Environment 2005

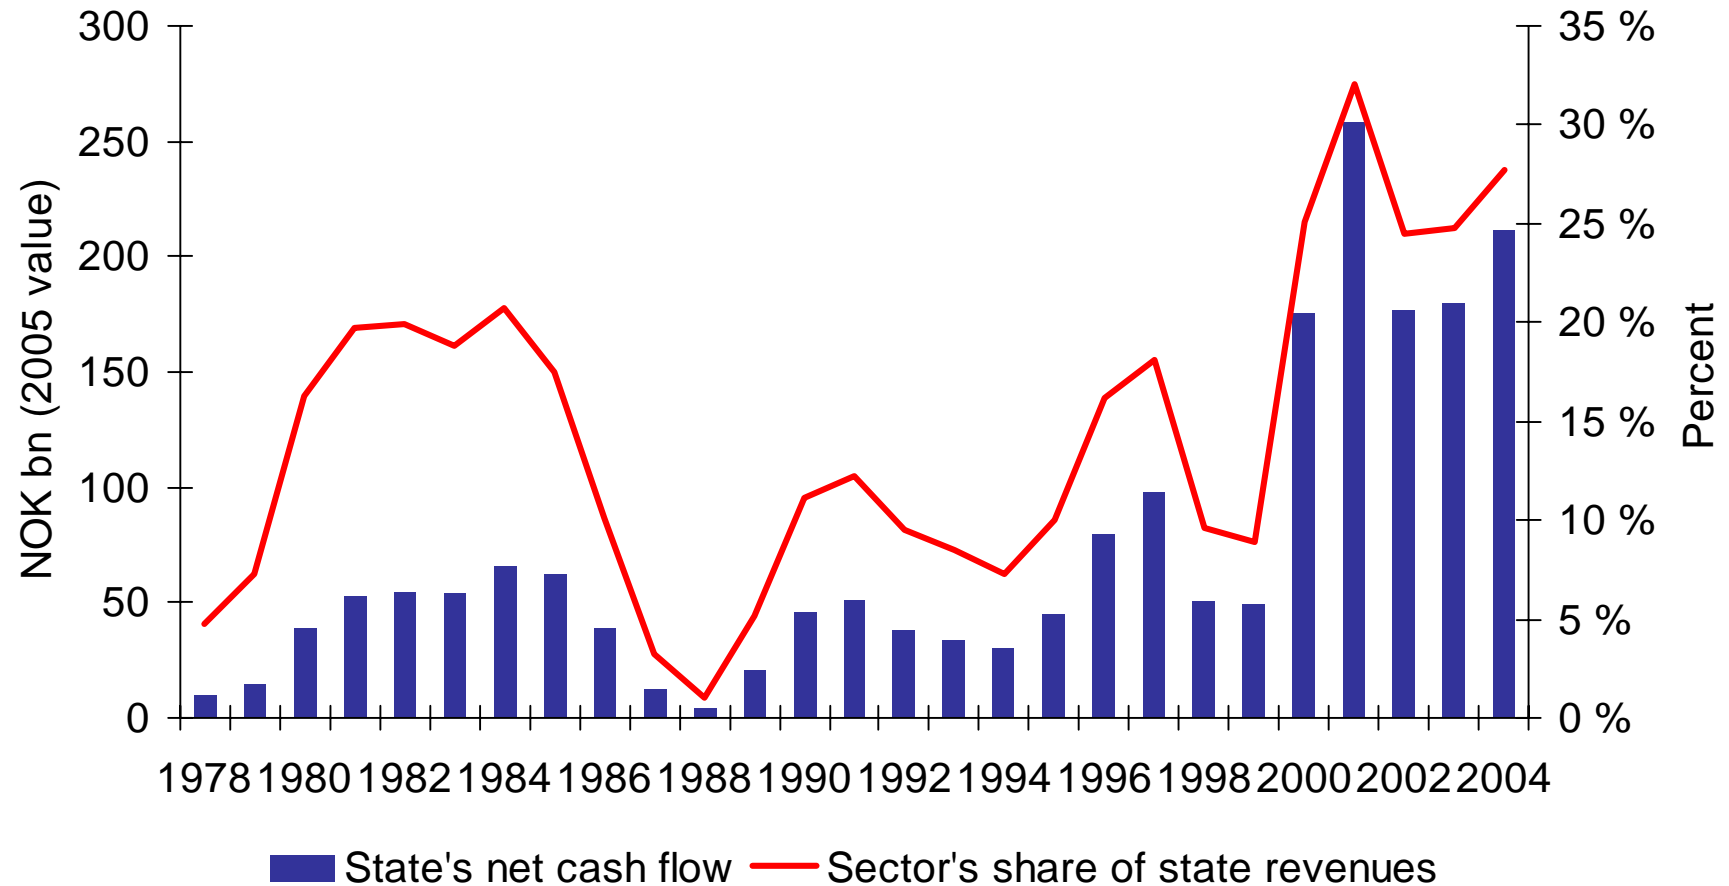

Production of saleable petroleum

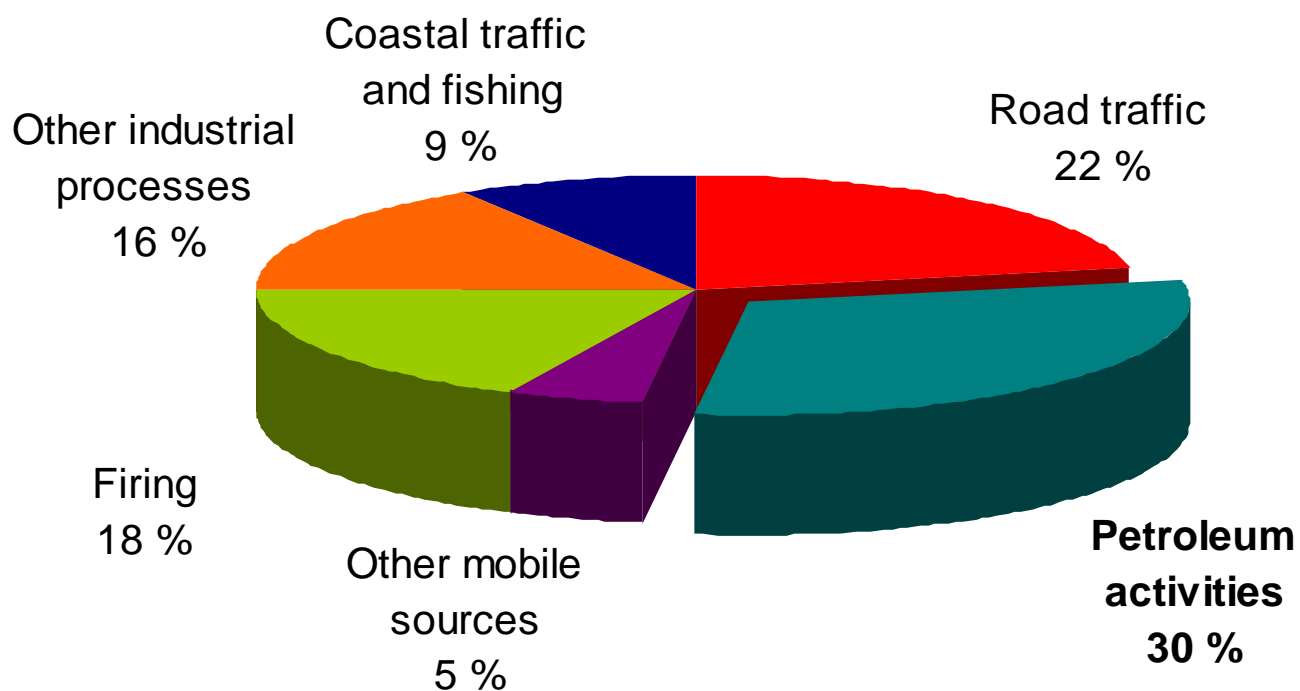

Source: MPE/NPD

The state's net cash flow from petroleum activities

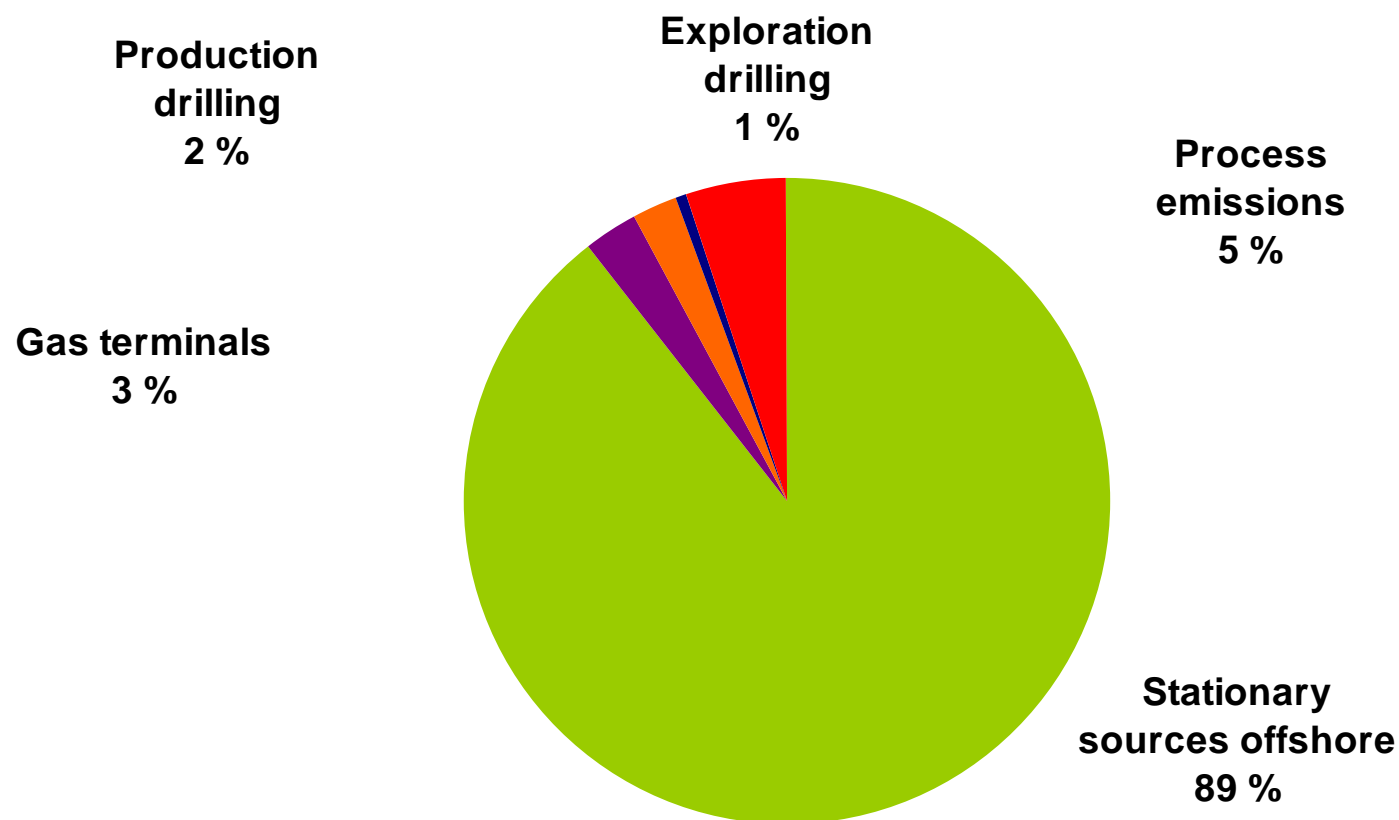

Source: MPE/FIN

Sources of Norwegian emissions of CO₂, 2003

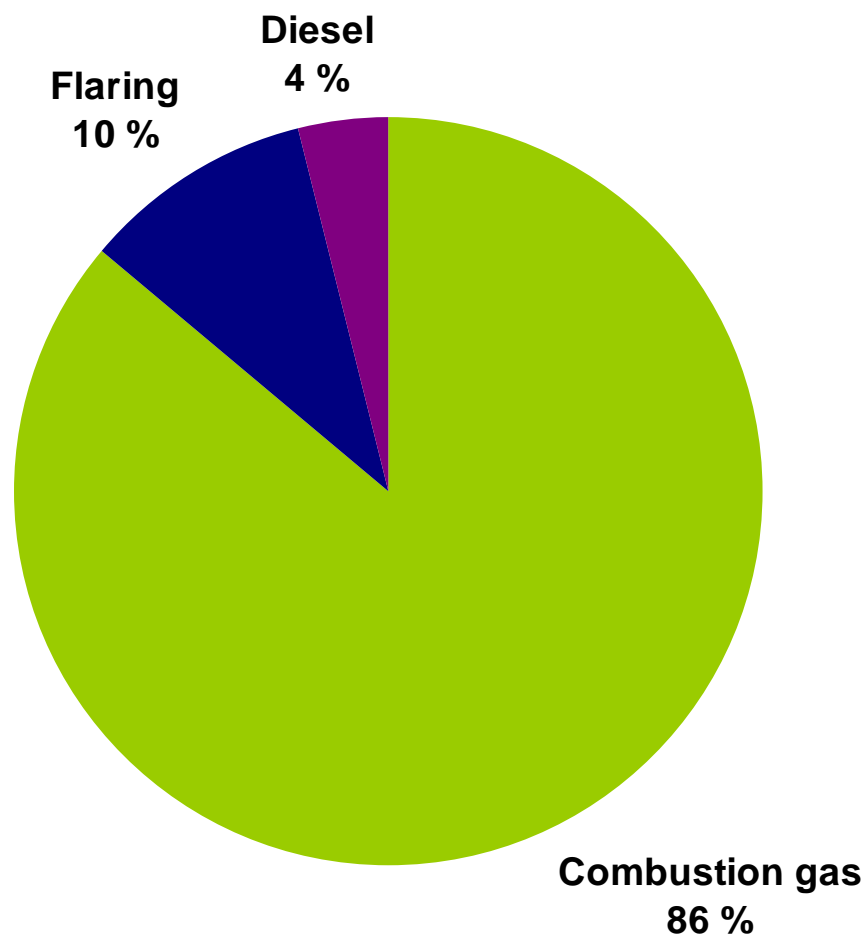

