the heading for that licence. When the production licence covers only part of a field, the production licence(s) embracing the rest of the field are shown in brackets next to the field designation in the heading [for example: from production licence 034: Tune (part) (+ PL 053 and 190)]. The operator is indicated with an *.

Since interests are shown to no more than three decimal places, they may not add up to exactly 100 per cent in some production licences.

¹ The sale of about 6.5 per cent of the SDFI's assets in March 2002 is reflected in the interests shown.