Source: Statistics Norway

Taxable CO₂ emissions from petroleum activities 2003, by source

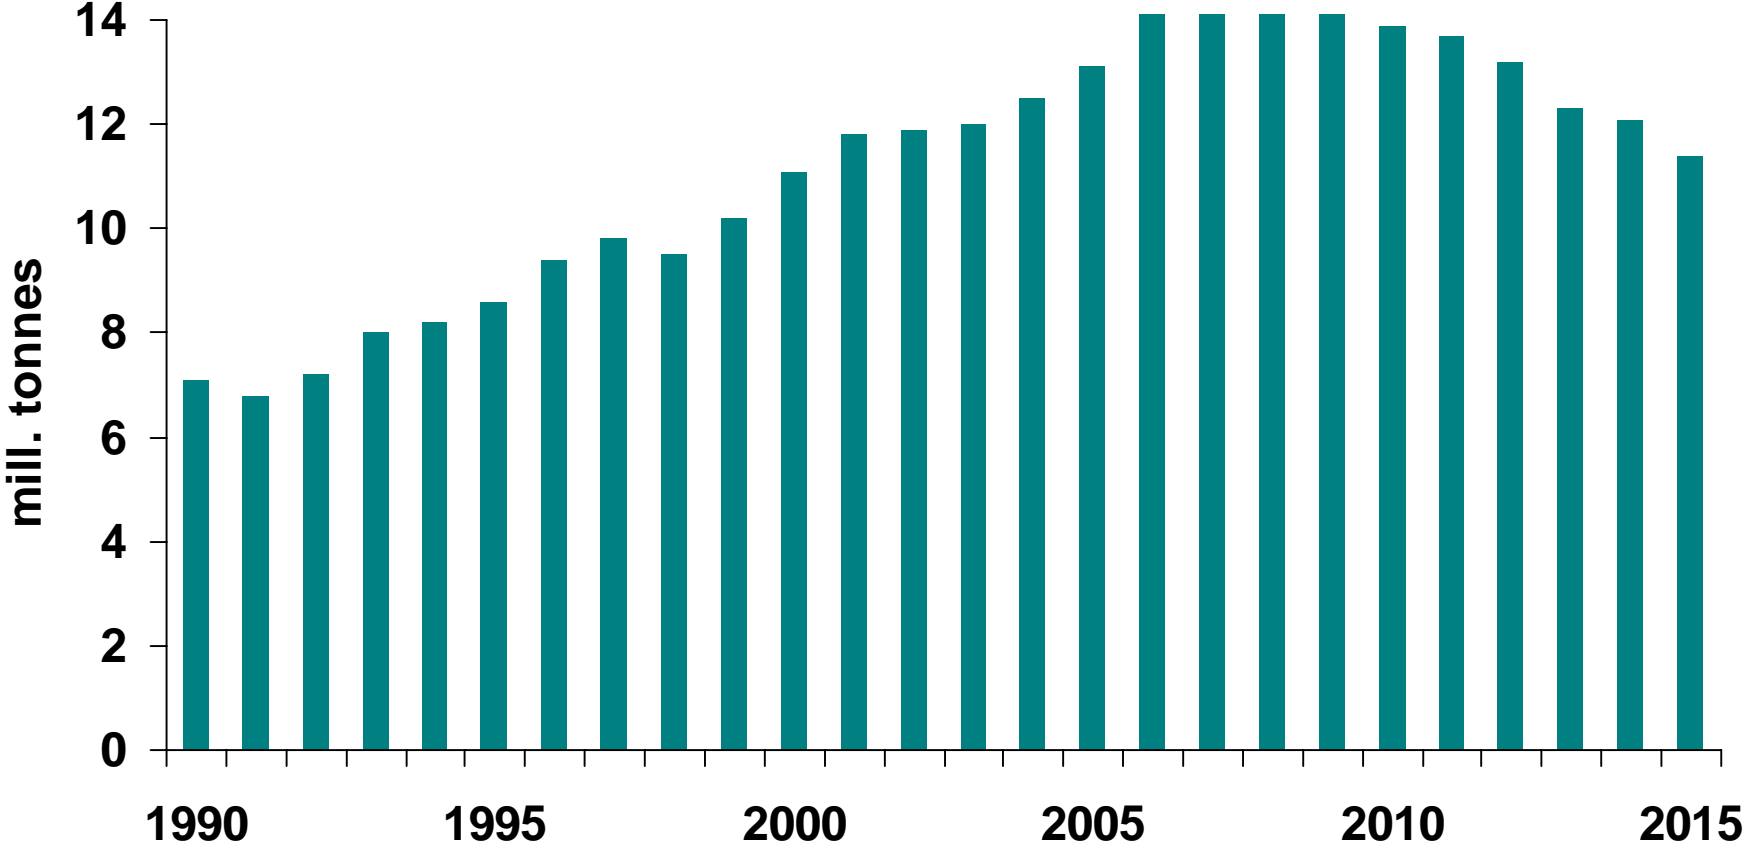

Source: MPE/NPD

Taxable CO₂ emissions from oil and gas production, by source, 2003

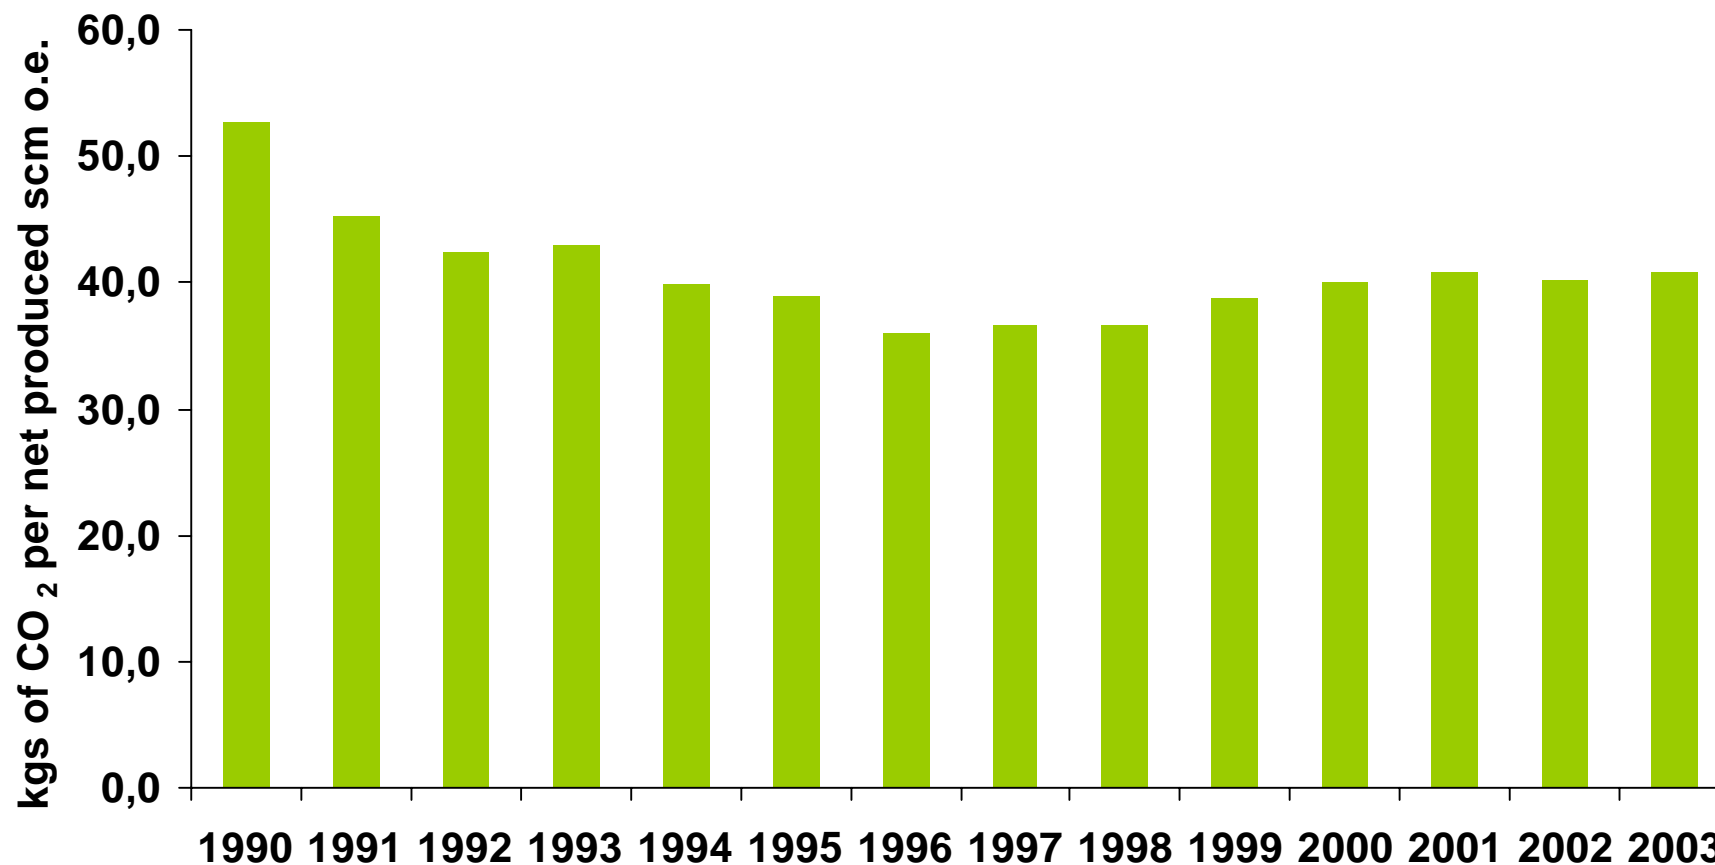

Source: NPD

Total emissions of CO₂ from the Norwegian petroleum sector

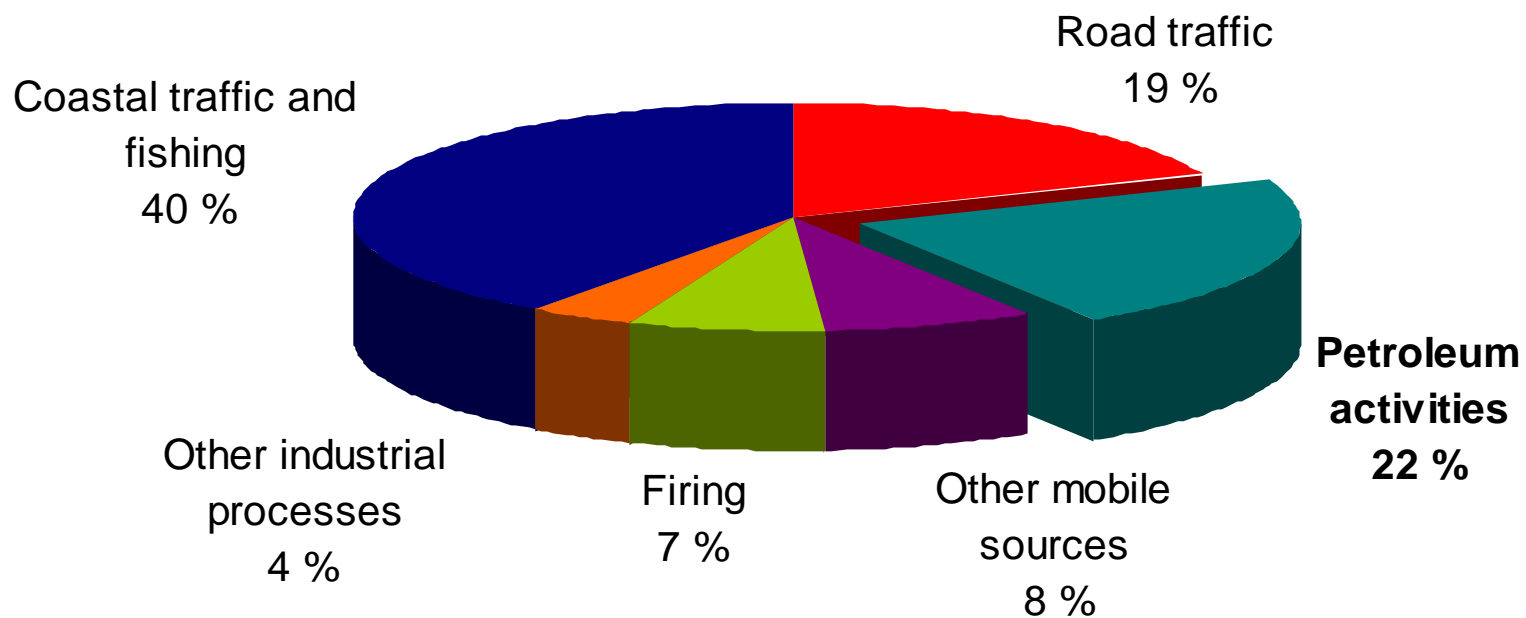

Source: MPE/NPD

Emissions of taxable CO₂ per produced unit

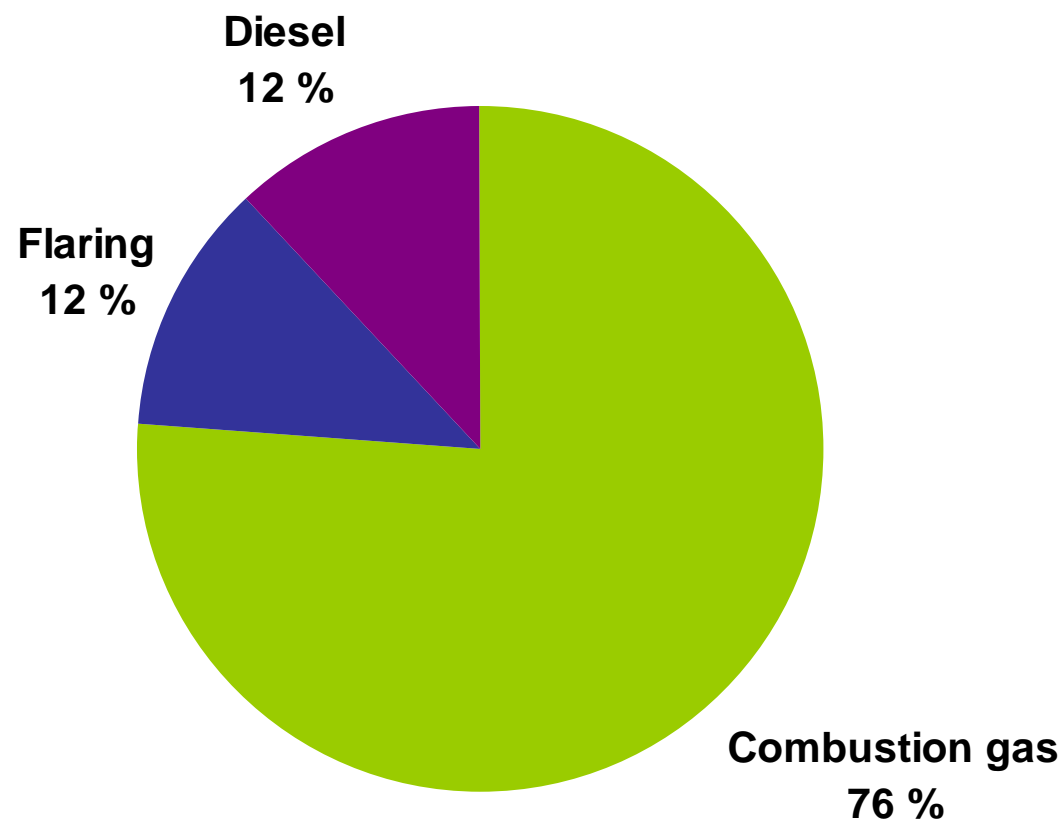

Source: NPD

Sources of NO_x emissions in Norway, 2003

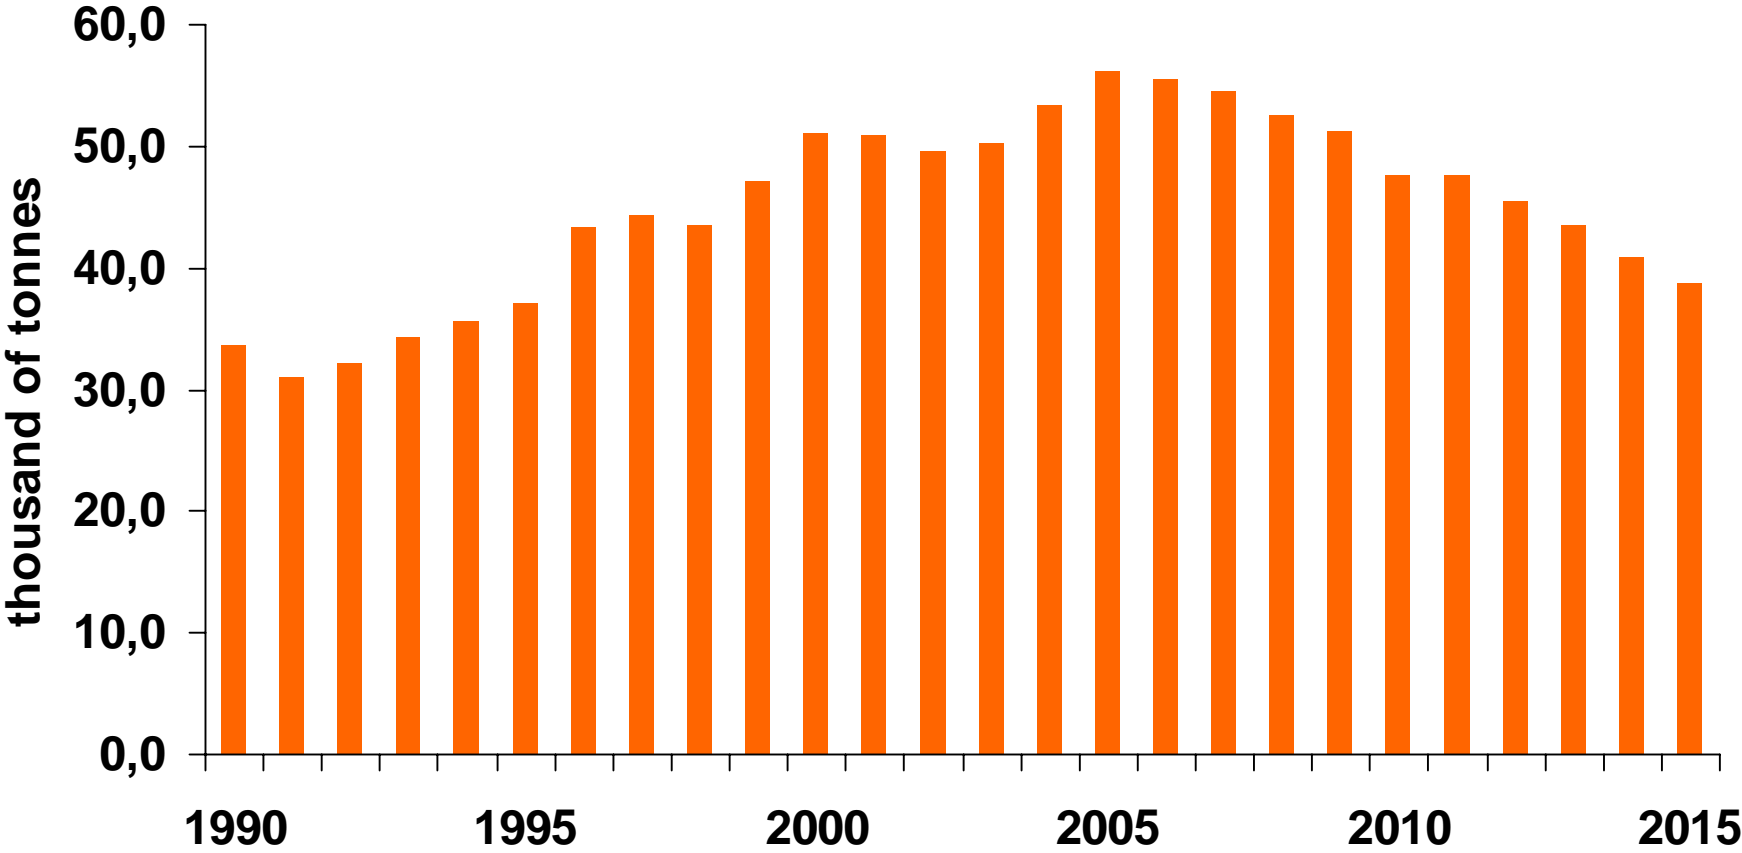

Source: Statistics Norway

NO_x emissions from oil and gas production, by source, 2003

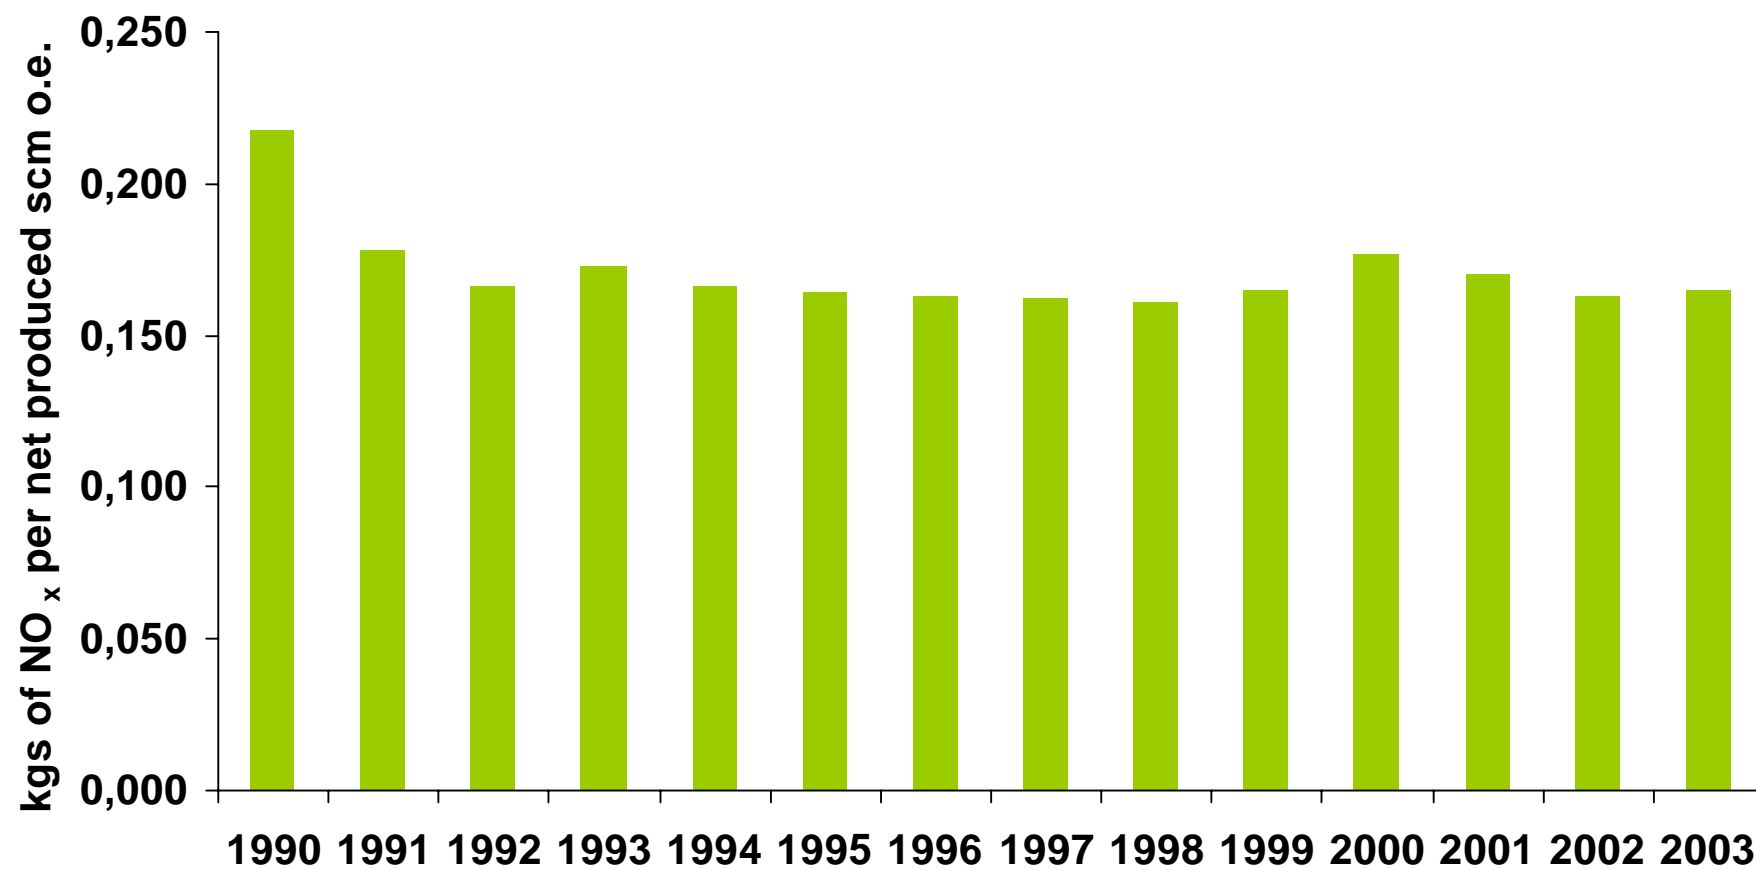

Source: NPD

Total emissions of NO_x from the Norwegian petroleum sector

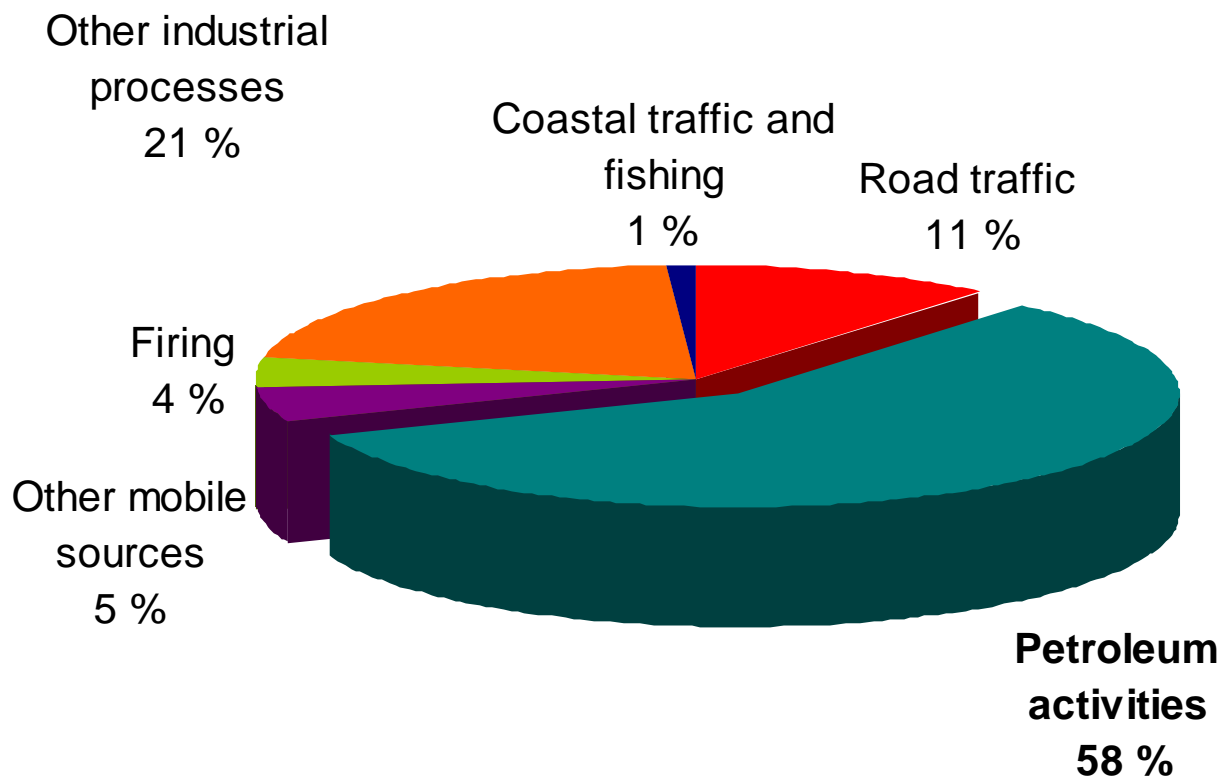

Source: MPE/NPD

Emissions of NO_x per produced unit

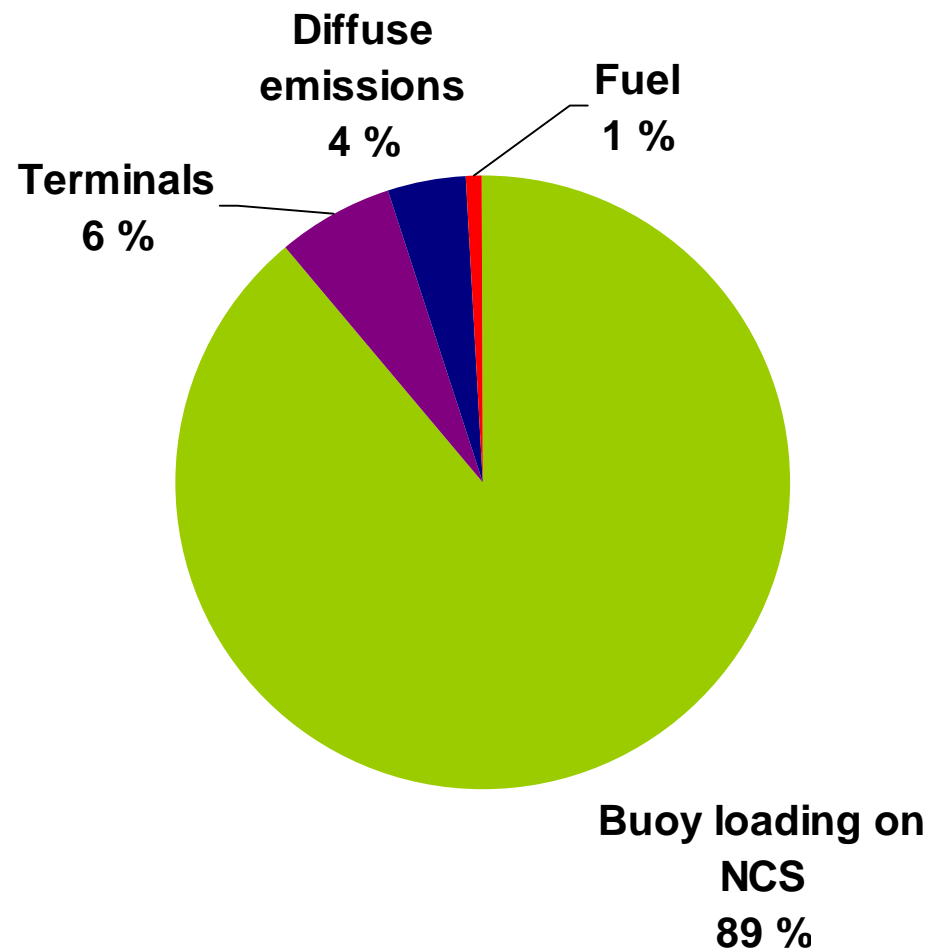

Source: MPE/NPD

Sources of Norwegian emissions of nmVOCs, 2003

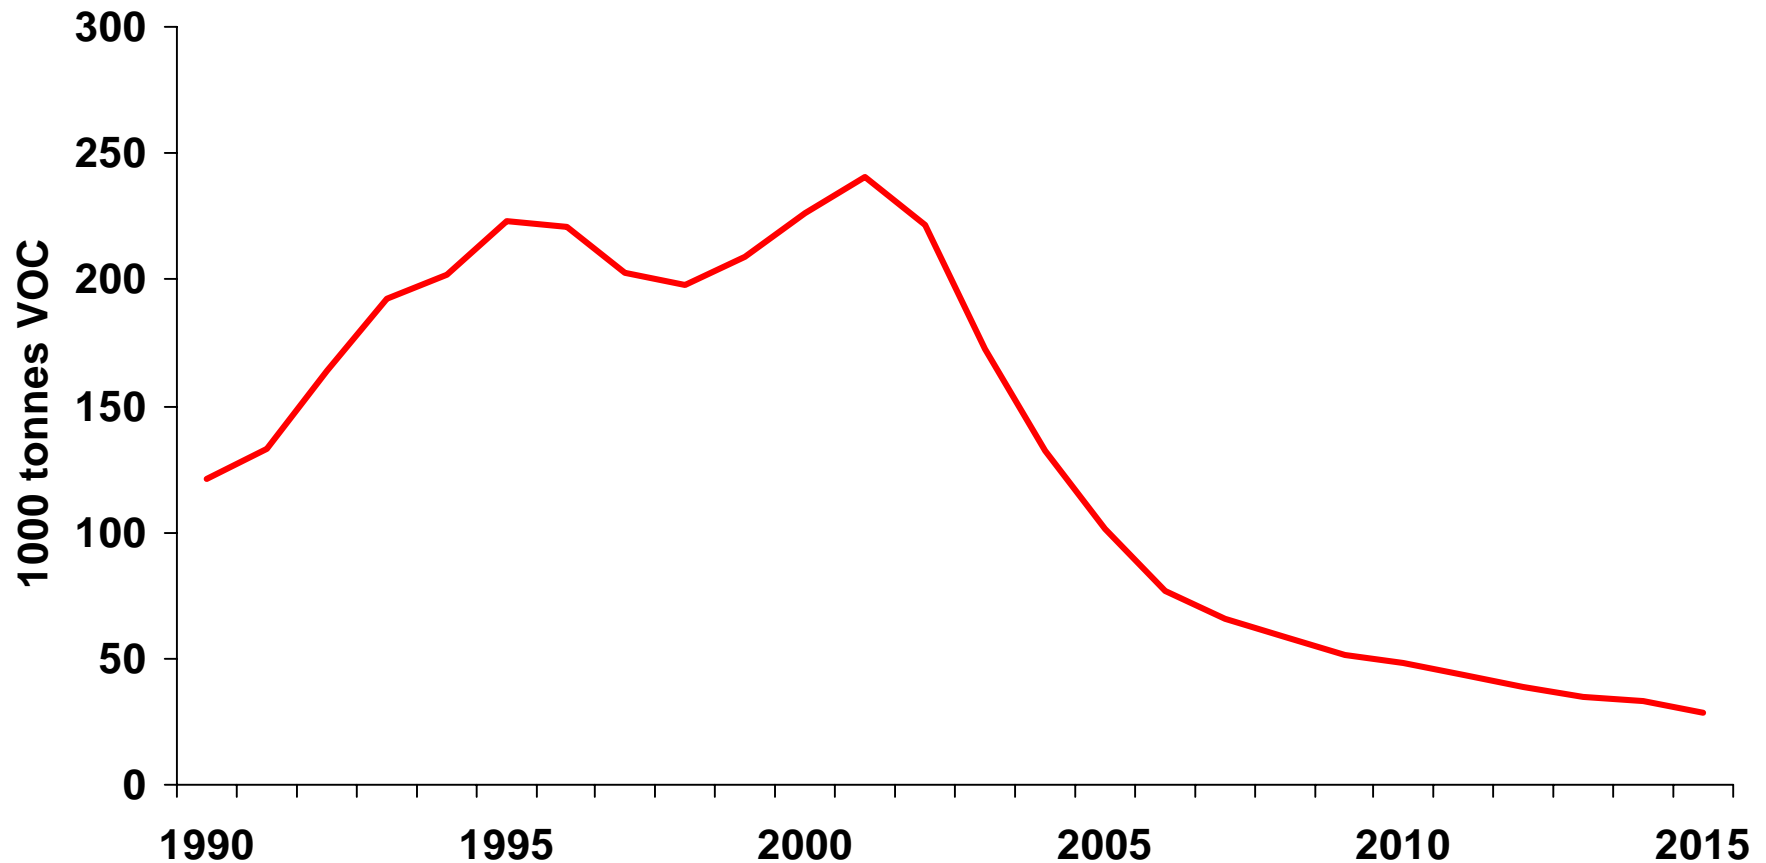

Source: Statistics Norway

Sources of nmVOC emissions from the petroleum sector, 2003

Source: Environment Web

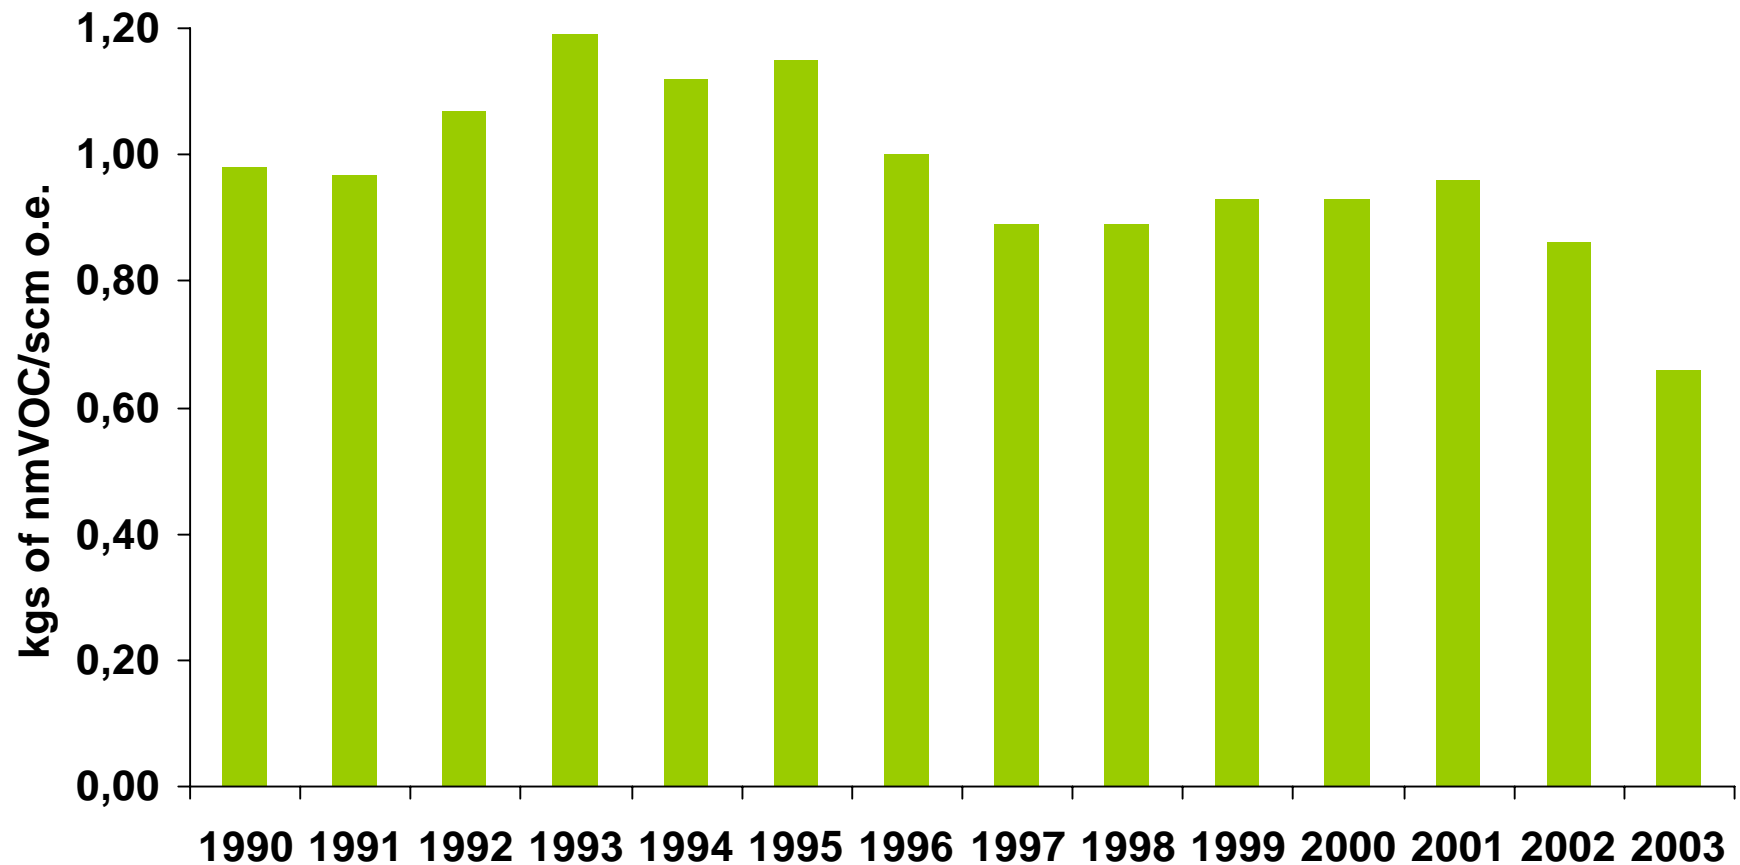

Total emissions of nmVOCs from the Norwegian petroleum sector

Source: MPE/NPD

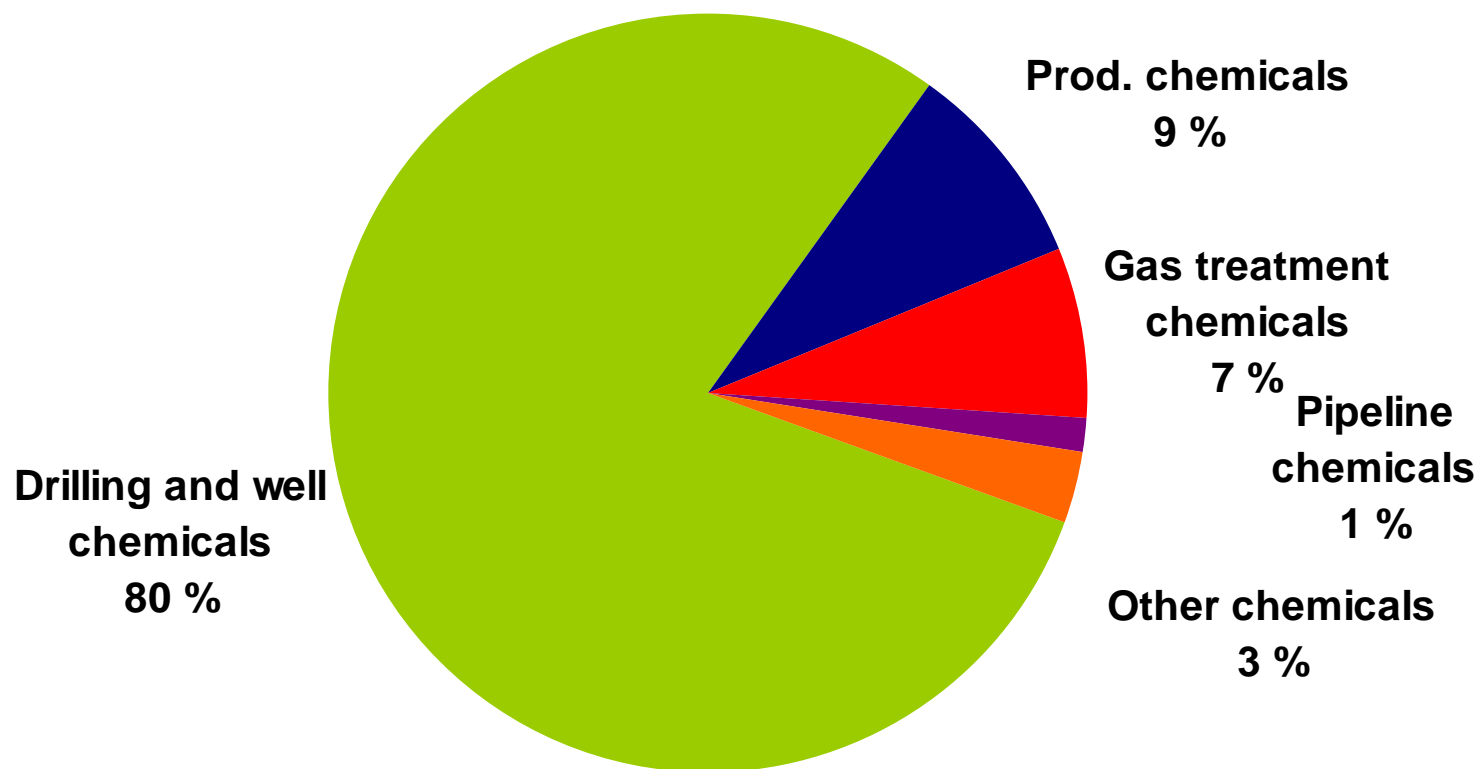

nmVOC emissions per produced unit

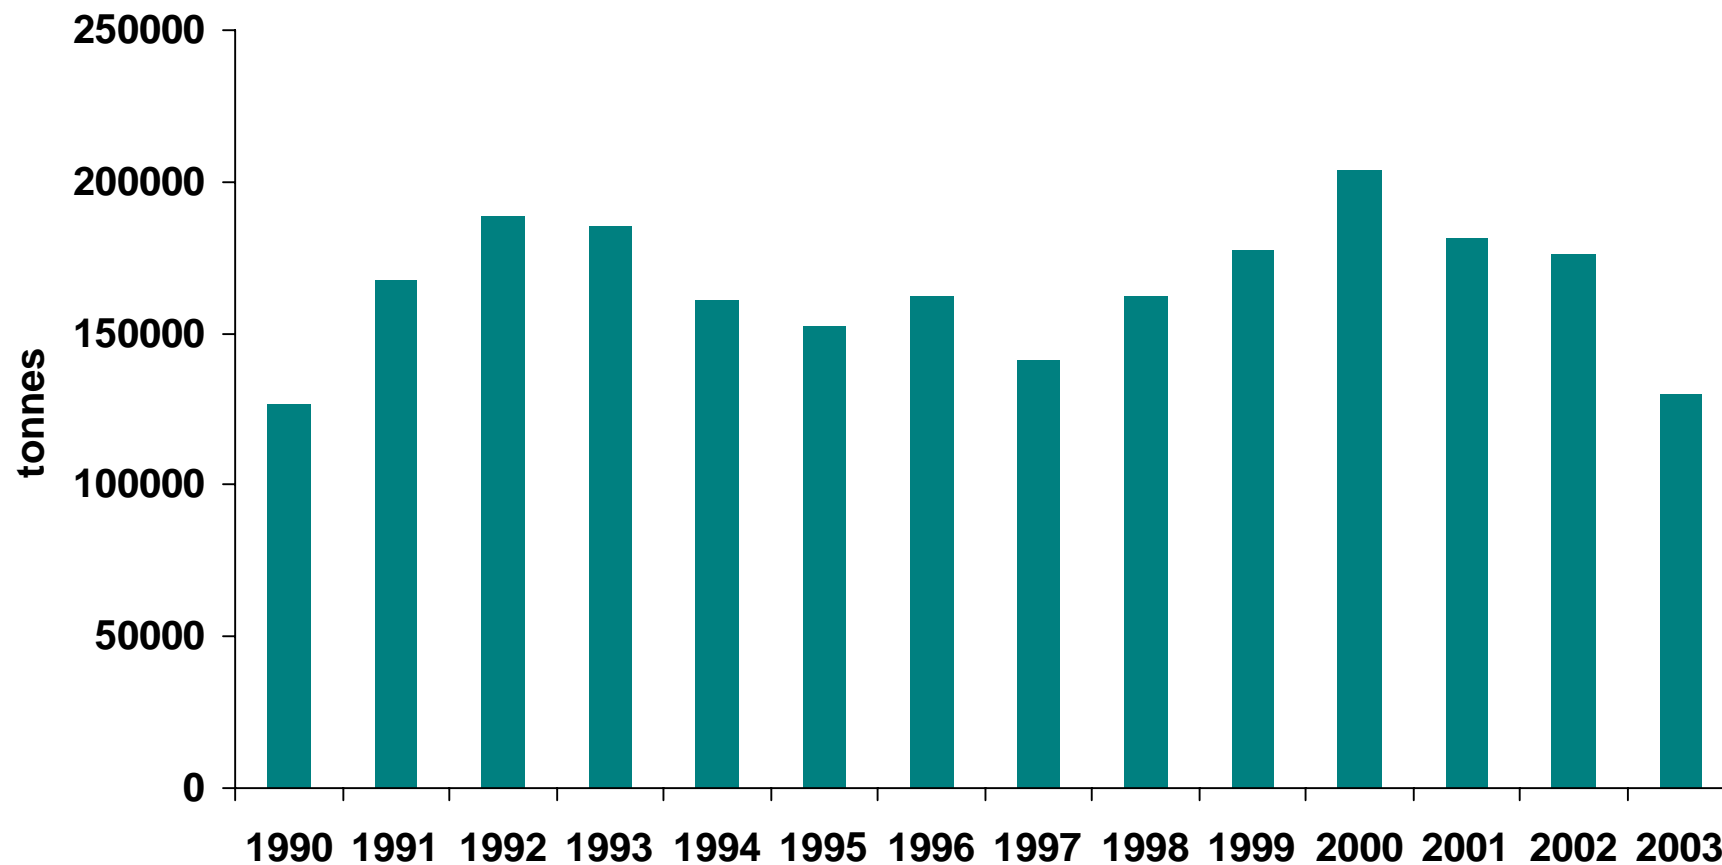

Source: MPE/NPD

Discharges of chemicals on the NCS by activity, 2003

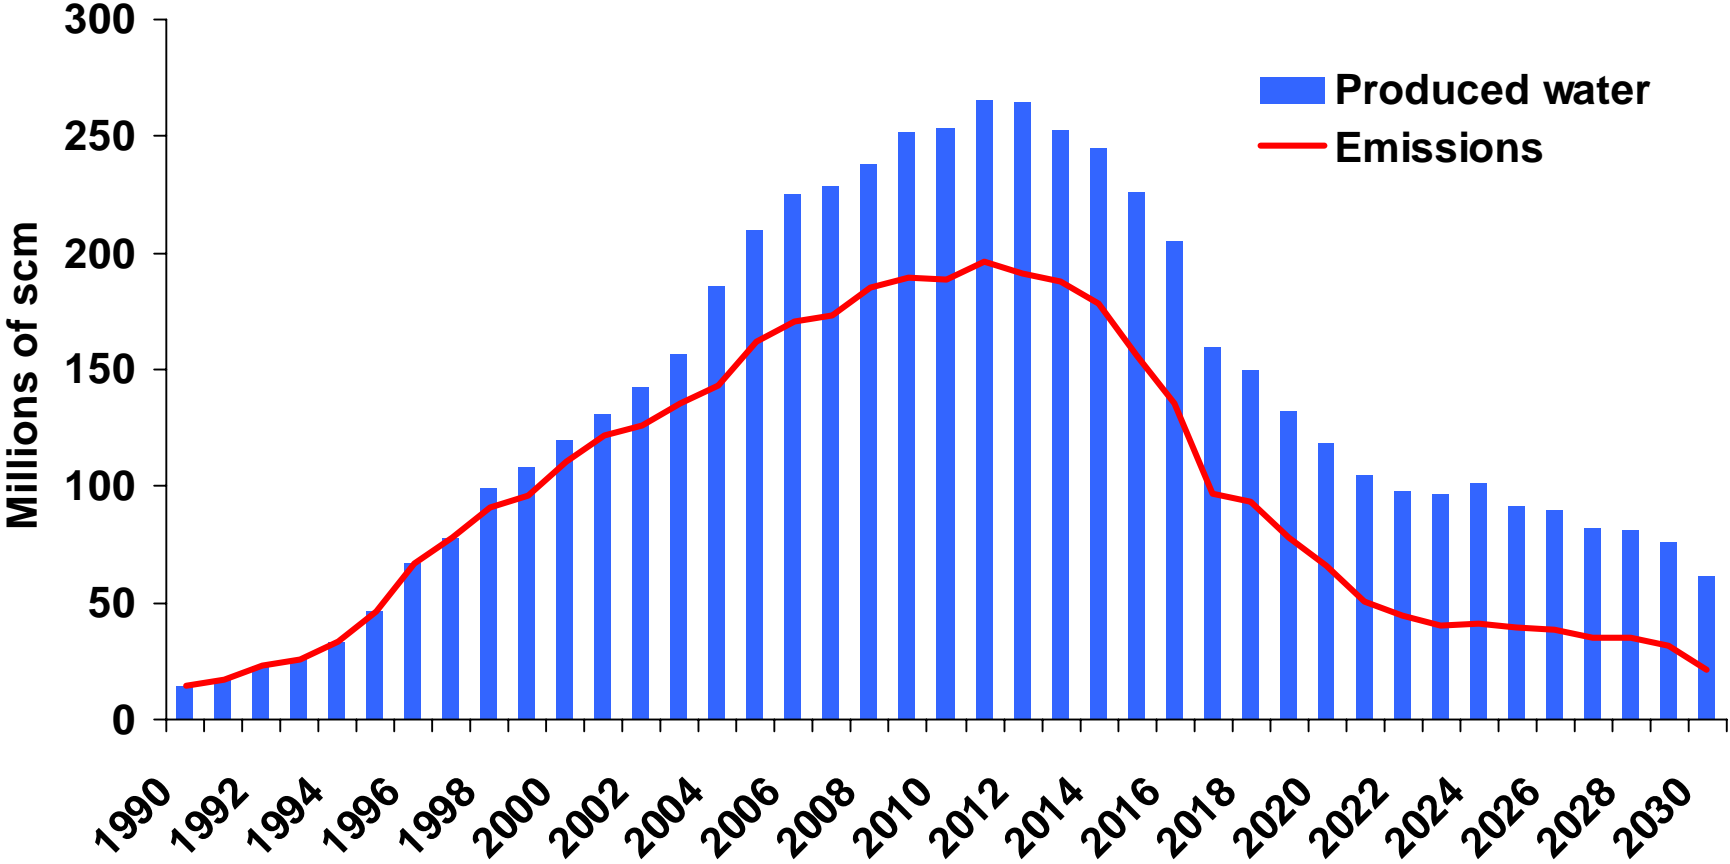

Source: Environment Web

Total chemicals discharged from Norwegian petroleum operations

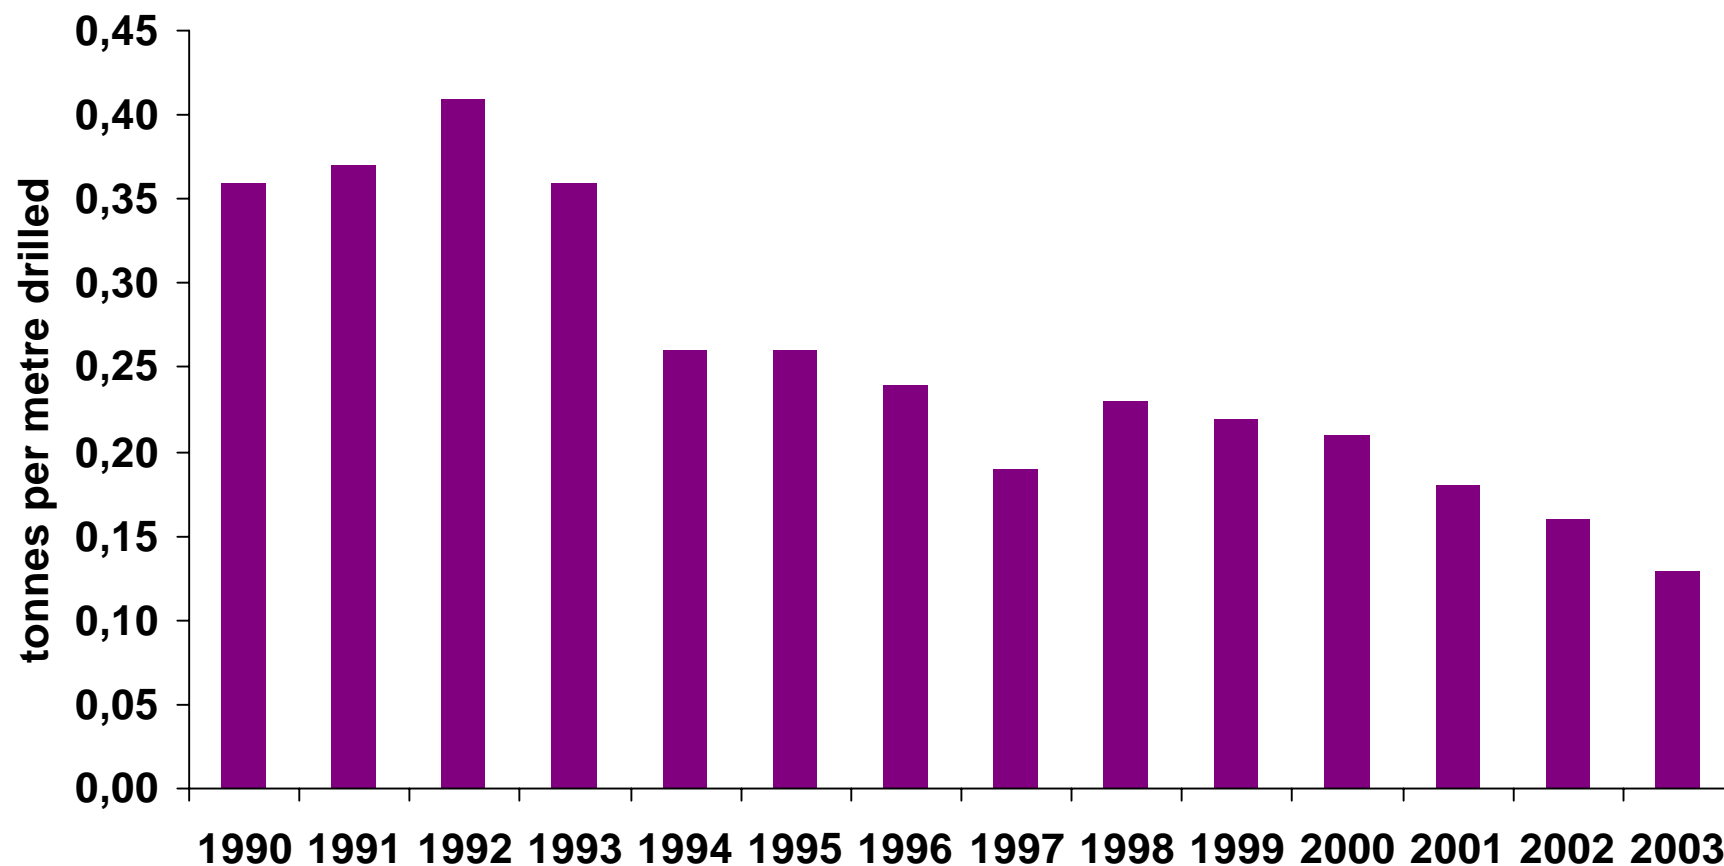

Source: Environment Web

Quantity of produced water and discharges of produced water, historically and forecast

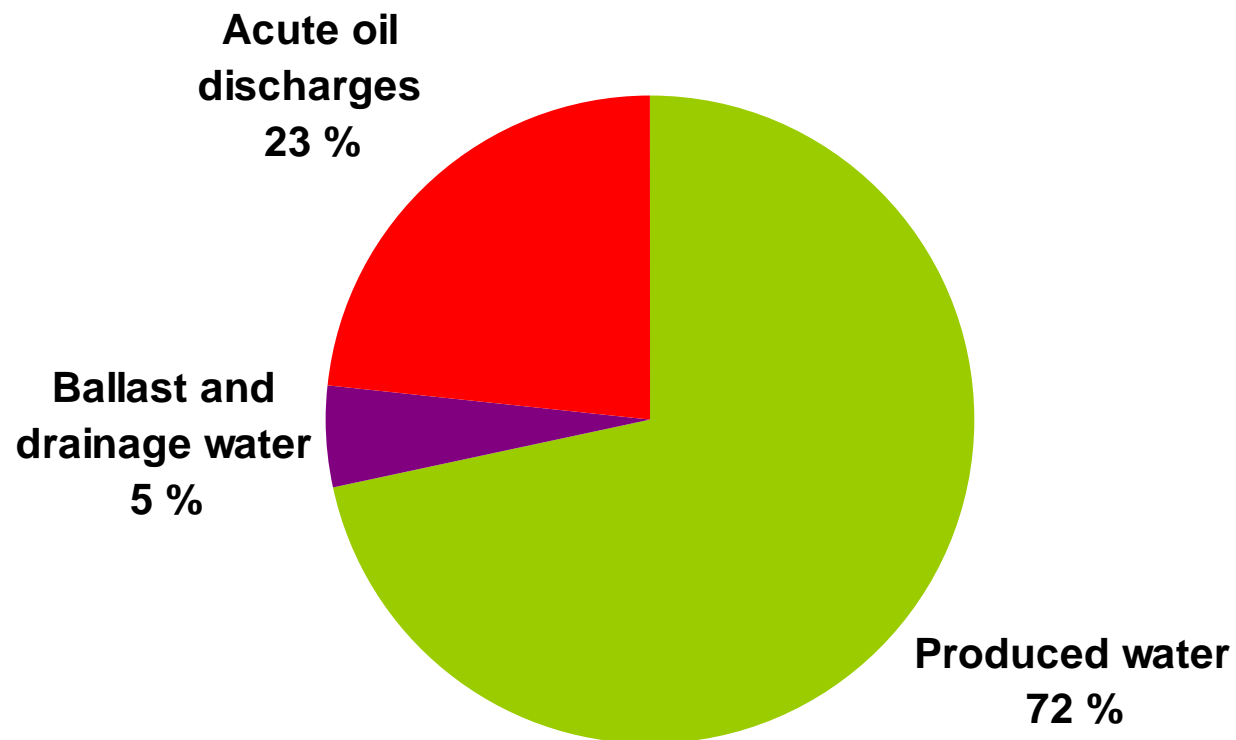

Source: NPD

Discharges of tonnes of drilling chemicals per metre drilled

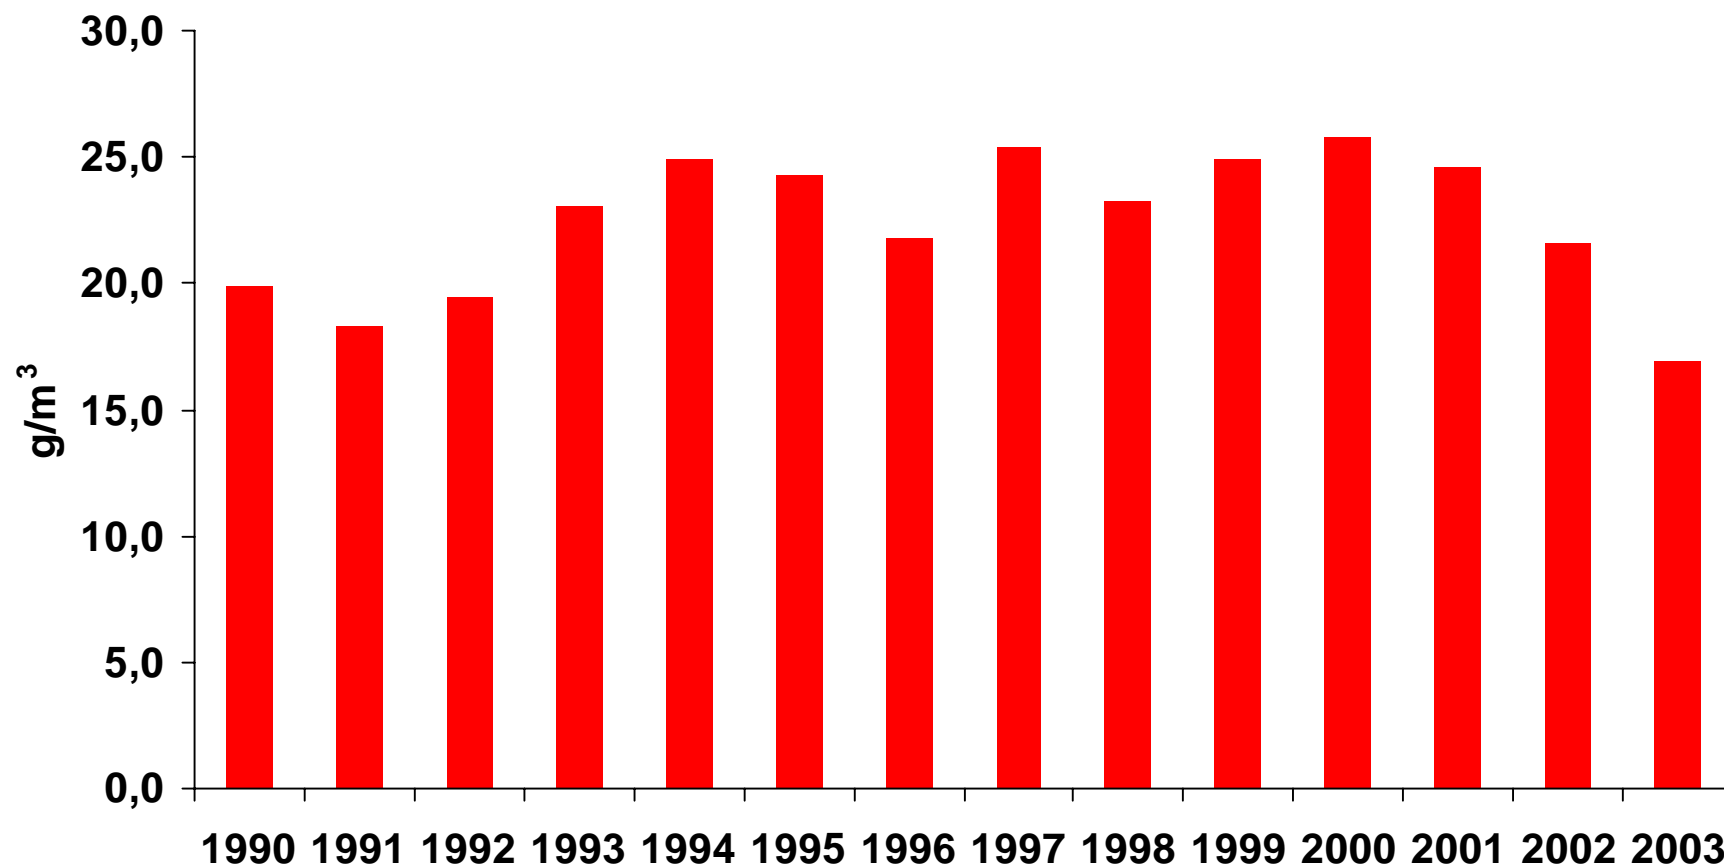

Source: Environment Web/NPD

Oil discharges on the NCS by activity, 2003

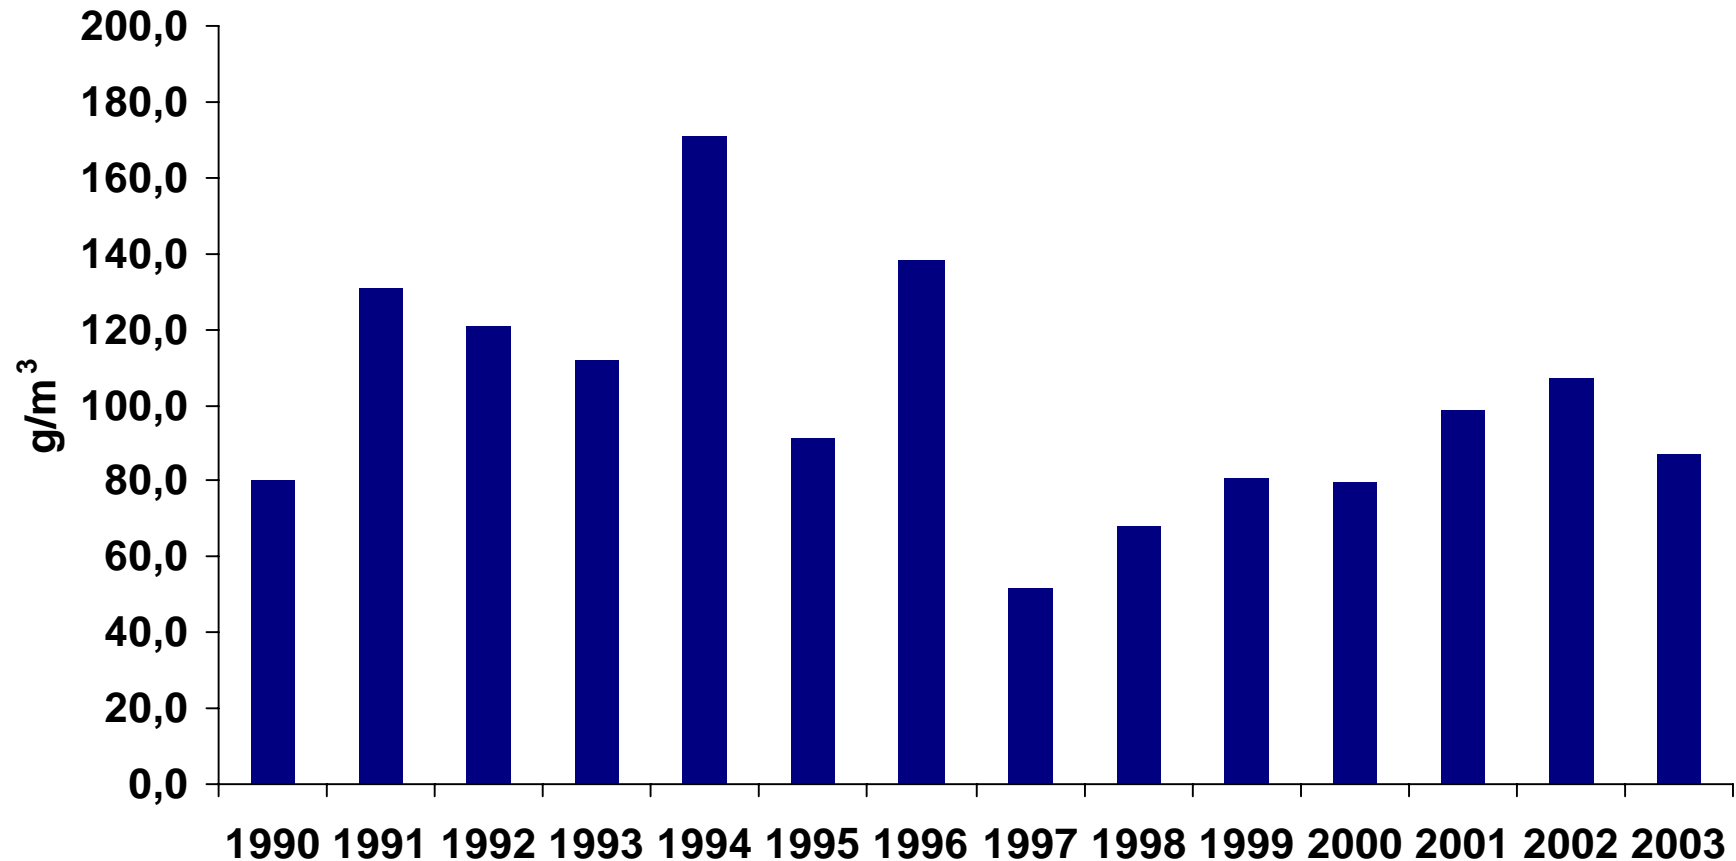

Source: Environment Web

Discharges of oil per cubic metre of produced water

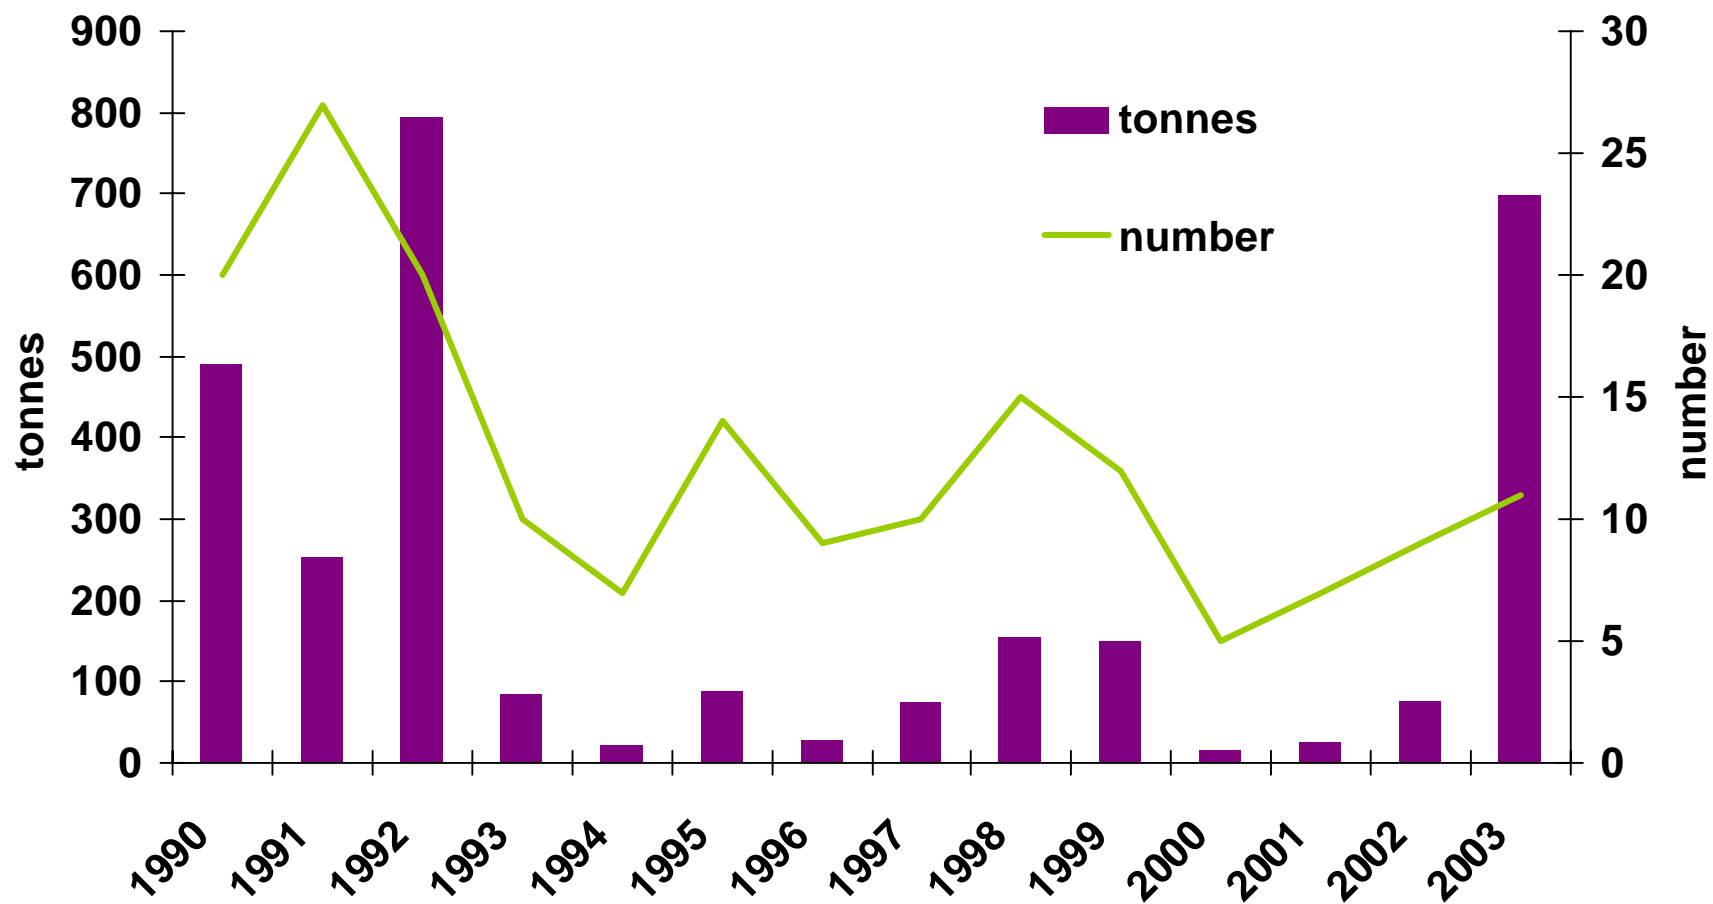

Source: Environment Web

Content of production, injection and pipeline chemicals in produced water

Source: Environment Web

Acute oil discharges of more than one tonne
